emma magnolia bubble bratz: American Independent Cinema Geoff King, 2014-09-08 The independent sector has produced many of the most distinctive films to have appeared in the US in recent decades. From 'Sex, Lies and Videotape' in the 1980s to 'The Blair Witch Project' and New Queer Cinema in the 1990s and the ultra-low budget digital video features of the 2000s, indie films have thrived, creating a body of work that stands out from the dominant Hollywood mainstream. But what exactly is 'independent' cinema? This, the first book to examine the question in detail, argues that independence can be defined partly in industry terms but also according to formal and aesthetic strategies and by distinctive attitudes towards social and political issues, suggesting that independence is a dynamic rather than a fixed quality. Chapters focus on distribution and relationships with Hollywood studios; narrative ('Clerks' and 'Slacker' to 'Pulp Fiction', 'Magnolia' and 'Memento') and other formal dimensions (from 'Blair Witch's' 'authenticity' to expressive and stylized camerawork and editing in work from Harmony Korine to the Coen brothers); approaches to genre and alternative socio-political visions.

emma magnolia bubble bratz: On-Demand Culture Chuck Tryon, 2013-07-18 The movie

industry is changing rapidly, due in part to the adoption of digital technologies. Distributors now send films to theaters electronically. Consumers can purchase or rent movies instantly online and then watch them on their high-definition televisions, their laptops, or even their cell phones. Meanwhile, social media technologies allow independent filmmakers to raise money and sell their movies directly to the public. All of these changes contribute to an “on-demand culture,” a shift that is radically altering film culture and contributing to a much more personalized viewing experience. Chuck Tryon offers a compelling introduction to a world in which movies have become digital files. He navigates the complexities of digital delivery to show how new modes of access—online streaming services like YouTube or Netflix, digital downloads at iTunes, the popular Redbox DVD kiosks in grocery stores, and movie theaters offering digital projection of such 3-D movies as *Avatar*—are redefining how audiences obtain and consume motion picture entertainment. Tryon also tracks the reinvention of independent movies and film festivals by enterprising artists who have built their own fundraising and distribution models online. Unique in its focus on the effects of digital technologies on movie distribution, *On-Demand Culture* offers a corrective to address the rapid changes in the film industry now that movies are available at the click of a button.

When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

emma magnolia bubble bratz: *Silent Cinema and the Politics of Space* Jennifer M. Bean, Anupama Kapse, Laura Horak, 2014-04-02 In this cross-cultural history of narrative cinema and media from the 1910s to the 1930s, leading and emergent scholars explore the transnational crossings and exchanges that occurred in early cinema between the two world wars. Drawing on film archives from around the world, this volume advances the premise that silent cinema freely crossed national borders and linguistic thresholds in ways that became far less possible after the emergence of sound. These essays address important questions about the uneven forces—geographic, economic, political, psychological, textual, and experiential—that underscore a non-linear approach to film history. The messiness of film history, as demonstrated here, opens a new realm of inquiry into unexpected political, social, and aesthetic crossings of silent cinema.

emma magnolia bubble bratz: *Time of the Butcherbird* Alex La Guma, 2024-01-01 In his final novel, renowned author Alex La Guma explores the tensions of a South African town fraught with the desire for revenge. Out in the flat, featureless countryside, a small mining town in South Africa is refused access to water by their oppressors. Knowing that the rain is their last chance for survival, all they can do is wait... As the dry summer wears on, the white Afrikaner townspeople are unaware of the storm brewing around them as, deep in the bush, a shepherd recalls the riddle of the butcherbird. Glimpsing into precolonial days and the aftermath of the Boer War, *Time of the Butcherbird* is a powerful reminder of the communities that were wrecked by conflict and dispossessed of their own land. 'The greatest South African novelist of the 20th century.' *The Times* 'A central figure alongside Chinua Achebe [in] the making and consolidation of modern African literature.' Ngugi wa Thiong'o

emma magnolia bubble bratz: *Hollywood's Indies* Yannis Tzioumakis, 2013-08-12

Hollywood's Indies offers an in depth examination of the phenomenon of the classics divisions by tracing its history since the establishment of the first specialty label in 1980.

