#1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S "BOOKS THAT HELP

ME THROUGH" • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as "required reading," a bold and personal literary exploration of America's racial history by "the most important essayist in a generation and a writer who changed the national political conversation about race" (Rolling Stone) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

black history spirit week ideas: Black Intellectual Thought in Education Carl A. Grant, Keffrelyn D. Brown, Anthony L. Brown, 2015-09-25 Black Intellectual Thought in Education celebrates the exceptional academic contributions of African-American education scholars Anna Julia Cooper, Carter G. Woodson, and Alain Leroy Locke to the causes of social science, education, and democracy in America. By focusing on the lives and projects of these three figures specifically, it offers a powerful counter-narrative to the dominant, established discourse in education and critical social theory--helping to better serve the population that critical theory seeks to advocate. Rather than attempting to rescue a few African American scholars from obscurity or marginalization, this powerful volume instead highlights ideas that must be probed and critically examined in order to deal with prevailing contemporary educational issues. Cooper, Woodson, and Locke's history of engagement with race, democracy, education, gender and life is a dynamic, demanding, and

authentic narrative for those engaged with these important issues.

black history spirit week ideas: The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a

start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

black history spirit week ideas: *Fugitive Pedagogy* Jarvis R. Givens, 2021-04-13 A fresh portrayal of one of the architects of the African American intellectual tradition, whose faith in the subversive power of education will inspire teachers and learners today. Black education was a subversive act from its inception. African Americans pursued education through clandestine means, often in defiance of law and custom, even under threat of violence. They developed what Jarvis Givens calls a tradition of “fugitive pedagogy”—a theory and practice of Black education in America. The enslaved learned to read in spite of widespread prohibitions; newly emancipated people braved the dangers of integrating all-White schools and the hardships of building Black schools. Teachers developed covert instructional strategies, creative responses to the persistence of White opposition. From slavery through the Jim Crow era, Black people passed down this educational heritage. There is perhaps no better exemplar of this heritage than Carter G. Woodson—groundbreaking historian, founder of Black History Month, and legendary educator under Jim Crow. Givens shows that Woodson succeeded because of the world of Black teachers to which he belonged: Woodson's first teachers were his formerly enslaved uncles; he himself taught for nearly thirty years; and he spent his life partnering with educators to transform the lives of Black students. *Fugitive Pedagogy* chronicles Woodson's efforts to fight against the “mis-education of the Negro” by helping teachers and students to see themselves and their mission as set apart from an anti-Black world. Teachers, students, families, and communities worked together, using Woodson's materials and methods as they fought for power in schools and continued the work of fugitive pedagogy. Forged in slavery, embodied by Woodson, this tradition of escape remains essential for teachers and students today.

black history spirit week ideas: *All That She Carried* Tiya Miles, 2023-04-06 SHORTLISTED FOR THE WOMEN'S PRIZE FOR NON-FICTION LONGLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON-FICTION NATIONAL BOOK AWARD WINNER NEW YORK TIMES BESTSELLER WINNER OF THE CUNDILL HISTORY PRIZE 'An astonishing account of love, resilience and survival' Sunday Times 'A remarkable book' New York Times 'An extraordinary tale through the generations' Guardian In 1850s South Carolina, Rose, an enslaved woman, faced a crisis: the imminent sale of her daughter Ashley. Thinking quickly, she packed a cotton bag with a few items. Soon after, the nine-year-old girl was separated from her mother and sold. Decades later, Ashley's granddaughter Ruth embroidered this family history on the sack in spare, haunting language. That, in itself, is a story. But it's not the whole story. How does one uncover the lives of people who, in their day, were considered property? Harvard historian Tiya Miles carefully traces these women's faint presence in archival records, and, where archives fall short, she turns to objects, art, and the environment to write a singular history of the experience of slavery, and the uncertain freedom afterward. *All That She Carried* gives us history as it was lived, a poignant story of resilience and love passed down against steep odds.

black history spirit week ideas: Black Magic Yvonne P. Chireau, 2006-11-20 Black Magic looks at the origins, meaning, and uses of Conjure—the African American tradition of healing and harming that evolved from African, European, and American elements—from the slavery period to well into the twentieth century. Illuminating a world that is dimly understood by both scholars and the general public, Yvonne P. Chireau describes Conjure and other related traditions, such as Hoodoo and Rootworking, in a beautifully written, richly detailed history that presents the voices and experiences of African Americans and shows how magic has informed their culture. Focusing on the relationship between Conjure and Christianity, Chireau shows how these seemingly contradictory traditions have worked together in a complex and complementary fashion to provide spiritual empowerment for African Americans, both slave and free, living in white America. As she explores the role of Conjure for African Americans and looks at the transformations of Conjure over time, Chireau also rewrites the dichotomy between magic and religion. With its groundbreaking analysis of an often misunderstood tradition, this book adds an important perspective to our understanding of the myriad dimensions of human spirituality.

