

Go Robert Mueller And The Rule Of Law

Go Robert Mueller and the Rule of Law: An Examination of Justice and Accountability

The appointment of Robert Mueller as Special Counsel to investigate Russian interference in the 2016 U.S. Presidential election was a pivotal moment in American history. His investigation, often summarized with the phrase "Go Robert Mueller," became a lightning rod for political debate and raised profound questions about the rule of law, presidential accountability, and the integrity of democratic processes. This post delves deep into the Mueller investigation, exploring its significance, its findings, its impact on the rule of law, and the lasting legacy it left behind. We'll examine the criticisms leveled against the investigation, and critically analyze its successes and shortcomings.

H2: The Genesis of the Mueller Investigation: A Nation Divided

The appointment of Robert Mueller in May 2017 followed mounting evidence of Russian meddling in the election. The investigation wasn't merely about potential collusion between the Russian government and the Trump campaign; it also encompassed a broader inquiry into potential obstruction of justice. This dual focus significantly broadened the scope and implications of the investigation, instantly placing it at the center of a fiercely polarized political landscape. The very act of appointing a Special Counsel, a move intended to ensure impartiality, became a source of

contention, highlighting the deeply entrenched partisan divisions within the country.

H2: Key Findings of the Mueller Report: Collusion and Obstruction

The Mueller Report, released in March 2019, delivered a detailed account of the investigation's findings. While it didn't establish a criminal conspiracy between the Russian government and the Trump campaign, it documented numerous contacts and detailed Russia's extensive efforts to interfere in the election. Crucially, the report laid out evidence of potential obstruction of justice by President Trump, stating that it "does not exonerate" him. This ambiguity fueled intense debate, with differing interpretations of the evidence presented. The report itself meticulously laid out the evidence, allowing readers to draw their own conclusions – but the lack of a definitive indictment on the obstruction charge remains a point of intense scrutiny and ongoing discussion.

H3: The Significance of the Obstruction of Justice Findings

The Mueller Report's findings on obstruction of justice are arguably its most impactful and controversial aspect. The report outlined ten instances of potential obstruction, detailing President Trump's actions and their potential interference with the investigation. While the Department of Justice ultimately declined to prosecute, citing longstanding policy against indicting a sitting president, the report's detailed account served as a powerful indictment of potential abuses of power. This element of the investigation continues to be debated, impacting discussions about presidential accountability and the limits of executive power.

H3: The Public Perception and Political Fallout

The public response to the Mueller Report was sharply divided along partisan lines. Supporters of the investigation lauded its thoroughness and the detailed evidence presented, viewing it as a crucial defense of the rule of law. Conversely, critics dismissed the report as a partisan witch hunt, undermining its credibility and questioning its motives. This intense polarization underscores the challenges of conducting a politically charged investigation in a deeply divided nation. The lasting political fallout continues to influence American politics and the ongoing debate surrounding presidential conduct and accountability.

H2: The Mueller Investigation and its Impact on the Rule of Law

The Mueller investigation had a significant impact on perceptions of the rule of law in the United States. Regardless of one's political affiliation, the investigation raised critical questions about the limits of executive power, the independence of the judiciary, and the ability of institutions to hold powerful individuals accountable. The very process of the investigation – its scope, its independence, and its eventual conclusions – served as a case study in the strengths and weaknesses of the American system of checks and balances.

H2: Criticisms and Counterarguments: A Balanced Perspective

The Mueller investigation wasn't without its critics. Some argued that the investigation was overly broad, politically motivated, and ultimately yielded underwhelming results. Others questioned the impartiality of the special counsel's team and the length of the investigation. It's crucial to acknowledge these criticisms and weigh them against the evidence presented in the report to achieve a balanced understanding of the investigation's complexities. A balanced view necessitates acknowledging both the successes and shortcomings of the investigation while understanding the political context in which it unfolded.

Conclusion: A Lasting Legacy of Accountability

The "Go Robert Mueller" mantra, though initially a rallying cry for those seeking accountability, became a symbol of the deep divisions within American society. The Mueller investigation, while not resulting in criminal charges against the president, significantly impacted the national conversation surrounding Russian interference, presidential conduct, and the integrity of democratic processes. The report itself serves as a valuable resource for understanding the intricacies of the investigation and for continuing the crucial dialogue on accountability and the rule of law. Its lasting legacy lies in raising critical questions that continue to shape American politics and the ongoing struggle to uphold the principles of justice and democracy.

FAQs

1. Did the Mueller Report prove collusion between the Trump campaign and Russia? The report did

not establish a criminal conspiracy, but it documented numerous contacts and Russia's extensive efforts to interfere in the election.

2. Why wasn't President Trump charged with obstruction of justice? The Department of Justice declined to prosecute, citing longstanding policy against indicting a sitting president.

