dirk the protector: The Shimmer David Morrell, 2011-09-16 Since 1889, mysterious lights have appeared outside Rostov, a remote Texas town. Ranchers believed them to be the campfires of rustlers, but campfires don't rise and fall, merge, and change colors. In World War I, the locals believed that the lights came from German forces massing on the Mexican border. In the Second World War, the US military built an airfield there and used planes to try to discover the secret of the lights. In 1980, the entire town set out on a "Ghost Light Hunt." For more than a century, each attempt to get close to the lights met with horrifying results. Now police officer Dan Page follows the trail of his missing wife from New Mexico to Texas and discovers that she and hundreds of spectators have become enraptured by the lights. After a crazed gunman fires obsessively into the crowd, the stage is set for more death. To save his wife, Page must confront the mystery of the lights. His desperate search reveals a government conspiracy that dates back to World War II. The abandoned airfield is more than what it seems. So is a nearby observatory, with a purpose even more mysterious and lethal than the lights themselves. Drawing his inspiration from the real-life Marfa lights, critically acclaimed Morrell packs *The Shimmer* with his trademark blend of action and

terror.

dirk the protector: Our History Is the Future Nick Estes, 2019-03-05 Winner of the Oakland "Blue Collar" PEN Award A work of history, a manifesto, and an intergenerational story of resistance that shows how two centuries of Indigenous struggle created the movement proclaiming "Water is Life" In 2016, a small protest encampment at the Standing Rock reservation in North Dakota, initially established to block construction of the Dakota Access oil pipeline, grew to be the largest Indigenous protest movement in the twenty-first century, attracting tens of thousands of Indigenous and non-Native allies from around the world. Its slogan "Mni Wiconi"—Water is Life—was about more than just a pipeline. Water Protectors knew this battle for Native sovereignty had already been fought many times before, and that, even after the encampment was gone, their anti-colonial struggle would continue. In *Our History is the Future*, Nick Estes traces traditions of Indigenous resistance leading to the #NoDAPL movement from the days of the Missouri River trading forts through the Indian Wars, the Pick-Sloan dams, the American Indian Movement, and the campaign for Indigenous rights at the United Nations. While a historian by trade, Estes also draws on observations from the encampments and from growing up as a citizen of the Oceti Sakowin (the Nation of the Seven Council Fires), making *Our History is the Future* at once a work of history, a personal story, and a manifesto.

dirk the protector: The People of Sand and Slag Paolo Bacigalupi, 2015-07-10 In "The People of Sand and Slag," a Hugo and Nebula Award-nominated short story, Paolo Bacigalupi weaves a tale about the lives of three technologically modified guards, their barren, heavily mined landscape, and a chance encounter with a creature rare for their time period - a dog. What starts off as a hunt for an enemy ends up as a story of empathy, and what it means to be human. "The People of Sand and Slag" was nominated for the 2005 Hugo Award for Best Novelette, and the 2006 Nebula Award for Best Novelette. It was featured in Gardner Dozois's "Year's Best SF" Twenty-Second Edition, Jonathan Strahan's "Best SF of the Year" 2004 Edition, and in John Joseph Adams' "Wastelands" Anthology in 2008. Reviews: "A difficult and touching story, which steps pretty far outside the box to examine our relationship to pets, and to nature. At every stage, Bacigalupi gets it right." --- Internet Review of Science Fiction "Bacigalupi posits a future where humanity has adapted itself to living in a hostile environment. ... There is plenty of techie stuff entwined with the premise itself to satisfy the hardest of hard sf readers, but the main attraction of this story is the faint hope that those parts of us that can accept the other might still exist in a world where self-preservation and survival come first." --- Tangent Online

dirk the protector: An Inner Silence Agnes Sire, Jean-Luc Nancy, 2010-04-27 "These masterful photos blend the spontaneity of a great snapshot with the highly organized composition of a classical painting."—Publishers Weekly Henri Cartier-Bresson (1908-2004) was perhaps the finest and most influential image maker of the twentieth century, and his portraits are among his best-known work. Over a fifty-year period, he photographed some of the most eminent personalities of the era, as well as ordinary people, chosen as subjects because of their striking and unusual features. Originally published to coincide with an exhibition at the Fondation Henri Cartier-Bresson in Paris, this book features both well-known images and previously unpublished portraits: Ezra Pound, André Breton, Martin Luther King, Samuel Beckett, Truman Capote, Susan Sontag, Carl Jung, William Faulkner, Marilyn Monroe, Henri Matisse, and many more. Each photograph was chosen because it perfectly embodies Cartier-Bresson's description of what he was attempting to communicate in his work: "Above all I look for an inner silence. I seek to translate the personality and not an expression." The portraits reproduced here—discreet, without artifice—confirm once more the singular gift of Cartier-Bresson, who instinctively knew in which revealing fraction of a second to click the shutter.

