

Washington Progressive Voters Guide

Washington Progressive Voters Guide: Your Roadmap to the Ballot Box

Are you a progressive voter in Washington state, feeling overwhelmed by the sheer volume of candidates and initiatives on the ballot? Navigating the political landscape can be daunting, especially when trying to align your choices with your values. This comprehensive guide is designed to empower you, providing the information and resources you need to make informed decisions this election cycle. We'll break down key issues, offer insights into candidate platforms, and equip you with the tools to become a truly effective progressive voice in Washington. This isn't just a list; it's your roadmap to a more progressive Washington.

Understanding the Washington Progressive Landscape

Washington state boasts a diverse political landscape, with a significant progressive population actively engaged in shaping its future. However, understanding the nuances of different progressive viewpoints and their impact on policy can be challenging. This guide aims to illuminate key areas of contention and provide clarity on where different candidates and initiatives stand.

Defining "Progressive" in Washington

Before diving into specifics, let's clarify what constitutes a "progressive" stance in Washington's context. It typically involves support for policies promoting social justice, economic equality, environmental protection, and expanding access to healthcare and education. This often translates to support for things like:

Strong labor protections: Fair wages, union rights, and protections against workplace exploitation.
Environmental sustainability: Investing in renewable energy, combating climate change, and protecting natural resources.
Affordable healthcare: Expanding access to healthcare, controlling costs, and supporting single-payer systems or similar reforms.
Criminal justice reform: Addressing systemic racism and inequities within the justice system.
Education reform: Investing in public education, addressing inequities in school funding, and promoting affordable higher education.

This is not an exhaustive list, but it provides a framework for understanding the core tenets of progressive politics in Washington.

Key Issues for Progressive Voters in Washington

Several crucial issues consistently dominate the Washington political scene and are central to progressive voters' concerns.

1. Environmental Protection and Climate Change

Washington faces significant environmental challenges, from wildfire risk to the impacts of climate change. Progressive candidates often champion policies aimed at transitioning to renewable energy, investing in conservation efforts, and implementing stricter environmental regulations. Understanding a candidate's stance on carbon emissions, conservation, and responsible resource management is critical for progressive voters.

2. Healthcare Access and Affordability

The cost of healthcare remains a significant concern for many Washingtonians. Progressive candidates typically advocate for expanding access to affordable healthcare through various mechanisms, including public option programs, strengthening the Affordable Care Act, or even exploring single-payer systems. Examining candidates' positions on healthcare affordability, access to care, and pharmaceutical pricing is essential.

3. Economic Inequality and Worker's Rights

The growing gap between the wealthy and the working class is a significant issue. Progressive candidates often advocate for policies such as raising the minimum wage, strengthening unions, and implementing progressive taxation to address income inequality. Examining candidates' positions on these issues is crucial.

4. Criminal Justice Reform

Progressive voters are typically concerned about systemic inequities within the justice system. This often includes supporting policies such as reducing incarceration rates, addressing police brutality, investing in community-based solutions, and reforming sentencing guidelines.

5. Education Equity and Funding

Access to quality education is a cornerstone of progressive values. Progressive candidates generally advocate for increased funding for public schools, addressing inequities in school funding, and making higher education more affordable.

Finding Information on Candidates and Initiatives

Effectively researching candidates and initiatives requires a multi-pronged approach. Utilize resources like:

The Washington Secretary of State's website: This official website provides voter information, candidate details, and ballot measure descriptions.

Non-partisan voter guides: Many organizations produce non-partisan guides offering summaries of candidates' stances on key issues.

Candidate websites: Directly review the candidates' platforms and statements.

News articles and media coverage: Stay informed through reputable news sources.

Conclusion

Making informed choices as a progressive voter in Washington requires careful consideration of the candidates and initiatives on the ballot. This guide has provided a framework for understanding key issues and resources to help you navigate the election process. By actively engaging in research and utilizing the available tools, you can ensure your voice is heard and contribute to building a more progressive Washington.

FAQs

1. Where can I find my polling place? Check the Washington Secretary of State's website for polling place information.
2. What are the deadlines for voter registration and absentee ballot requests? These deadlines vary; check the Secretary of State's website for the most up-to-date information.
3. How can I get involved in local political organizations? Search online for progressive organizations in your county or city. Many offer volunteer opportunities.
4. What if I'm undecided on a particular candidate or initiative? Thoroughly research each candidate and initiative before making your decision. Consider contacting candidates directly with questions.
5. How can I ensure my ballot is counted? Make sure your ballot is properly filled out and returned

by the deadline. Contact your county elections office if you have any questions or concerns.