3. What was the cost of the Mueller investigation? The investigation's final cost was approximately \$32 million.

4. How long did the Mueller investigation last? The investigation lasted nearly two years, from May 2017 to March 2019.

5. What is the significance of the Mueller Report beyond its immediate findings? The report serves as a landmark document examining presidential accountability, the rule of law, and the challenges of investigating powerful individuals within a highly polarized political environment. Its lasting impact is felt in ongoing discussions about executive power and the integrity of democratic institutions.

go robert mueller and the rule of law: Where Law Ends Andrew Weissmann, 2020-09-29
NEW YORK TIMES BESTSELLER • In the first and only inside account of the Mueller investigation, one of the special counsel's most trusted prosecutors breaks his silence on the team's history-making search for the truth, their painstaking deliberations and costly mistakes, and Trump's unprecedented efforts to stifle their report. "Weissmann delivers the kind of forceful, ringing indictment that Mueller's report did not."—The New York Times In May 2017, Robert Mueller was tapped to lead an inquiry into Russian interference in the 2016 presidential election, coordination by foreign agents with Donald Trump's campaign, and obstruction of justice by the president. Mueller assembled a "dream team" of top prosecutors, and for the next twenty-two months, the investigation was a black box and the subject of endless anticipation and speculation—until April 2019, when the special counsel's report was released. In *Where Law Ends*, legendary prosecutor Andrew Weissmann—a key player in the Special Counsel's Office—finally pulls back the curtain to reveal exactly what went on inside the investigation, including the heated debates, painful deliberations, and mistakes of the team—not to mention the external efforts by the president and Attorney General William Barr to manipulate the investigation to their political ends. Weissmann puts the reader in the room as Mueller's team made their most consequential decisions, such as whether to subpoena the president, whether to conduct a full financial investigation of Trump, and whether to explicitly recommend obstruction charges against him. Weissmann also details for the first time the debilitating effects that President Trump himself had on the investigation, through his dangling of pardons and his constant threats to shut down the inquiry and fire Mueller, which left the team racing against the clock and essentially fighting with one hand tied behind their backs. In *Where Law Ends*, Weissmann conjures the camaraderie and esprit de corps of the investigative units led by the enigmatic Mueller, a distinguished public servant who is revealed here, in a way we have never seen him before, as a manager, a colleague, and a very human presence. Weissmann is as candid about the team's mistakes as he is about its successes, and is committed to accurately documenting the historic investigation for future generations to assess and learn from. Ultimately, *Where Law Ends* is a story about a team of public servants, dedicated to the rule of law, tasked with investigating a president who did everything he could to stand in their way.

go robert mueller and the rule of law: Lawyers and the Rule of Law Andrew Boon, 2022-10-20 This book examines lawyers' contributions to creating and maintaining the rule of law, one of the pillars of a liberal democracy. It moves from the European Enlightenment to the modern day, exploring the role of judges, government lawyers, and private practitioners in creating, defining, and being defined by, the demands of modern society. The book is divided into 4 parts

representing the big themes. The first part considers lawyers' contribution to the growth of constitutionalism, the second, the formulation of roles and identities, and the third the formation of values. The fourth part focuses on the challenges faced by lawyers and the rule of law in the past 50 years, the neoliberal period, and how they challenge both conceptions of lawyers and the rule of law. Each part is illustrated by defining events, from the execution of Charles I, through the Nuremberg Trials, to the insurrection by supporters of Donald Trump in January 2021. Although the focus is on England and Wales, parallel developments in other jurisdictions, Australia, Canada, New Zealand, and the USA, are considered. This allows analysis of lawyers' historical and contemporary engagement with the rule of law in jurisdictional systems based on the Common Law. Each chapter is thematic, but the passage through the book is broadly chronological.

go robert mueller and the rule of law: *Defending Trump* Stephen Barry, Marc Z. Lieberman, 2020-09-17 President Donald J. Trump has been the subject of withering attacks on his character and fitness for office since announcing his candidacy for president in 2015. The radical left, Democrats and their media allies, and “Never Trump” Republicans say he poses a threat to the presidency, our governing institutions, and our national character. He’s repeatedly accused of being a liar, racist, misogynist and dictator. Stephen Barry and Marc Z. Lieberman, longtime friends with opposite views of Trump, debate his presidency in real time in this book. Through text messages, they highlight the stark divide in how the public views Trump. From Trump’s efforts to ban immigration from dysfunctional Muslim-majority countries, to his plans to build a wall on the Mexican border, to his initial response to the coronavirus pandemic, the authors consider the consequences of his actions—as well as his motives. For those who oppose Trump, the underlying theme is that he should not be permitted to exercise the powers of his office. But are they right? See the arguments for Trump as well as why it’s imperative that he be allowed to serve.

go robert mueller and the rule of law: The Rule of Law in Cyberspace Carlos Blanco de Morais, Gilmar Ferreira Mendes, Thomas Vesting, 2022-09-06 The rule of law in cyberspace currently faces serious challenges. From the democratic system to the exercise of fundamental rights, the Internet has raised a host of new issues for classic legal institutions. This book provides a valuable contribution to the fields of international, constitutional and administrative law scholarship as the three interact in cyberspace. The respective chapters cover topics such as the notion of digital states and digital sovereignty, jurisdiction over the Internet, e-government, and artificial intelligence. The authors are eminent scholars and international experts with a profound knowledge of these topics. Particular attention is paid to the areas of digital democracy, digital media and regulation of the digital world. The approach employed is based on a comparative perspective from Germany, the Netherlands, Italy, Portugal and Brazil. One particular focus is on how various legal systems are coping with increasing difficulties in the exercise of democracy with regard to disinformation and hate speech. The roles of legislators, the judicial system and public administrations are analysed in the light of the latest cases, conflicts and technologies. In addition to this comparative approach, the book explores the evolution of rule of law in cyberspace and the upcoming new legal regimes in the European Union and Brazil. Special care is taken to offer a critical review of both the literature and the latest legal solutions adopted and being considered regarding the regulation of cyberspace from a constitutional and administrative perspective. Given its scope, the book will be of interest to researchers and scholars in the field of digital law whose work involves constitutional problems in cyberspace and/or practical problems concerning the regulation of social networks and online commerce.

