H2: Colonial America and the Revolution

Understanding the vocabulary surrounding the establishment and growth of the thirteen colonies, as well as the events leading to the American Revolution, is paramount.

Mercantilism: An economic system where a nation's power is directly tied to its wealth, often achieved through colonization and control of trade. Think of it as a zero-sum game: one nation's gain is another's loss.

Indentured Servitude: A system of labor where individuals agreed to work for a specified period (usually 4-7 years) in exchange for passage to the Americas. It was a crucial element of colonial labor before the widespread adoption of slavery.

Triangular Trade: The complex trade network connecting Europe, Africa, and the Americas, involving the exchange of goods like manufactured goods, enslaved Africans, and raw materials. This

system significantly fueled the growth of colonial economies but perpetuated the horrors of the transatlantic slave trade.

Enlightenment: An intellectual and philosophical movement emphasizing reason, individual liberty, and natural rights. Thinkers like John Locke heavily influenced the American revolutionaries.

Declaration of Independence: The formal statement declaring the thirteen American colonies' independence from Great Britain. It outlined the philosophical justifications for revolution, emphasizing concepts like natural rights and self-governance.

H3: Key Players and Events

Familiarize yourself with the vocabulary surrounding key figures and events:

Stamp Act: A tax imposed by the British government on printed materials, sparking widespread colonial resistance.

Boston Tea Party: A pivotal event in the lead-up to the American Revolution, where colonists protested the Tea Act by dumping tea into Boston Harbor.

Articles of Confederation: The first governing document of the newly independent United States, characterized by a weak central government.

Section 2: The Nation's Formation and Expansion (19th Century)

H2: The Constitution and Early Republic

The vocabulary surrounding the creation and interpretation of the Constitution is crucial for understanding the early republic.

Federalism: The division of power between a national government and state governments. It's a key element of the US system, designed to balance power and prevent tyranny.

Checks and Balances: A system designed to prevent any one branch of government from becoming too powerful, ensuring accountability and balance of power.

Judicial Review: The power of the Supreme Court to declare laws unconstitutional, establishing its role as the ultimate interpreter of the Constitution.

Manifest Destiny: The 19th-century belief that the United States was destined to expand its dominion and spread democracy across the North American continent. This ideology fueled westward expansion.

H3: Slavery and Sectionalism

Understanding the vocabulary associated with slavery and the growing sectional tensions is vital.

Abolitionism: The movement to end slavery in the United States. Key figures included Frederick Douglass and William Lloyd Garrison.

Sectionalism: Loyalty to one's region or section of the country above national interests. This exacerbated tensions leading to the Civil War.

Compromise of 1850: A series of laws intended to resolve the issue of slavery in newly acquired territories, ultimately failing to prevent the Civil War.

Section 3: Civil War and Reconstruction (Mid-19th Century)

H2: The Civil War and its Aftermath

This section focuses on the vocabulary related to the Civil War and its impact on American society.

Secession: The formal withdrawal of a state from the Union, leading to the formation of the Confederate States of America.

Reconstruction: The period following the Civil War aimed at reintegrating the Southern states into the Union and addressing the issue of race and citizenship.

Jim Crow Laws: State and local laws enacted in the Southern and some border states of the United States that enforced racial segregation.

13th, 14th, and 15th Amendments: Constitutional amendments that abolished slavery, granted citizenship to African Americans, and guaranteed voting rights for African American men, respectively.

Section 4: Industrialization and Progressive Era (Late 19th - Early 20th Centuries)

H2: The Rise of Industry and Reform

This period saw significant technological advancements and social changes.

Industrialization: The process of transforming an economy from agrarian to manufacturing-based, marked by rapid technological advancement and urbanization.

Progressive Movement: A reform movement aimed at addressing social and political problems caused by industrialization and urbanization.

end of course us history vocabulary: *The Road* Cormac McCarthy, 2007-03-20 WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful (San Francisco Chronicle). • From the bestselling author of *The Passenger* A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, each the other's world entire, are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

end of course us history vocabulary: The Lincoln Highway Amor Towles, 2021-10-05 #1 NEW

YORK TIMES BESTSELLER More than ONE MILLION copies sold A TODAY Show Read with Jenna Book Club Pick A New York Times Notable Book, and Chosen by Oprah Daily, Time, NPR, The Washington Post, Bill Gates and Barack Obama as a Best Book of the Year “Wise and wildly entertaining . . . permeated with light, wit, youth.” —The New York Times Book Review “A classic that we will read for years to come.” —Jenna Bush Hager, Read with Jenna book club “Fantastic. Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope.” —Bill Gates “A real joyride . . . elegantly constructed and compulsively readable.” —NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. “Once again, I was wowed by Towles’s writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero’s journeys, including *The Iliad*, *The Odyssey*, *Hamlet*, *Huckleberry Finn*, and *Of Mice and Men*. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel.” – Bill Gates