dirk the protector: Paris Mon Amour Jean-Claude Gautrand, 1999 Le Flaneur, the turn-of-the-century French term for the urban stroller, the street wanderer -- an intellectual with plenty of leisure time to idly traverse the byways of the city, drifting from one quarter to another, making discoveries, meeting old acquaintances, making new ones. It remains the best way to see Paris. This volume of photography is a memoir of numerous walks through the French capital by some great photographers, who set out, like le flaneur, to capture by chance something they had never seen before. These images map and re-map the desired paths and favourite landmarks of one of the most photographed cities in the world, reprinting classic shots from the last two hundred years -- right up to the present day. They poignantly evoke the bars, the cafes, the architecture, the parks and, of course, the vibrancy of the people. Turning the pages is like taking a walk through the history of the city, noting the changes and those elements that are forever Paris -- the tree-lined boulevards, the dimly lit bistros, the narrow passages, and the banks of the River Seine.

dirk the protector: Destroyer of Worlds Larry Niven, Edward M. Lerner, 2009-11-10 Worlds closer to the galactic core than Known Space are --or were--home to intelligent speciers. Some learned of the core explosion in time to flee. Destroyer of Worlds opens in 2670, ten years after Juggler of Worlds closes; with refugee species fleeing in an armada of ramscoops in the direction of the Fleet of Worlds. The onrushing aliens are recognized as a threat; they have left in their trail a host of desolated worlds: some raided for supplies, some attacked to eliminate competition, and some for pure xenophobia. Only the Puppeteers might have the resources to confront this threat--but the Puppeteers are philosophical cowards... they don't confront anyone. They need sepoys to investigate the situation and take action for them. The source of the sepoys? Their newly independent former slave world, New Terra. dirk the protector: *Shakespeare and the Second World War* Irena Makaryk, Marissa McHugh, 2012-09-18 Shakespeare's works occupy a prismatic and complex position in world culture: they straddle both the high and the low, the national and the foreign, literature and theatre. The Second World War presents a fascinating case study of this phenomenon: most, if not all, of its combatants have laid claim to Shakespeare and have called upon his work to convey their society's self-image. In wartime, such claims frequently brought to the fore a crisis of cultural identity and of competing ownership of this 'universal' author. Despite this, the role of Shakespeare during the Second World War has not yet been examined or documented in any depth. Shakespeare and the Second World War provides the first sustained international, collaborative incursion into this terrain. The essays demonstrate how the wide variety of ways in which Shakespeare has been recycled, reviewed, and reinterpreted from 1939-1945 are both illuminated by and continue to illuminate the War today.

dirk the protector: Genocide and Settler Society A. Dirk Moses, 2004 ...Often new, probing and rich examinations of the takeover of a continent by white Anglos and the long-term impact ...the book is replete with detailed and meticulously sourced information on the scope, scale and persistence of the cruelty and violence involved - actual and structural - over a 200-year period...there is a great deal in this excellent volume that demands grounds for deep reflection on

how Australia came to be what it is. * Patterns of Prejudice The value of this stimulating collection of historical essays is that it points to both the usefulness of a transnational framework for analysing race thinking and the necessity for close attention to the historical specificity of particular moments and places. * Australian Book Review [This volume] is an outstanding collection, a challenging conversation between differing viewpoints where discussion is ongoing and cooperative. * Australian Historical Studies Colonial Genocide has been seen increasingly as a stepping-stone to the European genocides of the twentieth century, yet it remains an under-researched phenomenon. This volume reconstructs instances of Australian genocide and for the first time places them in a global context. Beginning with the arrival of the British in 1788 and extending to the 1960s, the authors identify the moments of radicalization and the escalation of British violence and ethnic engineering aimed at the Indigenous populations, while carefully distinguishing between local massacres, cultural genocide, and genocide itself. These essays reflect a growing concern with the nature of settler society in Australia and in particular with the fate of the tens of thousands of children who were forcibly taken away from their Aboriginal families by state agencies. A. Dirk Moses teaches European History and comparative genocide Studies at the University of Sydney, Australia. He is editing another volume in this series entitled Genocide and Colonialism.