go robert mueller and the rule of law: *Congressional Record* United States. Congress, 2017-12

go robert mueller and the rule of law: The Dark Side Jane Mayer, 2009-05-08 The Dark Side is a dramatic, riveting, and definitive narrative account of how the United States made self-destructive decisions in the pursuit of terrorists around the world—decisions that not only violated the Constitution, but also hampered the pursuit of Al Qaeda. In spellbinding detail, Jane Mayer relates the impact of these decisions by which key players, namely Vice President Dick Cheney and his powerful, secretive adviser David Addington, exploited September 11 to further a long held agenda to enhance presidential powers to a degree never known in U.S. history, and obliterate Constitutional protections that define the very essence of the American experiment. With a new afterward. One of The New York Times 10 Best Books of the Year National Bestseller National Book Critics Circle Award Finalist A Best Book of the Year: Salon, Slate, The Economist, The Washington Post, Cleveland Plain-Dealer

go robert mueller and the rule of law: The Threat Matrix Garrett M. Graff, 2011-03-28 An intimate look at Robert Mueller, the sixth Director of the FBI, who oversaw the investigation into ties between President Trump's campaign and Russian officials. Covering more than 30 years of history, from the 1980s through Obama's presidency, The Threat Matrix explores the transformation of the FBI from a domestic law enforcement agency, handling bank robberies and local crimes, into an international intelligence agency -- with more than 500 agents operating in more than 60 countries overseas -- fighting extremist terrorism, cyber crimes, and, for the first time, American suicide bombers. Based on access to never-before-seen task forces and FBI bases from Budapest, Hungary, to Quantico, Virginia, this book profiles the visionary agents who risked their lives to bring down criminals and terrorists both here in the U.S. and thousands of miles away long before the rest of the country was paying attention to terrorism. Given unprecedented access, thousands of pages of once secret documents, and hundreds of interviews, Garrett M. Graff takes us inside the FBI and its attempt to protect America from the Munich Olympics in 1972 to the attempted Times Square bombing in 2010. It also tells the inside story of the FBI's behind-the-scenes fights with the CIA, the Department of Justice, and five White Houses over how to combat terrorism, balance civil liberties, and preserve security. The book also offers a never-before-seen intimate look at FBI Director Robert Mueller, the most important director since Hoover himself. Brilliantly reported and suspensefully told, The Threat Matrix peers into the darkest corners of this secret war and will change your view of the FBI forever.

go robert mueller and the rule of law: True Crimes and Misdemeanors Jeffrey Toobin, 2020-08-04 From CNN chief legal analyst and bestselling author Jeffrey Toobin, a real-life legal thriller about the prosecutors and congressional investigators pursuing the truth about Donald Trump's complicity in several crimes--and why they failed. Donald Trump's campaign chairman went to jail. So did his personal lawyer. His long-time political consigliere was convicted of serious federal crimes, and his national security advisor pled guilty to others. Several Russian spies were indicted in absentia. Career intelligence agents and military officers were alarmed enough by the president's actions that they alerted senior government officials and ignited the impeachment process. Yet despite all this, a years-long inquiry led by special counsel Robert Mueller, and the third impeachment of a president in American history, Donald Trump survived to run for re-election. Why? Jeffrey Toobin's highly entertaining definitive account of the Mueller investigation and the impeachment of the president takes readers behind the scenes of the epic legal and political struggle to call Trump to account for his misdeeds. With his superb storytelling and analytic skills Toobin recounts all the mind-boggling twists and turns in the case--Trump's son met with a Russian operative promising Kremlin support! Trump paid a porn star \$130,000 to hush up an affair! Rudy Giuliani and a pair of shady Ukrainian-American businessmen got the Justice Department to look at Russian-created conspiracy theories! Toobin shows how Trump's canny lawyers used Mueller's famous integrity against him, and how Trump's bullying and bluster cowed Republican legislators into ignoring the clear evidence of the impeachment hearings. Based on dozens of interviews with prosecutors in Mueller's office, Trump's legal team, Congressional investigators, White House staffers, and several of the key players, including some who are now in prison, True Crimes and

Misdemeanors is a revelatory narrative that makes sense of the seemingly endless chaos of the Trump years. Filled with never-before-reported details of the high-stakes legal battles and political machinations, the book weaves a tale of a rogue president guilty of historic misconduct, and how he got away with it.