washington progressive voters guide: Voting Assistance Guide , 1998

washington progressive voters guide: **The Hidden History of the War on Voting** Thom Hartmann, 2020-02-04 Hartmann's history of voter suppression in America is necessary information given current news about voter registration purges and redistricting...a particularly timely topic for an election year, and anyone who is seriously concerned about the survival of American democracy will want to read this book and apply its lessons.—Booklist America's #1 progressive radio host looks at how elites have long tried to disenfranchise citizens—particularly people of color, women, and the poor—and shows what we can do to ensure everyone has a voice in this democracy. In today's America, only a slim majority of people register to vote, and a large percentage of registered voters don't bother to show up: Donald Trump was elected by only 26 percent of eligible voters. Unfortunately, this is not a bug in our system, it's a feature. Thom Hartmann unveils the strategies and tactics that conservative elites in this country have used, from the foundation of the Electoral College to the latest voter ID laws, to protect their interests by preventing “the wrong people”—such as the poor, women, and people of color—from voting while making it more convenient for the wealthy and white. But he also lays out a wide variety of simple, commonsense ways that we the people can fight back and reclaim our right to rule through the ballot box.

washington progressive voters guide: The Emerging Democratic Majority John B. Judis, Ruy Teixeira, 2004-02-10 ONE OF THE ECONOMIST'S BEST BOOKS OF THE YEAR AND A WINNER OF THE WASHINGTON MONTHLY'S ANNUAL POLITICAL BOOK AWARD Political experts John B. Judis and Ruy Teixeira convincingly use hard data -- demographic, geographic, economic, and political -- to forecast the dawn of a new progressive era. In the 1960s, Kevin Phillips, battling conventional wisdom, correctly foretold the dawn of a new conservative era. His book, *The Emerging Republican Majority*, became an indispensable guide for all those attempting to understand political change through the 1970s and 1980s. At the beginning of the twenty-first century, with the country in Republican hands, *The Emerging Democratic Majority* is the indispensable guide to this era. In five well-researched chapters and a new afterword covering the 2002 elections, Judis and Teixeira show how the most dynamic and fastest-growing areas of the country are cultivating a new wave of Democratic voters who embrace what the authors call progressive centrism and take umbrage at Republican demands to privatize social security, ban abortion, and cut back environmental regulations. As the GOP continues to be dominated by neoconservatives, the religious right, and corporate influence, this is an essential volume for all those discontented with their narrow agenda -- and a clarion call for a new political order.

washington progressive voters guide: **Give Us the Ballot** Ari Berman, 2015-08-04 A National Book Critics Circle Award Finalist, Nonfiction A New York Times Notable Book of 2015 A Washington Post Notable Nonfiction Book of 2015 A Boston Globe Best Book of 2015 A Kirkus Reviews Best Nonfiction Book of 2015 An NPR Best Book of 2015 Countless books have been written about the civil rights movement, but far less attention has been paid to what happened after the dramatic passage of the Voting Rights Act (VRA) in 1965 and the turbulent forces it unleashed. *Give Us the Ballot* tells this story for the first time. In this groundbreaking narrative history, Ari Berman charts both the transformation of American democracy under the VRA and the counterrevolution that has sought to limit voting rights, from 1965 to the present day. The act enfranchised millions of Americans and is widely regarded as the crowning achievement of the civil rights movement. And yet, fifty years later, we are still fighting heated battles over race, representation, and political power, with lawmakers devising new strategies to keep minorities out of the voting booth and with the Supreme Court declaring a key part of the Voting Rights Act unconstitutional. Berman brings the struggle over voting rights to life through meticulous archival research, in-depth interviews with major figures in the debate, and incisive on-the-ground reporting. In vivid prose, he takes the reader from the demonstrations of the civil rights era to the halls of Congress to the chambers of the

Supreme Court. At this important moment in history, Give Us the Ballot provides new insight into one of the most vital political and civil rights issues of our time.

washington progressive voters guide: It's Time to Fight Dirty David M. Faris, 2018 The American electoral system is clearly failing more horrifically in the 2016 presidential election than ever before. In *It's Time to Fight Dirty*, David Faris expands on his popular series for 'The Week' to offer party leaders and supporters concrete strategies for lasting political reform - and in doing so lays the groundwork for a more progressive future. With equal parts playful irreverence and persuasive reasoning, *It's Time to Fight Dirty* is essential reading as we head toward the 2018 midterms... and beyond.