black history spirit week ideas: The Spirit Vs. the Souls Christopher McAuley, 2019 Despite the extensive scholarship on Max Weber (1864-1920) and W. E. B. Du Bois (1868-1963), very little of it examines the contact between the two founding figures of Western sociology. Drawing on their correspondence from 1904 to 1906, and comparing the sociological work that they produced during this period and afterward, *The Spirit vs. the Souls: Max Weber, W. E. B. Du Bois, and the Politics of Scholarship* examines for the first time the ideas that Weber and Du Bois shared on topics such as sociological investigation, race, empire, unfree labor, capitalism, and socialism. What emerges from this examination is that their ideas on these matters clashed far more than they converged, contrary to the tone of their letters and to the interpretations of the few scholars who have commented on the correspondence between Weber and Du Bois. Christopher McAuley provides close readings of key

texts by the two scholars, including Weber's *The Protestant Ethic and the Spirit of Capitalism* and Du Bois's *The Souls of Black Folk*, to demonstrate their different views on a number of issues, including the economic benefits of unfree labor in capitalism. The book addresses the distinctly different treatment of the two figures's political sympathies in past scholarship, especially that which discredits some of Du Bois's openly antiracist academic work while failing to consider the markedly imperialist-serving content of some of Weber's. McAuley argues for the acknowledgment and demarginalization of Du Bois's contributions to the scholarly world that academics have generally accorded to Weber. This book will interest students and scholars of black studies, history, and sociology for whom Du Bois and Weber are central figures.

Carter is a living legend of costume design. For three decades, she has shaped the story of the Black experience on screen—from the '80s streetwear of *Do the Right Thing* to the royal regalia of *Coming 2 America*. Her work on Marvel's *Black Panther* not only brought Afrofuturism to the mainstream, but also made her the first Black winner of an Oscar in costume design. In 2021, she became the second-ever costume designer to receive a star on the Hollywood Walk of Fame. In this definitive book, Carter shares her origins—recalling a trip to the sporting goods store with Spike Lee to outfit the *School Daze* cast and a transformative moment stepping inside history on the set of Steven Spielberg's *Amistad*. She recounts anecdotes from dressing the greats: Eddie Murphy, Samuel L. Jackson, Angela Bassett, Halle Berry, Chadwick Boseman, and many more. She describes the passion for history that inspired her period pieces—from *Malcolm X* to *What's Love Got to Do With It*—and her journey into Afrofuturism. Carter's wisdom and stories are paired with deluxe visuals, including sketches, mood boards, and film stills. Danai Gurira, beloved for her portrayal of Okoye in *Black Panther*, has contributed a foreword. Fans will even get a glimpse behind the scenes of the sequel *Black Panther: Wakanda Forever*. At its core, Carter's oeuvre celebrates Black heroes and sheroes, whether civil rights leaders or Wakandan warriors. She has brought the past to life and helped us imagine a brighter future. This book is sure to inspire the next generation of artists and storytellers. MAJOR ICON: Ruth E. Carter is behind some of the most iconic costumes on screen, not least the opulent *Black Panther* looks that won her an Oscar. She's worked with some of the biggest names in cinema, from Spike Lee to Ava DuVernay. Her popularity goes beyond those interested in fashion and film—she is also a role model for women of color and creative entrepreneurs. INCREDIBLE VISUALS: This gorgeous book includes an amazing array of images. Film stills reveals the details that make Carter's costumes so special. Sketches and mood boards illuminate her artistic process and the way she collaborates with actors, directors, and other fellow crew members. This book is a feast for the eyes. COMPELLING STORY: Taken as a whole, Carter's three-decade career is not just a collection of great films; it tells a story. Whether comedies or period pieces, biopics or superhero blockbusters, her films have shaped the narrative of the Black experience in American cinema. BEHIND THE SCENES OF BLACK PANTHER: WAKANDA FOREVER: The book will include a chapter on the sequel to *Black Panther*, which was the top-grossing superhero film at the time of its release. black history spirit week ideas: *Fearing the Black Body* Sabrina Strings, 2019-05-07 Winner, 2020 Body and Embodiment Best Publication Award, given by the American Sociological Association Honorable Mention, 2020 Sociology of Sex and Gender Distinguished Book Award, given by the American Sociological Association How the female body has been racialized for over two hundred years There is an obesity epidemic in this country and poor Black women are particularly stigmatized as “diseased” and a burden on the public health care system. This is only the most recent incarnation of the fear of fat Black women, which Sabrina Strings shows took root more than

two hundred years ago. Strings weaves together an eye-opening historical narrative ranging from the Renaissance to the current moment, analyzing important works of art, newspaper and magazine articles, and scientific literature and medical journals—where fat bodies were once praised—showing that fat phobia, as it relates to Black women, did not originate with medical findings, but with the Enlightenment era belief that fatness was evidence of “savagery” and racial inferiority. The author argues that the contemporary ideal of slenderness is, at its very core, racialized and racist. Indeed, it was not until the early twentieth century, when racialized attitudes against fatness were already entrenched in the culture, that the medical establishment began its crusade against obesity. An important and original work, *Fearing the Black Body* argues convincingly that fat phobia isn’t about health at all, but rather a means of using the body to validate race, class, and gender prejudice.