go robert mueller and the rule of law: Deep State James B. Stewart, 2019-10-08 Instant New York Times Bestseller Important and stunning. This is must-read material if you want to understand what the Trump administration is still up to right now. --Lawrence O'Donnell There are questions that the Mueller report couldn't—or wouldn't—answer. What actually happened to instigate the Russia investigation? Did President Trump's meddling incriminate him? There's no mystery to what Trump thinks. He claims that the Deep State, a cabal of career bureaucrats—among them, Andrew McCabe, Lisa Page, and Peter Strzok, previously little known figures within the FBI whom he has obsessively and publically reviled—is concerned only with protecting its own power and undermining the democratic process. Conversely, James Comey has defended the FBI as incorruptible apolitical public servants who work tirelessly to uphold the rule of law. For the first time, bestselling author James B. Stewart sifts these conflicting accounts to present a clear-eyed view of what exactly happened inside the FBI in the lead-up to the 2016 election, drawing on scores of interviews with key FBI, Department of Justice, and White House officials and voluminous transcripts, notes, and internal reports. In full detail, this is the dramatic saga of the FBI's simultaneous investigations of both Hillary Clinton and Donald Trump—the first time in American history the FBI has been thrust into the middle of both parties' campaigns for the presidency. Stewart shows what exactly was set in motion when Trump fired Comey, triggering the appointment of Robert Mueller as an independent special counsel and causing the FBI to open a formal investigation into the president himself. And how this unprecedented event joined in ongoing combat two vital institutions of American democracy: the presidency and the Federal Bureau of Investigation. At stake in this epic battle is the rule of law itself, the foundation of the U.S. Constitution. There is no room for compromise, but plenty for collateral damage. The reputations of both sides have already been harmed, perhaps irrevocably, and at great cost to American democracy. Deep State goes beyond the limits of the legally constrained Mueller report, showing how the president's obsession with the idea of a conspiracy against him is still upending lives and sending shockwaves through both the FBI and the Department of Justice. In this world-historical struggle—Trump versus intelligence agencies—Stewart shows us in rare style what's real and what matters now. And for the looming 2020 election.

go robert mueller and the rule of law: Compromised Peter Strzok, 2020-09 The FBI veteran behind the Russia investigation draws on decades of experience hunting foreign agents in the United States to lay bare the threat posed by President Trump.

go robert mueller and the rule of law: American Nero Richard Painter, Peter Golenbock, 2020-03-24 Donald Trump is eroding the rule of law! We've heard it said many times, and we can feel it in our guts. But what does rule of law really mean? And what happens when it breaks down? From Richard Painter, a senate candidate and law professor who served as White House chief ethics counsel under President George W. Bush, and New York Times bestselling author Peter Golenbock, American Nero is an in-depth exploration the rule of law—the legal bedrock on which this country was founded. Painter and Golenbock present a clear description of rule of law—arguably the single most important principle underlying our civilization. They also describe the abuses of power that have occurred throughout our nation's history. Beginning in Puritan New England with the infamous Salem Witch Trials, American Nero makes vivid stops at The Red Scare of the 1920s, Japanese-American internment, the McCarthy Era, and, much more recently, President Trump's attempt to violate the First Amendment by banning Muslims from entering the US. While Trump is not the first offender, he is arguably the most blatant, and this unflinchingly honest and insightful work presents in devastating detail the ways in which our current president has trampled the rule of law with his attacks on the freedom of the press, the independence of the judiciary, and the autonomy of the justice department. This is not a book about right vs. left —instead, it is about the

rule of law, a principle that transcends partisan politics, and how vital it is to the survival of our country. This book serves as a call-to-action, looking ahead to a brighter future for our country, one where citizens and officials alike protect our rights and honor their responsibilities. Timely and revealing, American Nero shares the lessons of history and lays the framework for returning to a society that respects the rule of law—an America that is consistent with our Founding Fathers' vision of a genuinely free nation.

go robert mueller and the rule of law: The Mueller Report Hardcover Extra Summary
Editon ROBERT S MUELLER. III, 2019-06-16 Special Counsel Robert Mueller's report, delivered to the public in April 2019, is a lengthy 448 pages and spans two volumes. Mike Twonsky's 18-minute summary distills the Mueller Report into its key information and analysis.

go robert mueller and the rule of law: Overcoming Trumpery Norman Eisen, 2022-03-22
How to restore ethics, the rule of law, and democracy as the centerpieces of U.S. government U.S. government has been repeatedly renewed—sometimes simply repaired and other times reinvented—during its over 230 years. Major aspects of the federal system were broken again during the four years of the Trump administration, so it's time for even more fixes. This book sets out the damage that was done and important ideas on how the repairs should be made, focusing on ethics, the rule of law, and democracy. Distinguished scholars and practitioners have come together not only to address what went awry over the past four years, but also the deeper weaknesses that have become more evident, and how those weaknesses can be repaired. The problem areas range from ethics and conflicts of interest to the Hatch Act and big money in politics, and from independence at the Department of Justice and government transparency to reestablishing Congressional oversight, and the government's role in the broader areas of how Americans vote and of international ethics and rule of law. Overcoming Trumpery provides a framework to understand the significant developments that are already happening in Washington with respect to ethics, the rule of law, and democracy. These include the "For the People Act," the "Protecting Our Democracy Act," and President Biden's Executive Order on Ethics. The ideas outlined in this book for fixing flaws in federal governance come from the more than century of collective experience of its expert authors. The book represents a burst of sunshine after a very dark period in the nation's history.