washington progressive voters guide: Use the Power You Have Pramila Jayapal, 2020-07-14 Washington's progressive champion explains how we can achieve a truly inclusive America that works for all of us In November 2016, Pramila Jayapal (D-WA) was elected to the U.S. House of Representatives, the first Indian American woman to serve in that role. Two years later, the fast-rising Democratic star and determined critic of President Donald Trump, according to Politico's Playbook 2017 Power List, won reelection with more votes than any other member of the House. Jayapal, co-chair of the Congressional Progressive Caucus, proved her progressive bonafides when she introduced the most comprehensive Medicare-for-all bill to Congress in February. Behind the story of Jayapal's rise to political prominence lie over two decades of devoted advocacy on behalf of immigrants and progressive causes—and years of learning how to turn activism into public policy that serves all Americans. *Use the Power You Have* is Jayapal's account of the path from sixteen-year-old Indian immigrant to grassroots activist, state senator, and now progressive powerhouse in Washington, DC. Written with passion and insight, *Use the Power You Have* offers a wealth of ideas and inspiration for a new generation of engaged citizens interested in fighting back and making change, whether in Washington or in their own communities.

washington progressive voters guide: Campaign Guide for Congressional Candidates and Committees, 1982

washington progressive voters guide: The Right to Vote Alexander Keyssar, 2009-06-30 Originally published in 2000, *The Right to Vote* was widely hailed as a magisterial account of the evolution of suffrage from the American Revolution to the end of the twentieth century. In this revised and updated edition, Keyssar carries the story forward, from the disputed presidential contest of 2000 through the 2008 campaign and the election of Barack Obama. *The Right to Vote* is a sweeping reinterpretation of American political history as well as a meditation on the meaning of democracy in contemporary American life.

washington progressive voters guide: Before His Time Ben Green, 1999 The moving, true story of the still-unresolved murder of Harry T. Moore, killed in a Christmas Day bombing of his home in 1951, is an important rediscovery of a lost chapter in civil rights history. of photos.

washington progressive voters guide: Washington's Farewell Address George Washington, 1907

washington progressive voters guide: The Closest Governments to the People Stephen James Lundin, 2007

washington progressive voters guide: *Being Right Is Not Enough* Paul Waldman, 2008-05-02 Waldman's book is terrific-good sense mustered with evidence, well argued, and sharply written to boot. I agree fervently with almost everything he writes. This is the indispensable book for the 2006 elections. --Todd Gitlin, author of *The Sixties* and *The Twilight of Common Dreams* A well-sourced, partisan blueprint for undoing Republican control of the nation. --Publishers Weekly Here's the ticket for Democrats to get back in power: read this book, understand what it means to be a true American progressive, expose conservatives as the mean elitists they are, get tough, and fight back. Nobody paints the strengths of progressives and the weaknesses of conservatives like Paul Waldman. --Bill Press, author *How the Republicans Stole Christmas* With clarity and passion, Paul Waldman demonstrates persuasively that the forces of the right have not 'taken over the country,' as the media often lazily put it. They've only taken over politics. That can be reversed, and Waldman

shows exactly how. --Michael Tomasky, Editor, the American Prospect

washington progressive voters guide: Winning Your Election the Wellstone Way Jeff Blodgett, Bill Lofy, Ben Goldfarb, Erik Peterson, 2008-07-10 As the 2008 presidential race dominates political discussion and media coverage worldwide, thousands of lesser-known local contests are being hard-fought in our neighborhoods, cities, and states. *Winning Your Election the Wellstone Way* is based on the work of Wellstone Action, a leading-edge progressive training center that has instructed thousands of political activists, campaign managers, and volunteers, of whom more than two hundred have gone on to run for office and win. Jeff Blodgett and Bill Lofy analyze the crucial lessons learned from many successful (and several losing) campaigns and demystifies what it takes to run for—and win—a political seat. This companion guide to *Politics the Wellstone Way*, the best-selling introduction to political action, features the in-depth knowledge that campaigns need to take energy and engagement to the next level—getting elected. With detailed and informative examples from progressive campaigns at every level throughout the United States, *Winning Your Election the Wellstone Way* combines grassroots organizing with political strategy, articulating a bold populist agenda. If you have ever considered volunteering for a political candidate, working for a campaign, or even running for public office yourself, *Winning Your Election the Wellstone Way* is the key resource you need to devise a sophisticated, progressive, and successful strategy and, ultimately, affect people's lives for the better.

washington progressive voters guide: Strengthening Forensic Science in the United States National Research Council, Division on Engineering and Physical Sciences, Committee on Applied and Theoretical Statistics, Policy and Global Affairs, Committee on Science, Technology, and Law, Committee on Identifying the Needs of the Forensic Sciences Community, 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

washington progressive voters guide: Liberty and Security Conor Gearty, 2013-04-03 All aspire to liberty and security in their lives but few people truly enjoy them. This book explains why this is so. In what Conor Gearty calls our 'neo-democratic' world, the proclamation of universal liberty and security is mocked by facts on the ground: the vast inequalities in supposedly free societies, the authoritarian regimes with regular elections, and the terrible socio-economic deprivation camouflaged by cynically proclaimed commitments to human rights. Gearty's book offers an explanation of how this has come about, providing also a criticism of the present age which tolerates it. He then goes on to set out a manifesto for a better future, a place where liberty and security can be rich platforms for everyone's life. The book identifies neo-democracies as those places which play at democracy so as to disguise the injustice at their core. But it is not just the new 'democracies' that have turned 'neo', the so-called established democracies are also hurtling in the same direction, as is the United Nations. A new vision of universal freedom is urgently required. Drawing on scholarship in law, human rights and political science this book argues for just such a

vision, one in which the great achievements of our democratic past are not jettisoned as easily as were the socialist ideals of the original democracy-makers.

