Long may she thrill us with exquisite works like What We Lose. . . . The book is a remarkable journey." —Essence From an author of rare, haunting power, a stunning novel about a young African-American woman coming of age—a deeply felt meditation on race, sex, family, and country Raised in Pennsylvania, Thandi views the world of her mother's childhood in Johannesburg as both impossibly distant and ever present. She is an outsider wherever she goes, caught between being black and white, American and not. She tries to connect these dislocated pieces of her life, and as her mother succumbs to cancer, Thandi searches for an anchor—someone, or something, to love. In arresting and unsettling prose, we watch Thandi's life unfold, from losing her mother and learning to live without the person who has most profoundly shaped her existence, to her own encounters with romance and unexpected motherhood. Through exquisite and emotional vignettes, Clemmons

creates a stunning portrayal of what it means to choose to live, after loss. An elegiac distillation, at once intellectual and visceral, of a young woman's understanding of absence and identity that spans continents and decades, *What We Lose* heralds the arrival of a virtuosic new voice in fiction.

At an opulent resort in Montego Bay, Margot hustles to send her younger sister, Thandi, to school. When plans for a new hotel threaten their village, Margot sees not only an opportunity for her own financial independence but also perhaps a chance to admit a shocking secret: her forbidden love for another woman. a thandi is reading features: *Who Do You Serve, Who Do You Protect?* Maya Schenwar, Joe Macaré, Alana Yu-lan Price, 2016-05-30 Essays and reports examining the reality of police violence against Black and brown communities in America. What is the reality of policing in the United States? Do the police keep anyone safe and secure other than the very wealthy? How do recent police killings of young Black people in the United States fit into the historical and global context of

anti-blackness? This collection of reports and essays (the first collaboration between Truthout and Haymarket Books) explores police violence against Black, brown, indigenous, and other marginalized communities, miscarriages of justice, and failures of token accountability and reform measures. It also makes a compelling and provocative argument against calling the police. Contributions cover a broad range of issues including the killing by police of Black men and women, police violence against Latino and indigenous communities, law enforcement's treatment of pregnant people and those with mental illness, and the impact of racist police violence on parenting. There are also specific stories such as a Detroit police conspiracy to slap murder convictions on young Black men using police informant, and the failure of Chicago's much-touted Independent Police Review Authority, the body supposedly responsible for investigating police misconduct. The title *Who Do You Serve, Who Do You Protect?* is no mere provocation: the book also explores alternatives for keeping communities safe. Contributors include William C. Anderson, Candice Bernd, Aaron Cantú, Thandi Chimurenga, Ejeris Dixon, Adam Hudson, Victoria Law, Mike Ludwig, Sarah Macaraeg, and Roberto Rodriguez. Praise for *Who Do You Serve, Who Do You Protect?* "With heartbreaking, glass-sharp prose, the book catalogs the abuse and destruction of Black, native, and trans bodies. And then, most importantly, it offers real-world solutions." —Chicago Review of Books "A must-read for anyone seeking to understand American culture in the present day." —Xica Nation "This brilliant collection of essays, written by activists, journalists, community organizers and survivors of state violence, urgently confronts the criminalization, police violence and anti-Black racism that is plaguing urban communities. It is one of the most important books to emerge about these critical issues: passionately written with a keen eye towards building a world free of the cruelty and violence of the carceral state." —Beth Richie, author of *Arrested Justice: Black Women, Violence, and America's Prison Nation*

a thandi is reading features: *Hum If You Don't Know the Words* Bianca Marais, 2017-07-11 Perfect for readers of *The Secret Life of Bees* and *The Help*, a perceptive and searing look at Apartheid-era South Africa, told through one unique family brought together by tragedy. Life under Apartheid has created a secure future for Robin Conrad, a ten-year-old white girl living with her parents in 1970s Johannesburg. In the same nation but worlds apart, Beauty Mbali, a Xhosa woman in a rural village in the Bantu homeland of the Transkei, struggles to raise her children alone after her husband's death. Both lives have been built upon the division of race, and their meeting should never have occurred...until the Soweto Uprising, in which a protest by black students ignites racial conflict, alters the fault lines on which their society is built, and shatters their worlds when Robin's parents are left dead and Beauty's daughter goes missing. After Robin is sent to live with her loving but irresponsible aunt, Beauty is hired to care for Robin while continuing the search for her daughter. In Beauty, Robin finds the security and family that she craves, and the two forge an inextricable bond through their deep personal losses. But Robin knows that if Beauty finds her daughter, Robin could lose her new caretaker forever, so she makes a desperate decision with devastating consequences. Her quest to make amends and find redemption is a journey of self-discovery in which she learns the harsh truths of the society that once promised her protection.