go robert mueller and the rule of law: The War for America's Soul Sebastian Gorka, 2019-10-08 "Take it from someone who has been on the inside, who understands the fight we are currently in, and who knows what must be done to save our country. Dr. Sebastian Gorka's latest book, The War for America's Soul, leverages the former White House strategist's expertise, driven by his determination to preserve what made America great in the first place." — MARK LEVIN Our country is at war with itself. On one side are American patriots, dedicated to freedom under the Constitution; on the other side are leftists campaigning not just to win elections, but to radically transform the nation. In this political war for the soul of our country, America's patriots need a strategist with a blueprint for victory. Luckily, we have such a man in Dr. Sebastian Gorka—a former strategist for President Trump and now a nationally syndicated radio host and a fearless culture warrior. In his essential new book, The War for America's Soul, Dr. Gorka shows how America's elite—in both parties—betrayed our heartland, sabotaged the American dream, and accepted national decline as inevitable. It took a candidate with remarkable vision, dauntless courage, and unbreakable determination to change the narrative. That man was Donald Trump. A candidate who owed no favors to special interests, Trump articulated a new American nationalism that has been an extraordinary force for economic and political renewal.

go robert mueller and the rule of law: Prosecuting the President Andrew Coan, 2019
Prosecuting the President explains what every American needs to know about special prosecutors, perhaps the most consequential and the most mysterious public officials of our time. For more than a century, they have struck fear into the hearts of Presidents, who have the power to fire them at any time. How could this be? And how could the nation have entrusted such a high responsibility to such subordinate officials? As this book shows, the answer is that special prosecutors serve as catalysts for democracy. By raising the visibility of presidential misconduct, they enable the

American people to hold the President accountable for his actions. Ultimately, the choice is ours.

go robert mueller and the rule of law: High Crimes Michael D'Antonio, Peter Eisner, 2020-10-20 Two award-winning journalists offer the most comprehensive inside story behind our most significant modern political drama: the House impeachment of Donald Trump. Having spent a year essentially embedded inside several House committees, Michael D'Antonio and Peter Eisner draw on many sources, including key House leaders, to expose the politicking, playcalling, and strategies debated backstage and to explain the Democrats' successes and apparent public failures during the show itself. High Crimes opens with Nancy Pelosi deciding the House should take up impeachment, then, in part one, leaps back to explain what Ukraine was really all about: not just Joe Biden and election interference, but a money grab and oil. In the second part, the authors recount key meetings throughout the run up to the impeachment hearings, including many of the heated confrontations between the Trump administration and House Democrats. And the third part takes readers behind the scenes of those hearings, showing why certain things happened the way they did for reasons that never came up in public. In the end, having illuminated every step of impeachment, from the schemes that led Giuliani to the Ukraine in 2016 to Fiona Hill's rebuking the Republicans' conspiracy theories, High Crimes promises to be Trump's Final Days.

go robert mueller and the rule of law: Understanding a New Presidency in the Age of Trump Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2017-11-10 From the authors of The Politics of the Presidency comes this new supplement examining the unprecedented administration of Donald J. Trump. With their trademark balance between historical context, the current political environment, and contemporary scholarship on the executive branch, Joseph A. Pika, John Anthony Maltese, and Andrew Rudalevige offer students in American politics a brief but thorough overview of the Trump presidency's first year of office. From the transition to the Russia investigation, Understanding a New Presidency in the Age of Trump grounds the ongoing news cycle in a deeper analysis of the executive branch, encouraging you to draw connections between current events and broader political science concepts. Whether packaged with another CQ Press title or used on its own, Understanding a New Presidency will give you the insight you need.

go robert mueller and the rule of law: Oversight of the Federal Bureau of Investigation United States. Congress. Senate. Committee on the Judiciary, 2012

go robert mueller and the rule of law: It Takes a Revolution Larry Klayman Esq., 2020-10-27 With a title that satirically mocks It Takes a Village by Hillary Clinton, It Takes a Revolution: Forget the Scandal Industry! details how our executive, legislative, and judicial branches of government have become thoroughly corrupt and failed the citizenry. Imploring Americans to turn away from the "scandal industry" of the cable news networks, which enrich themselves by magnifying crises—if not creating mass panic to boost ratings and advertising dollars—and offering false hope to lure viewers that there will be justice to remedy government corruption, the author Larry Klayman, both the founder of Judicial Watch and now Freedom Watch, offers concrete solutions for creating a federal judiciary and instituting citizens' grand juries. Quoting Founding Fathers like John Adams and Thomas Jefferson, Klayman explains above all that without ethics, morality, and religion, it will not matter how many times we change our forms of government or rules—there will be no lasting liberty. This work is a call to arms during these times of crises, when government corruption has hit a "cancerous state." The overriding message of It Takes a Revolution: Forget the Scandal Industry! is that Americans should turn off cable news, stop being entertained by it, get up off of the couch, and join the second American Revolution—albeit a peaceful and legal one—to restore the greatness of our nation in these trying and perilous times. Our continued existence hangs in the balance!

go robert mueller and the rule of law: Dialogues on Transhumanism Rowe Kruger, 2019-07-10 In the year 2182 stands the city of MetalWest. Where it was once the prosperous start of transhumanism, it has since regressed into a corporate dystopia that in turn was ended through violent revolutions. Fifteen years after the fight has ended, the question of whether or not transhumanism and other revolutionary technologies should be shunned or embraced dictates the thoughts and actions of those who were involved in fight. Now with the addition of a neutral party, a

replicant who struggles with his own issues of identity as to what truly separates one man from another, the well held views of everyone will be put to the test. Their discussions will range from automation, economics, and the future of entertainment to the uncomfortable truths of human nature and the very concept of the self.