washington progressive voters guide: Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

washington progressive voters guide: Guide to U.S. Elections Deborah Kalb, 2015-12-24 The CQ Press Guide to U.S. Elections is a comprehensive, two-volume reference providing information on the U.S. electoral process, in-depth analysis on specific political eras and issues, and everything in between. Thoroughly revised and infused with new data, analysis, and discussion of issues relating to elections through 2014, the Guide will include chapters on: Analysis of the campaigns for presidency, from the primaries through the general election Data on the candidates, winners/losers, and election returns Details on congressional and gubernatorial contests supplemented with vast historical data. Key Features include: Tables, boxes and figures interspersed throughout each chapter Data on campaigns, election methods, and results Complete lists of House and Senate leaders Links to election-related websites A guide to party abbreviations

washington progressive voters guide: Primary Politics Elaine C. Kamarck, 2018-10-30 Explores one of the most important questions in American politics--how we narrow the list of presidential candidates every four years. Focuses on how presidential candidates have sought to alter the rules in their favor and how their failures and successes have led to even more change--Provided by publisher.

washington progressive voters guide: The Politically Incorrect Guide to Communism Paul Kengor, 2017-10-02 The worst idea in history is back. Communism has wrecked national economies, enslaved whole peoples, and killed more than a hundred million men and women. What's not to like? Too many young Americans are supporting communism. Millennials prefer socialism to capitalism, and 25 percent have a positive view of Lenin. One in four Americans believe that George W. Bush killed more people than Josef Stalin. And 69 percent of Millennials would vote for a socialist for president. They ought to know better. Communism is the most dangerous idea in world history, producing dire poverty, repression, and carnage wherever it has been tried. And no wonder—because communism flatly denies morality, human nature, and basic facts. But it's always going to be different this time. In The Politically Incorrect Guide to Communism, renowned scholar and bestselling author Paul Kengor unmasks communism, exposing the blood-drenched history—and dangerously pervasive influence—of the world's worst ideology.

washington progressive voters guide: Fed Up! Rick Perry, 2010-11-15 Now, do not misunderstand me, America is great. But we are fed up with being over-taxed and over-regulated. We are tired of being told how much salt to put on our food, what kind of cars we can drive, what kinds of guns we can own, what kind of prayers we are allowed to say and where we can say them, what we are allowed to do to elect political candidates, what kind of energy we can use, what doctor we can see. What kind of nation are we becoming? I fear it's the very kind the Colonists fought against. But perhaps most of all, we are fed up because deep down we know how great America has always been, how many great things the people do in spite of their government, and how great the

nation can be in the future if government will just get out of the way. Our fight is clear. We must step up and retake the reins of our government from a Washington establishment that has abused our trust. We must empower states to fight for our beliefs, elect only leaders who are on our team, set out to remind our fellow Americans why liberty is guaranteed in the Constitution, and take concrete steps to take back our country. The American people have never sat idle when liberty's trumpet sounds the call to battle -- and today that battle is for the soul of America.

washington progressive voters guide: Listen, Liberal Thomas Frank, 2016-03-15 From the bestselling author of *What's the Matter With Kansas*, a scathing look at the standard-bearers of liberal politics -- a book that asks: what's the matter with Democrats? It is a widespread belief among liberals that if only Democrats can continue to dominate national elections, if only those awful Republicans are beaten into submission, the country will be on the right course. But this is to fundamentally misunderstand the modern Democratic Party. Drawing on years of research and first-hand reporting, Frank points out that the Democrats have done little to advance traditional liberal goals: expanding opportunity, fighting for social justice, and ensuring that workers get a fair deal. Indeed, they have scarcely dented the free-market consensus at all. This is not for lack of opportunity: Democrats have occupied the White House for sixteen of the last twenty-four years, and yet the decline of the middle class has only accelerated. Wall Street gets its bailouts, wages keep falling, and the free-trade deals keep coming. With his trademark sardonic wit and lacerating logic, Frank's *Listen, Liberal* lays bare the essence of the Democratic Party's philosophy and how it has changed over the years. A form of corporate and cultural elitism has largely eclipsed the party's old working-class commitment, he finds. For certain favored groups, this has meant prosperity. But for the nation as a whole, it is a one-way ticket into the abyss of inequality. In this critical election year, Frank recalls the Democrats to their historic goals-the only way to reverse the ever-deepening rift between the rich and the poor in America.