emma magnolia bubble bratz: Acting Indie Cynthia Baron, Yannis Tzioumakis, 2020-01-29 This book illustrates the many ways that actors contribute to American independent cinema. Analyzing industrial developments, it examines the impact of actors as writers, directors, and producers, and as stars able to attract investment and bring visibility to small-scale productions. Exploring cultural-aesthetic factors, the book identifies the various traditions that shape narrative designs, casting choices, and performance styles. The book offers a genealogy of industrial and aesthetic practices that connects independent filmmaking in the studio era and the 1960s and 1970s to American independent cinema in its independent, indie, indiewood, and late-indiewood forms. Chapters on actors' involvement in the evolution of American independent cinema as a sector alternate with chapters that show how traditions such as naturalism, modernism, postmodernism, and Third Cinema influence films and performances.

emma magnolia bubble bratz: In Perfect Light Benjamin Alire Sáenz, 2008-11-25 "Ben Sáenz's vivid imagination captures all that is beautiful, agonizing and redemptive in the crossings we make through borders of geography and culture. But it is in the interior journeys of the psyche and the soul that we must find salvation; Sáenz's brilliant prose penetrates to that core and he finds and exposes that truth. A reader can ask for no more than this: to be spellbound by a story, and to come to the last page with a sense of having been being changed and allowed to carry something of it away." —Abraham Verghese, author of *My Own Country* From award-winning poet Benjamin Alire Sáenz comes a haunting novel depicting the cruelties of cultural displacement and the resilience of those who are left in its aftermath. *In Perfect Light* is the story of two strong-willed people who are forever altered by a single tragedy. After Andrés Segovia's parents are killed in a car accident when he is still a young boy, his older brother decides to steal the family away to Juárez, Mexico. That decision, made with the best intentions, sets into motion the unraveling of an American family. Years later, his family destroyed, Andrés is left to make sense of the chaos—but he is ill-equipped to make sense of his life. He begins a dark journey toward self-destruction, his talent and brilliance brought down by the weight of a burden too frightening and maddening to bear alone. The manifestation of this frustration is a singular rage that finds an outlet in a dark and seedy El Paso bar—leading him improbably to Grace Delgado. Recently confronted with her own sense of isolation and mortality, Grace is an unlikely angel, a therapist who agrees to treat Andrés after he is arrested in the United States. The two are suspicious of each other, yet they slowly arrive at a tentative working relationship that allows each of them to examine his and her own fragile and damaged past. With the urgent, unflinching vision of a true storyteller and the precise, arresting language of a poet, Sáenz's *In Perfect Light* bears witness to the cruelty of circumstance and, more than offering escape, the novel offers the possibility of salvation.

emma magnolia bubble bratz: Digital Disruption Dina Iordanova, Stuart Cunningham, 2012
'Nobody knows anything', said William Goldman of studio filmmaking. This statement is proving increasingly apt as we begin to survey the radical changes that digital distribution, together with the digitisation of production and exhibition, is wreaking on global film circulation. Will digital dissemination produce a massive disruption to the film industry, as it did to mail delivery services, bookselling and music distribution? Is cinema about to move on-line? *Digital Disruption: Cinema Moves On-line* helps to make sense of what has happened in the short but turbulent history of on-line distribution. It provides a realistic assessment of the disruptions that moving from 'analogue dollars' to 'digital cents' has provoked in the film industry. Looking closely at how the majors have dealt - often unsuccessfully - with these challenges it also pays equal attention to innovations and practices outside the mainstream. Throughout, it is alive to important entrepreneurial innovations, showcasing the work of Mubi, Jaman, Withoutabox and IMDb. Written by leading academic commentators who have followed the fortunes of world cinema closely and with passion, together with experienced writers close to the fluctuating fortunes of the industry, *Digital Disruption: Cinema Moves On-line* is an indispensable guide to the dramatic changes that film is currently experiencing. 'It's hard to overstate the importance of this collection of essays. Ever since digital technology began to transform the media landscape, various self-appointed pundits - myself included - have been predicting the final outcome, with results that have ranged from a utopian belief that film is finally being democratised to various versions of the end-of-the-cinema-as-we-know-it scenario. Now, at last, we have what we needed: some rigorous academic thinking on the subject combined with detailed analysis of what exactly is going on in the fast-developing world of downloads, streaming video and Swedish pirates. The people who really need to read this book - the Hollywood studios - probably won't. But anyone else remotely interested in the future of cinema should do so.' (Nick Roddick, Sight & Sound's 'Mr Busy') 'Digital Disruption is a must read for all researchers and practitioners interested in the changing shape and circulation of filmed content. This book amounts to much more than the sum of its parts by addressing compelling and highly relevant areas of enquiry and employing fine research delivered in a transparent and accessible writing style. Digital Disruption enables the reader to leap onto a fast moving train without being knocked off balance by the rush of the wind. Highly recommended.'