go robert mueller and the rule of law: AmGov Christine Barbour, 2019-02-12 All the fundamentals. No fluff. Learn more with less! A truly revolutionary American Government textbook, Christine Barbour's AmGov: Long Story Short, responds to the needs of today's students and instructors through brevity and accessibility. The succinct ten chapters are separated by tabs that make it easy to skim, flip, revisit, reorient, and return to content quickly. Reading aids like bullets, annotations and arrows walk students through important facts and break up the material in short, engaging bites of information that highlight not only what is important but why it's important. Though brief, this core book is still robust enough to provide everything that students need to be successful in their American Government course. Whether for the on-the-go student who doesn't have time to read and digest a lengthy chapter, or the instructor who wants a book that will stay out of their way and leave room for plenty of supplementary reading and activities, AmGov provides a perfectly simplified foundation for a successful American Government course.

go robert mueller and the rule of law: The Impeachment of Donald Trump Robert S. Mueller, Federal Bureau of Investigation, Elizabeth B. Bazan, National Security Agency, 2020-01-10 The impeachment inquiry against Donald Trump, the incumbent president of the United States, was initiated by House Speaker Nancy Pelosi on September 24, 2019, after a whistleblower alleged that Donald Trump may have abused the power of the presidency. This book provides the complete overview of all the reports and documents related to the impeachment inquiry against Donald Trump, including declassified documents, transcripts and reports of various US security agencies and other actors involved in the investigation. go robert mueller and the rule of law: Never Trump Robert P. Saldin, Steven Michael Teles, 2020 In early 2016, as it became increasingly apparent that Donald Trump might actually become the Republican nominee, a movement within conservatism formed to stop him: Never Trump. Comprised primarily of Republican policy elites and conservative intellectuals, the Never Trumpers saw Trump's stated views as a repudiation of longstanding Republican foreign and domestic policy goals. Just as importantly, they saw him as erratic, mendacious, and unfit--the sort of person the founders warned about and someone who would bring everlasting shame to the Republican Party. Over the coming months, many well-known and previously influential figures signed on to the Never Trump movement. Of course, their efforts failed, and Trump now dominates the Republican Party like a warlord. As Robert P. Saldin and Steven M. Teles argue in Never Trump, however, the influence of the movement turned out to be much larger than its disappointing impact on the election. For one, it has had an enormous impact on the actual composition of the Trump administration. There has never been a party in the Western World that was elected and sought to govern with such a wide range of intra-party opposition. As Trump supporter Pat Buchanan observed after the election, the Never Trumpers essentially gifted Trump with a readymade enemies list-a list

that those in charge of appointments paid close attention to. Trump's picks for a wide range of positions, especially in the area of foreign policy, look vastly different than they would have in any other Republican administration, in large part because so many potential office-holders had declared themselves implacably opposed to Trump. Even more profoundly, the administration found it very difficult--and in many cases impossible--to fill a wide range of positions because all of the plausible candidates for jobs that required technocratic as well as ideological credentials had signed on to Never Trump. Never Trump examines the reasons for this widespread and unprecedented intra-party opposition to Trump, why it took the form it did, and its longer-term consequences.

go robert mueller and the rule of law: Canceling Lawyers W. Bradley Wendel, 2024

Lawyers take pride in a professional tradition of representing unpopular clients, understanding it as a contribution to the rule of law and the practice of toleration in a polarized society. This does not mean that lawyers are fully insulated from criticism for the clients they represent. The seemingly intractable debate over accountability for representing nasty clients is in part the result of a deep, structural tension between the institutions and procedures of the legal system, and the underlying issues and controversies about which people disagree. We also care about the attitudes and motives of lawyers, which play an important role in evaluating the actions of others. Much of the frustration experienced by lawyers who are criticized for representing unpopular clients arises from what lawyers see as the public's inability to understand the rule of law and the function of the legal system in resolving conflicts over rights and justice. Using a series of case studies, this book explores the possibility that both lawyers and their critics are right. There is genuine value in a system of formal law that aims at settling social disagreement, but that is not the whole story. Public criticism of lawyers may reflect the sense that the legal system has fallen short of ideals of fairness and inclusiveness. Many of the lawyer shaming or canceling episodes discussed in this book arise out of the representation of clients in matters involving issues where it appears that the official process of establishing and interpreting formal law has been captured by powerful interests. Accepting a certain amount of public criticism is necessary to avoid a dangerous isolation of the legal profession from accountability to the broader political community, or from the humanity of lawyers being submerged by their professional role--

go robert mueller and the rule of law: Hard Right: The GOP's Drift Toward Extremism Mona Charen, 2023-06-27 As a Republican, Mona Charen hardly recognizes her own party anymore. The party's focus has shifted from policy to provocation. Over time, many mainstream Republicans have embraced extremist views that were once reserved for the fringes—challenging free and fair elections, praising demagogues, encouraging conspiracies, and abandoning basic respect and decency. The Republican Party crashed through the floor of decency when Donald J. Trump was nominated as the party's candidate in the 2016 presidential election. Since then, it has continued to find new lows in conspiracism, cynicism, stoked outrage, falsehoods, and finally, insurrection. In this collection of syndicated columns since 2016, Ms. Charen, a long-time political analyst, calls out the Republican Party for drifting far from its principles, offering sharp criticism and level-headed advice. Charen's journey has taken her to distrust of excessive partisanship on all sides and a renewed urgency about confirming the values and traditions of small-l liberal democracy.