washington progressive voters guide: Going Red Ed Morrissey, 2016 Popular conservative radio host and blogger Ed Morrissey argues that the fate of conservatism hangs on the 2016 election--and on a mere seven counties that will decide the whole race. Together, these counties are home to only 5 million people (that is, 1.5% of the American population), but it was in these communities that Barack Obama won the 2008 and 2012 elections, and in 2016, they hold the key to the states Republicans must win in order to take back the White House. For Republicans, this is bad news and good news. Bad news, because all seven of the counties pulled for Obama in one or both of the last two elections; good news, because they all voted for George W. Bush in 2004, and due to the Democrats' misadventures under the Obama administration, the door is open for Republicans to win these counties--and the presidency--once again, making a decisive mandate against progressivism for the generation to come. *Going Red* will take readers inside these battlegrounds, weaving never-before-seen data into human portraits that illuminate why these communities have changed from Republican to Democrat, why the Obama administration has disappointed them, and what conservatives can do to win them back in this election cycle--and beyond. With echoes of Nate Silver, Dick Morris, and Charles Murray, this is a timely and crucial book for anyone who cares about conservatism's future--

washington progressive voters guide: Paul Wellstone Bill Lofy, 2005-08-15 Paul Wellstone, we miss you. Few politicians, especially these days, are as willing to stand up and speak the truth as Wellstone was. In this era of flaccid rhetoric and pre-approved sound bites, he had the rare ability to ignite a fire in his audiences. Bill Lofy's excellent biography rekindles that fire and reminds us just how much politicians of Wellstone's honesty, character, and spine are needed---now more than ever. This book should inspire a new generation of voters and political leaders alike. ---Arianna Huffington, columnist and editor of HuffingtonPost.com This book captures the vibrant spirit of my friend Paul Wellstone---the fierce commitment to justice that defined his life, and that shapes his enduring legacy. ---U.S. Senator Russ Feingold Paul Wellstone was a great leader because he fused progressive idealism with a stubbornly pragmatic politics. Bill Lofy's book captures that dual commitment in his story of Wellstone's life, and also shows us the extraordinary human appeal that

Wellstone emanated in his relationships with people in all walks of life. This book is an engaging read that also tells us a lot about the political practice to which we should aspire. ---Frances Fox Piven, author of *The War at Home* This vividly written book captures the life and personal qualities of the late Senator Paul Wellstone. In so doing it provides an illuminating gloss on Max Weber's seminal exposition of the political vocation. It is a jewel of a book. -Fred Greenstein, Princeton University Bill Lofy's fast-paced and readable biography tells the inspirational story of one of the most compelling figures in the history of American politics---Senator Paul Wellstone. Yet Lofy's book is more than just the chronicle of Wellstone's life and political career; it's also an indispensable guide to what ails political life today. Readers politically inclined or not will find in its pages a handbook to the uncertain and often treacherous business of politics and a stirring example for living a courageous and honest life---whether as public servant or private individual.

washington progressive voters guide: *The Untold Story of Women of Color in the League of Women Voters* Carolyn Jefferson-Jenkins, 2020-02-24 *The Untold Story of Women of Color in the League of Women Voters* explores ways in which these women have been marginalized and recognizes how their contributions will positively influence the organization as it moves into its next 100 years. On February 14, 2020, the League of Women Voters of the United States celebrated the 100th anniversary of its founding. Although women of color have always made significant contributions to women's suffrage and the women's movements, their contributions, particularly as they relate to the League of Women Voters (LWV), have been marginalized and relegated to the footnotes of the organization's history. *The Untold Story of Women of Color in the League of Women Voters* adds a new dimension to these conversations. The book is structured to show the progression of the relationship between the League of Women Voters and its members of color as manifested in changes to its policies, practices, symbols, and messaging. It begins with the suffrage movement and continues until the celebration of the 100th anniversary of the League and uses actual correspondence, convention minutes, existing League histories, and personal accounts to tell the League story. Chapter titles disclose the philosophical shifts in attitude at each stage of the organization's evolution.