Told through Beauty and Robin's alternating perspectives, the interwoven narratives create a rich and complex tapestry of the emotions and tensions at the heart of Apartheid-era South Africa. *Hum If You Don't Know the Words* is a beautifully rendered look at loss, racism, and the creation of family.

a thandi is reading features: If You Keep Digging Keletso Mopai, 2019-01-01 If You Keep Digging is a moving collection of short stories that is an essential addition to current and on-going discussions that affect the youth including those around migration, gender, sexuality and identity. The selection of stories highlights marginalised identities and looks at the daily lives of people who may otherwise be forgotten or dismissed. 'Monkeys' is a skilful commentary on domestic violence, toxic masculinity, patriarchy (and how it is racialised), power dynamics between white and black men and how children come to 'know' that they are white or black. 'Skinned', whose protagonist is a woman with albinism, is a powerful story about learning to accept that you deserve love when the

world constantly tells you otherwise. In 'Fourteen' the author deftly demonstrates the ability to play with concepts of time and reality. It is a compelling story about potential and how one can feel unfulfilled despite having hopes and ambitions.

a thandi is reading features: *Oral Cephalosporins* Robert C. Moellering, 1995 This volume provides an excellent survey of the chemistry, microbiology, pharmacology and clinical use of the oral cephalosporins in general and the newer agents in particular. The cephalosporins have long provided satisfactory treatment for many disorders without causing serious side effects; and over the past fifty years forms with different antimicrobial, pharmacologic and toxicologic properties have been developed. Despite the broad spectrum of their activity against a large variety of gram-positive and gram-negative bacteria, the third-generation oral cephalosporins including the prodrug esters do not work against *Pseudomonas aeruginosa*, methicillin-resistant staphylococci, enterococci or *Bacteroides* species. Many, however, are suitable for treating infections of the respiratory and urinary tracts and of the skin and its structure, as well as certain sexually-transmitted diseases. Authors consider other possible uses, against multi-resistant Enterobacteriaceae for instance, but also point out the limitations of the oral cephalosporins. For those working in the fields of infectious disease, bacteriology, chemotherapy, pharmaceuticals and pharmacokinetics, this book is a valuable source of authoritative information.

This male-dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building. Feminism argues that the male-dominated knowledge represents a skewed perception of reality and is only partial knowledge. Feminism is a generalized, wide-ranging system of ideas about social life and human experience developed from a woman-centered perspective. It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world. The best way to empower women and better the situation for women is to take women's daily experiences and their informal theorizing into account and, on this basis, adopt feminist approaches to building theory and knowledge. *Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory* provides an overview and introduction to the study of feminist theory and practice in the social sciences. This book provides a starting point for further and more advanced study of the nexus of feminism, gender, and development and translates feminist theory and concepts into practice. The chapters investigate, in a historical context, mainstream and contemporary theories of feminism and gender studies. This book is ideal for post-graduate students of social science; researchers of development management, business management, public governance, and gender and development; activists; feminists; and practitioners, stakeholders, researchers, academicians, and students interested in feminist theory and knowledge building.

Has streaming culture rendered music literally meaningless, thanks to the removal of all context beyond the playlist? Are there any traditions left to explore? Has the destruction of the apprenticeship model (young musicians learning from their elders) changed the music irrevocably? Are any sounds off limits? How far out can you go and still call it jazz? Or should the term be retired? These questions, and many more, are answered in *Ugly Beauty*, as Phil Freeman digs through his own experiences and conversations with present-day players. Jazz has never seemed as vital as it does right now, and has a genuine role to play in 21st-century culture, particularly in the US and the UK.

Success is a simple thing that most people believe to be something mysterious and complicated - the reality, according to Paul Bassi, is something completely different. In the vast majority of cases, the people at the top have got there by following disciplines that open to everyone. The truth about success is that it's closer than you might think but harder work than you expect. Anyone can be successful in life - by your own definition, which is the only one that really matters - if you set yourself a central ambition and follow some fundamental principles about how it can be achieved. While the advice in this book may look primarily at business and property, the underlying themes are applicable to whatever life and career you wish to pursue. Drawing on stories from his youth, early career, family life and his current position as one of the Midlands' most prominent property investors, Paul Bassi shows how you can plan your own journey to success. It won't be easy; it won't happen overnight; and it won't come without making sacrifices. But if you want it badly enough and are prepared to be disciplined and relentless in your approach, it is all perfectly possible. This book will show you exactly what it takes.

[A] humane and refreshingly astringent novel. —Lauren LeBlanc, *The New York Times Book Review* Twenty-year-old Sibel thought she had concrete plans for the summer. She would care for her grandmother in Istanbul, visit her father's grave, and study for the MCAT. Instead, she finds herself watching Turkish soap operas and self-diagnosing her own possible chronic illness with the four humors theory of ancient medicine. Also on Sibel's mind: her blond American boyfriend who accompanies her to Turkey; her energetic but distraught younger sister; and her devoted grandmother, who, Sibel comes to learn, carries a harrowing secret. Delving into her family's history, the narrative weaves through periods of political unrest in Turkey, from military coups to the Gezi Park protests. Told with pathos and humor, Sibel's search for strange and unusual cures is disrupted as she begins to see how she might heal herself through the care of others, including her own family and its long-fractured relationships.