go robert mueller and the rule of law: A President's Daily Brief: Years 1-4 Micah

Fisher-Kirshner, What was daily life under the Trump presidency really like? An accessible ebook with short, thematic entries showing the corruption of the entire Trump presidency, *A President's Daily Brief, Year 1-4: The Day-by-Day Lurch of Trump's Norm-Breaking Presidency* is the full volume of Micah Fisher-Kirshner's series, representing the four years of Trump's time in power and the subversion that occurred. More than a compiled list of significant events that portray Trump as the most corrupt American president, this digestible and scannable read of in-the-moment posts pulled from news outlets and credible sources provides an intimate look at how the administration went about breaking the presidential norms on a daily basis. Readers also will have access to citations to fact-check claims. This quick read on a Trump presidency that started off with outrage and graduated to righteous indignation is a must-have for those who enjoy history, politics, and

government or simply want to read about the most notorious presidency in history.

go robert mueller and the rule of law: *Brown at 10* Anthony Seldon, 2011-10-03 GORDON BROWN's three years in power were among the most turbulent in Downing Street's post-war history. *Brown at 10* tells the compelling story of his hubris and downfall, and with it, the final demise of the New Labour project. Containing an extraordinary breadth of previously unpublished material, *Brown at 10* is a frank, penetrating portrait of a remarkable era, written by one of Britain's leading political and social commentators. Using unrivalled access to many of those at the centre of Brown's government, and original material gleaned from hundreds of hours of interviews with many of its leading lights, *Brown at 10* looks with greater depth and detail into the signal events and circumstances of Brown's premiership than any other account published since the May 2010 general election. It also relates, for the first time, the full extraordinary tale of the pivotal role played by Brown in persuading the world's leaders to address the global banking crisis head-on. The result is the definitive chronicle of Gordon Brown's troubled period in Number 10, from the unique perspective of those who worked most closely with him.

go robert mueller and the rule of law: *Kushner, Inc.* Vicky Ward, 2019-03-19 INSTANT NEW YORK TIMES BESTSELLER The first explosive book about Javanka and their infamous rise to power Jared Kushner and Ivanka Trump are the self-styled Prince and Princess of America. Their swift, gilded rise to extraordinary power in Donald Trump's White House is unprecedented and dangerous. In *Kushner, Inc.*, investigative journalist Vicky Ward digs beneath the myth the couple has created, depicting themselves as the voices of reason in an otherwise crazy presidency, and reveals that Jared and Ivanka are not just the President's chief enablers: they, like him, appear disdainful of rules, of laws, and of ethics. They are entitled inheritors of the worst kind; their combination of ignorance, arrogance, and an insatiable lust for power has caused havoc all over the world, and may threaten the democracy of the United States. Ward follows their trajectory from New Jersey and New York City to the White House, where the couple's many forays into policy-making and national security have mocked long-standing U.S. policy and protocol. They have pursued an agenda that could increase their wealth while their actions have mostly gone unchecked. In *Kushner, Inc.*, Ward holds Jared Kushner and Ivanka Trump accountable: she unveils the couple's self-serving transactional motivations and how those have propelled them into the highest levels of the US government where no one, the President included, has been able to stop them.

go robert mueller and the rule of law: The 'End Game' Jonathan E. P. Moore, 2020-10-12 Jon voted for the first time in 2004 at the age of 52 after his father died 7 months before 9/11 in 2001, which in Jon's opinion would have killed him if he had made it those extra 7 months anyway! What ignited the flame under Jon's political fired up ass was seeing a Senator from Chicago who was being considered to run for the Presidency being shown rubbing elbows with Reverend 'God Damn America' Wright and Jon's generation's 'Weather Underground' Bomber William 'Bill' Ayers who over the years had become a community planner like Barack Obama in Chicago, but the Mainstream Media never informed their viewers of this very important fact about Bill Ayres past, and couldn't understand how that could have possibly been missed! Bottom line though is that was the exact moment Jon got up off the couch and started his quest to understand and monitor the goings on within today's American politics, and what the impact was on America and the American people then and today when this kind of information is kept from the American People! The 'End Game'

go robert mueller and the rule of law: A Case for the American People Norman Eisen, 2020-07-28 The Democrats' special impeachment counsel on the House Judiciary Committee lays out President Trump's shocking pattern of betrayals, lies, and high crimes, arguing articles of impeachment to the ultimate judges: the American people. In his behind-the-scenes account of the attempts to bring the president to justice—from filing the very first legal actions against him, through the Mueller report, to the turbulent impeachment and trial, to the president's ongoing wrongdoing today—Norman Eisen, at the forefront of the battle since the day of Trump's inauguration, pulls back the curtain on the process. He reveals ten proposed articles of impeachment, not just the two that were publicly tried, all of which he had a hand in drafting. He