washington progressive voters guide: *Harvest the Vote* Jane Kleeb, 2020-01-21 From Democratic Party rising star Jane Kleeb, an urgent and stirring road map showing how the Democratic Party can, and should, engage rural America The Democratic Party has lost an entire generation of rural voters. By focusing the majority of their message and resources on urban and coastal voters, Democrats have sacrificed entire regions of the country where there is more common ground and shared values than what appears on the surface. In *Harvest the Vote*, Jane Kleeb, chair of Nebraska's Democratic Party and founder of Bold Nebraska, brings us a lively and sweeping argument for why the Democrats shouldn't turn away from rural America. As a party leader and longtime activist, Kleeb speaks from experience. She's been fighting the national party for more resources and building a grassroots movement to flex the power of a voting bloc that has long been ignored and forgotten. Kleeb persuasively argues that the hottest issues of the day can be solved hand in hand with rural people. On climate change, Kleeb shows that the vast spaces of rural America can be used to enact clean energy innovations. And issues of eminent domain and corporate overreach will galvanize unlikely alliances of family farmers, ranchers, small business owners, progressives, and tribal leaders, much as they did when she helped fight the Keystone XL pipeline. The hot-button issues of guns and abortion that the Republican Party uses to wedge voters against one another can be bridged by putting a megaphone next to issues critical to rural communities. Written with a fiery voice and commonsense solutions, *Harvest the Vote* is both a call to action and a much-needed balm for a highly divided nation.

washington progressive voters guide: *Illiberal Reformers* Thomas C. Leonard, 2016-01-12 The pivotal and troubling role of progressive-era economics in the shaping of modern American liberalism In *Illiberal Reformers*, Thomas Leonard reexamines the economic progressives whose ideas and reform agenda underwrote the Progressive Era dismantling of laissez-faire and the creation of the regulatory welfare state, which, they believed, would humanize and rationalize

industrial capitalism. But not for all. Academic social scientists such as Richard T. Ely, John R. Commons, and Edward A. Ross, together with their reform allies in social work, charity, journalism, and law, played a pivotal role in establishing minimum-wage and maximum-hours laws, workmen's compensation, antitrust regulation, and other hallmarks of the regulatory welfare state. But even as they offered uplift to some, economic progressives advocated exclusion for others, and did both in the name of progress. Leonard meticulously reconstructs the influence of Darwinism, racial science, and eugenics on scholars and activists of the late nineteenth and early twentieth centuries, revealing a reform community deeply ambivalent about America's poor. *Illiberal Reformers* shows that the intellectual champions of the regulatory welfare state proposed using it not to help those they portrayed as hereditary inferiors but to exclude them.

washington progressive voters guide: How the South Won the Civil War Heather Cox Richardson, 2020-03-12 Named one of The Washington Post's 50 Notable Works of Nonfiction While the North prevailed in the Civil War, ending slavery and giving the country a new birth of freedom, Heather Cox Richardson argues in this provocative work that democracy's blood-soaked victory was ephemeral. The system that had sustained the defeated South moved westward and there established a foothold. It was a natural fit. Settlers from the East had for decades been pushing into the West, where the seizure of Mexican lands at the end of the Mexican-American War and treatment of Native Americans cemented racial hierarchies. The South and West equally depended on extractive industries-cotton in the former and mining, cattle, and oil in the latter-giving rise a new birth of white male oligarchy, despite the guarantees provided by the 13th, 14th, and 15th Amendments, and the economic opportunities afforded by expansion. To reveal why this happened, *How the South Won the Civil War* traces the story of the American paradox, the competing claims of equality and subordination woven into the nation's fabric and identity. At the nation's founding, it was the Eastern yeoman farmer who galvanized and symbolized the American Revolution. After the Civil War, that mantle was assumed by the Western cowboy, singlehandedly defending his land against barbarians and savages as well as from a rapacious government. New states entered the Union in the late nineteenth century and western and southern leaders found yet more common ground. As resources and people streamed into the West during the New Deal and World War II, the region's influence grew. Movement Conservatives, led by westerners Barry Goldwater, Richard Nixon, and Ronald Reagan, claimed to embody cowboy individualism and worked with Dixiecrats to embrace the ideology of the Confederacy. Richardson's searing book seizes upon the soul of the country and its ongoing struggle to provide equal opportunity to all. Debunking the myth that the Civil War released the nation from the grip of oligarchy, expunging the sins of the Founding, it reveals how and why the Old South not only survived in the West, but thrived.

washington progressive voters guide: Global Health and International Relations Colin McInnes, Kelley Lee, 2013-05-02 The long separation of health and International Relations, as distinct academic fields and policy arenas, has now dramatically changed. Health, concerned with the body, mind and spirit, has traditionally focused on disease and infirmity, whilst International Relations has been dominated by concerns of war, peace and security. Since the 1990s, however, the two fields have increasingly overlapped. How can we explain this shift and what are the implications for the future development of both fields? Colin McInnes and Kelley Lee examine four key intersections between health and International Relations today - foreign policy and health diplomacy, health and the global political economy, global health governance and global health security. The explosion of interest in these subjects has, in large part, been due to real world concerns - disease outbreaks, antibiotic resistance, counterfeit drugs and other risks to human health amid the spread of globalisation. Yet the authors contend that it is also important to understand how global health has been socially constructed, shaped in theory and practice by particular interests and normative frameworks. This groundbreaking book encourages readers to step back from problem-solving to ask how global health is being problematized in the first place, why certain agendas and issue areas are prioritised, and what determines the potential solutions put forth to address them? The palpable struggle to better understand the health risks facing a globalized world, and to strengthen collective

action to deal with them effectively, begins - they argue - with a more reflexive and critical approach to this rapidly emerging subject.

