fresno lincoln club: Partisans and Partners Josh Pacewicz, 2016-11-18 There's no question that Americans are bitterly divided by politics. But in *Partisans and Partners*, Josh Pacewicz finds that our traditional understanding of red/blue, right/left, urban/rural division is too simplistic. Wheels-down in Iowa—that most important of primary states—Pacewicz looks to two cities, one traditionally Democratic, the other traditionally Republican, and finds that younger voters are rejecting older-timers' strict political affiliations. A paradox is emerging—as the dividing lines between America's political parties have sharpened, Americans are at the same time growing distrustful of traditional party politics in favor of becoming apolitical or embracing outside-the-beltway candidates. Pacewicz sees this change coming not from politicians and voters, but from the fundamental reorganization of the community institutions in which political parties have traditionally been rooted. Weaving together major themes in American political history—including globalization, the decline of organized labor, loss of locally owned industries, uneven economic development, and the emergence of grassroots populist movements—*Partisans and Partners* is a timely and comprehensive analysis of American politics as it happens on the ground.

fresno lincoln club: *No Middle Ground* Seth Masket, 2011-01-25 "This is a fascinating book. It is one of the best studies of the ways that parties and politics get conducted in any American state. Masket shows that legislators can be perfectly content without parties that control agendas and does a terrific job of explaining the transition from free-wheeling legislators to rigidly partisan voting blocs." —Sam Popkin, University of California at San Diego "No Middle Ground makes a significant contribution to the study of American parties and legislative politics." —Matthew Green, Catholic University of America Despite concerns about the debilitating effects of partisanship on democratic government, in recent years political parties have gained strength in state governments as well as in Washington. In many cases these parties function as machines. Unlike machines of the past that manipulated votes, however, today's machines determine which candidates can credibly compete in a primary. Focusing on the history and politics of California, Seth E. Masket reveals how these machines evolved and how they stay in power by directing money, endorsements, and expertise to favored candidates, who often tend toward the ideological extreme. In a provocative conclusion, Masket argues that politicians are not inherently partisan. Instead, partisanship is thrust upon them by actors outside the government with the power to manipulate primary elections.

A talented player who excelled at all nine positions, Zenimura was also a respected manager and would become the Japanese American community's baseball ambassador. He worked tirelessly to promote the game at home and abroad, leading goodwill trips to Asia, helping to negotiate tours of Japan by Negro League All-Stars and Babe Ruth, and establishing a 32-team league behind the barbed wire of Arizona's Gila River Internment Camp during World War II. This first biography of the Father of Japanese-American Baseball delivers a thorough and fascinating account of Zenimura's life.

fresno lincoln club: *A Baseball Career That Ended in . . . a Split Second* Jerry Guibor, 2015-03-20 Jim Aldredge was a phenomenal baseball player and signed a professional contract at age 17. In his second season, he was hit in the left eye by a thrown ball. He eventually lost sight in the eye, but he attempted two comebacks and was playing very well -- better than most players with two good eyes. But the politics of baseball and racism made him realize it was time to return to Fresno and get an education. He already had enrolled at Fresno City College and was graduated with an Associate of Arts degree. He continued at Fresno State where he received bachelors and master's degrees while working full time for the City of Fresno. He earned a Ph.D. from Golden Gate University and also studied at Oxford. At nights, he taught at Fresno City College, the University of San Francisco and eventually became a full professor at Fresno State -- all the while he was working full time as an assistant city manager. He was made interim city manager a few times when mayors and administrations would change, but an outsider always got the job. Then, at last, the city came to realize they had the right man all along. He left the city when changes were on the horizon and taught at Fresno State until he retired in 2008. He was named a professor emeritus. He then created a foundation to help aspiring students and athletes, and sports programs.

Contreras is so controversial and passionate that his views draw pain, rage, attacks, complaints and compliments from myriad critics and friends. During a one hour radio program, he was called a paid agent of the CIA, a Sandinista Communist, a traitor, a patriot, a criminal, a sell-out, and, a coconut, brown on the outside and white on the inside. That was just by his family. The essays and columns in this collection were distributed by Creator's Syndicate and the New York Times Syndicate's New American News Service and published throughout the United States in newspapers of all sizes, from weeklies to massive metropolitan dailies read by millions. There is a new paradigm of politics and issues in the United States, the Hispanic Paradigm, and Raoul Lowery Contreras has chronicled it for all to read, absorb and be affected by.

story of a foundling. 'Extraordinary ... A fascinating, moving book: part history of the Foundling Hospital and the development of child psychology, part Cowan's own story, and part that of Cowan's mother' LUCY SCHOLES, TELEGRAPH Growing up in a wealthy enclave outside San Francisco, Justine Cowan's life seems idyllic. But her mother's unpredictable temper drives Justine from home the moment she is old enough to escape. It is only after her mother dies that she finds herself pulling at the threads of a story half-told - her mother's upbringing in London's Foundling Hospital. Haunted by this secret history, Justine travels across the sea and deep into the past to discover the girl her mother once was. Here, with the vividness of a true storyteller, she pieces together her mother's childhood alongside the history of the Foundling Hospital: from its idealistic beginnings in the eighteenth century, how it influenced some of England's greatest creative minds - from Handel to Dickens, its shocking approach to childcare and how it survived the Blitz only to close after the Second World War. This was the environment that shaped a young girl then known as Dorothy Soames, who was left behind by a mother forced by stigma and shame to give up her child; who withstood years of physical and emotional abuse, dreaming of escape as German bombers circled the skies, unaware all along that her own mother was fighting to get her back. The Secret Life of Dorothy Soames is a gripping memoir and revelatory investigation into the history of the Foundling Hospital and one girl who grew up in its care - the author's own mother.