washington progressive voters guide: Pain Management and the Opioid Epidemic National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Committee on Pain Management and Regulatory Strategies to Address Prescription Opioid Abuse, 2017-09-28 Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

washington progressive voters guide: Official Voters' Pamphlet Oregon. Office of the Secretary of State, 1956-05

washington progressive voters guide: Fear Itself: The New Deal and the Origins of Our Time Ira Katznelson, 2013-03 An exploration of the New Deal era highlights the politicians and pundits of the time, many of whom advocated for questionable positions, including separation of the races and an American dictatorship.

washington progressive voters guide: Time and Social Theory Barbara Adam, 2013-03-01 Time is at the forefront of contemporary scholarly inquiry across the natural sciences and the humanities. Yet the social sciences have remained substantially isolated from time-related concerns. This book argues that time should be a key part of social theory and focuses concern upon issues which have emerged as central to an understanding of today's social world. Through her analysis of time Barbara Adam shows that our contemporary social theories are firmly embedded in Newtonian science and classical dualistic philosophy. She exposes these classical frameworks of thought as inadequate to the task of conceptualizing our contemporary world of standardized time, computers, nuclear power and global telecommunications.

washington progressive voters guide: Political Awakenings Harry Kreisler, 2011-03 As a kid, Noam Chomsky handed out the Daily Mirror at his uncle's newsstand on 72nd Street, inadvertently finding himself in a buzzing intellectual and political hub for European immigrants in New York. Iranian human rights Nobelist Shirin Ebadi and her husband signed their own legal contract, attempting to restore equality to their marriage after the Iranian Revolution effectively erased the legal rights of women. Elizabeth Warren set out to expose those frauds declaring bankruptcy and taking advantage of the system-only to discover, in her research, a very different story of hard-working middle-class families facing economic collapse in the absence of a social safety net. While studying at Oxford, a young Tariq Ali made a bet with a friend that he could work the Vietnam War into every single answer on his final exams. In this rousing, thoughtful, often funny, and always inspiring volume, a diverse and impressive group of thinkers reflect on those formative experiences that shaped their own political commitments. A fascinating new window into the revealing links between the personal and the political, Political Awakenings will engage readers across generations.

washington progressive voters guide: Gender and Sexuality Momin Rahman, Stevi Jackson, 2010-12-06 This new introduction to the sociology of gender and sexuality provides fresh insight into our rapidly changing attitudes towards sex and our understanding of masculine and feminine identities, relating the study of gender and sexuality to recent research and theory, and wider social

concerns throughout the world.

washington progressive voters guide: The Gospel According to the Fix Chris Cillizza, 2012-07-10 A divine guide to deciphering the sinful world of American politics, from the author of the Washington Post's The Fix The political world is full of acronyms, shortcuts, and lingo that stand as a barrier to entry for anyone not in the business. The onset of social media has only made that barrier higher, as insiders tweet furiously to one another in a language most of us can't even understand. Everyday Americans and even political junkies need a how-to manual for understanding what words matter in this arena and why. Enter Brother Chris Cillizza and The Gospel According to the Fix--an essential guide to the wonderfully odd religion of politics. Based on his highly popular blog, The Gospel According to the Fix will teach you something new about politics, no matter who you are and whom you know. In our torturous political climate, this Gospel is the one true source for comprehending what the heck is going on in DC. Chapter and verse, this political Gospel will include parables the likes of: • Why Ron Paul's candidacy is a lot like the TV show Friday Night Lights • What it takes to be Richard Ben Cramer and write the political classic What It Takes • The top ten negative campaign ads of all time • The top ten issues candidates should be discussing but aren't because of the economy • The dos and don'ts of surviving a political sex scandal

washington progressive voters guide: Vietnam Howard Zinn, 2012-11 Zinn's compelling case against the Vietnam War, now with a new introduction. Of the many books that challenged the Vietnam War, Howard Zinn's stands out as one of the best--and most influential. It helped sparked national debate on the war. It includes a powerful speech written by Zinn that President Johnson should have given to lay out the case for ending the war.

washington progressive voters guide: We Do Our Part Charles Peters, 2017-03-07 The legendary editor who founded the Washington Monthly explores "the resentful, unequal, uncaring parts of today's American culture that Trump has inflamed and that have made Trump possible—and how to cope with them" (The Atlantic). Foreword by Jon Meacham With clarity and wit, the legendary editor Charles Peters explains the chasm that defines us today: the split between the educated elite and the working-class, rural, and religious voters who live in what's condescendingly—but tellingly—known as flyover country. The beginning of the end of Trumpism will come when blue-state sophisticates confront their role in creating the political, economic, and cultural resentments that propelled the forty-fifth president into office. Too many Democrats lost touch with the average American, Peters argues, when the liberal elite became more concerned with being smarter, having better taste, and making more money than with understanding why workers were earning less and hated being regarded with contempt. It was this hatred of being looked down on as bigoted boobs in polyester that united working-class, rural, and evangelical voters, and helped set the stage for the culturally populist backlash of 2016 and beyond. In We Do Our Part, Peters shows us where we have been and where we are going, drawing on his invaluable perspective as a man who has seen America's better days and still believes in the promise that lies ahead. Praise for We Do Our Part "[Peters] weaves a synthesis of mainstream and progressive, centrist and popular thought that would re-anchor the Democratic Party, both in its own traditions and in outreach to the restless, angry swath of the country that elected President Trump. . . . Peters is an American original."—The Washington Post "A great book about modern American history."—Chris Matthews, Hardball

washington progressive voters guide: What Were We Thinking Carlos Lozada, 2020-10-06 The Washington Post's Pulitzer Prize-winning book critic uses the books of the Trump era to argue that our response to this presidency reflects the same failures of imagination that made it possible. As a book critic for The Washington Post, Carlos Lozada has read some 150 volumes claiming to diagnose why Trump was elected and what his presidency reveals about our nation. Many of these, he's found, are more defensive than incisive, more righteous than right. In What Were We Thinking, Lozada uses these books to tell the story of how we understand ourselves in the Trump era, using as his main characters the political ideas and debates at play in America today. He dissects works on the white working class like Hillbilly Elegy; manifestos from the anti-Trump resistance like On

Tyranny and No Is Not Enough; books on race, gender, and identity like *How to Be an Antiracist* and *Good and Mad*; polemics on the future of the conservative movement like *The Corrosion of Conservatism*; and of course plenty of books about Trump himself. Lozada's argument is provocative: that many of these books—whether written by liberals or conservatives, activists or academics, Trump's true believers or his harshest critics—are vulnerable to the same blind spots, resentments, and failures that gave us his presidency. But Lozada also highlights the books that succeed in illuminating how America is changing in the 21st century. *What Were We Thinking* is an intellectual history of the Trump era in real time, helping us transcend the battles of the moment and see ourselves for who we really are.

washington progressive voters guide: *Running Against the Devil* Rick Wilson, 2020-01-14
NEW YORK TIMES BESTSELLER • A savvy guidebook for beating Trump's tricks, traps, and tweets from a founder of The Lincoln Project, now updated with new material on the historic battle between Trump and Joe Biden—and how the pandemic has changed the race “If you believe America's future depends on Donald Trump's political machine being crushed at the polls next year, then Rick Wilson's *Running Against the Devil* is a must-read.”—Joe Scarborough, MSNBC Donald Trump is exactly the disaster we feared for America. Hated by a majority of Americans, Trump's administration is corrupt, inept, and rocked by daily scandals. In the handling of 2020's coronavirus pandemic, its incompetence has been deadly. Trump can't win in 2020, right? Wrong. As 2016 proved, Trump can't win, but Joe Biden can sure as hell lose. Only one thing can save Trump, and that's a Democratic campaign that runs the race Trump wants Democrats to run instead of the campaign they must run to win in 2020. Wilson combines decades of national political experience and insight in his take-no-prisoners analysis, hammering Trump's destructive and dangerous first term in a case-by-case takedown of the worst president in history and describing the terrifying prospect of four more years of Trump. Like no one else can, Wilson blows the lid off Trump's 2020 political war machine, showing the exact strategies and tactics Republicans will use against Biden, and how the Democrats can avoid the catastrophes waiting for them if they fall into Trump's traps. *Running Against the Devil* is sharply funny, brutally honest, and infused with Wilson's biting commentary. It's a vital indictment of Trump, a no-nonsense, no-holds-barred road map to saving America, and the guide to making Donald Trump a one-term president. The stakes are too high to do anything less.

washington progressive voters guide: *Achieving Our Country* Richard Rorty, 1999 One of America's foremost philosophers challenges the lost generation of the American Left to understand the role it might play in the great tradition of democratic intellectual labor that started with writers such as Walt Whitman and John Dewey.