then guides us through Trump's lifelong instincts that have dictated his presidency: a cycle of abuse, corruption, and relentless obstruction of the truth. Since taking the oath of office, Donald Trump has been on a spree of high crimes and misdemeanors, using the awesome power of the presidency for his own personal gain, at the expense of the American people. He has inflamed our divisions for his electoral benefit, with flagrant disregard for the Constitution that makes us America. Each step of the way, he has lied incessantly, including to cover up his crimes. And yet he remains in the country's highest office. Congress, federal and state prosecutors, and courts have worked to hold the president accountable for his myriad offenses—with some surprising successes and devastating failures. Eisen, who served as special counsel to the House Judiciary Committee for Trump's impeachment and trial, presents the case against Trump anew. Eisen's gripping narrative and rousing closing argument—at turns revelatory, insightful, and enraging—will inspire our nation of judges. History has proven that this president's nefarious behavior will continue, no matter the crisis. But, as Eisen's candid retelling affirms, there is an ultimate constitutional power that transcends the president's, a power that can and must defeat him if our nation is to survive. The verdict of the American people remains in the balance. It is time for us to act.

go robert mueller and the rule of law: Bad People Geoffrey Robertson, 2021-03-30 From the Nuremberg trials to the arrest of General Pinochet to the prosecution of barbarians of the Balkans, we have crafted a global human rights law to punish crimes against humanity. And yet today it is rarely applied: the International Criminal Court has faltered, populist governments refuse to cooperate, the UN Security Council is pole-axed and liberal democracy is on the defensive. When faced with the torture of Sergei Magnitsky, the murder of Jamal Khashoggi and the repression of the Uighurs, what recourse do we have? Distinguished human rights lawyer Geoffrey Robertson argues that our most powerful weapon is Magnitsky laws, by which not only perpetrators but their accomplices – lickspittle judges, doctors who assist in torture, corporations that profit from slave labour – are named, shamed and blamed. Though the UK and the EU have passed nascent Magnitsky laws, they are not deploying them effectively. It is only by developing a full-blooded system of coordinated sanctions – banning human rights violators from entering democratic countries to funnel their ill-gotten gains through Western banks and take advantage of our schools and hospitals – that we can fight back against cruelty and corruption. Bad People sets out a Plan B for human rights, offering a new blueprint for global justice in a post-pandemic world.

go robert mueller and the rule of law: Richard Nixon John A. Farrell, 2017-03-28 From a prize-winning biographer comes the defining portrait of a man who led America in a time of turmoil and left us a darker age. We live today, John A. Farrell shows, in a world Richard Nixon made. At the end of WWII, navy lieutenant "Nick" Nixon returned from the Pacific and set his cap at Congress, an idealistic dreamer seeking to build a better world. Yet amid the turns of that now-legendary 1946 campaign, Nixon's finer attributes gave way to unapologetic ruthlessness. The story of that transformation is the stunning overture to John A. Farrell's magisterial biography of the president who came to embody postwar American resentment and division. Within four years of his first victory, Nixon was a U.S. senator; in six, the vice president of the United States of America. "Few came so far, so fast, and so alone," Farrell writes. Nixon's sins as a candidate were legion; and in one unlawful secret plot, as Farrell reveals here, Nixon acted to prolong the Vietnam War for his own political purposes. Finally elected president in 1969, Nixon packed his staff with bright young men who devised forward-thinking reforms addressing health care, welfare, civil rights, and protection of the environment. It was a fine legacy, but Nixon cared little for it. He aspired to make his mark on the world stage instead, and his 1972 opening to China was the first great crack in the Cold War. Nixon had another legacy, too: an America divided and polarized. He was elected to end the war in Vietnam, but his bombing of Cambodia and Laos enraged the antiwar movement. It was Nixon who launched the McCarthy era, who played white against black with a "southern strategy," and spurred the Silent Majority to despise and distrust the country's elites. Ever insecure and increasingly paranoid, he persuaded Americans to gnaw, as he did, on grievances—and to look at

one another as enemies. Finally, in August 1974, after two years of the mesmerizing intrigue and scandal of Watergate, Nixon became the only president to resign in disgrace. Richard Nixon is a gripping and unsparing portrayal of our darkest president. Meticulously researched, brilliantly crafted, and offering fresh revelations, it will be hailed as a master work.

go robert mueller and the rule of law: Indictment Brant J. Moore, 2021-08-30 Calling someone a traitor requires evidence—something that Donald J. Trump has provided ample amounts of to the world. Brant J. Moore, a former lifelong Republican, financial contributor, and operative, picks apart Trump's presidency in this damning account of his legacy. Chapters can be viewed as the individual elements of an indictment of the former commander-in-chief. The author examines Trump's mendacity, incompetence, and attacks on the rule of law that culminated in the Jan. 6, 2021, storming of the United States Capitol by an angry mob. He also calls out Trump's drift toward authoritarianism, his refusal to transfer power, and traitorous acts. Even after the death of a fellow Republican and war hero, Sen. John McCain, it's reported that Trump told senior staff, "We're not going to support that loser's funeral." When he saw flags lowered to half-staff, he became enraged. Get a good look at a wealthy, spoiled brat who can't grasp the true meaning of service or patriotism and find out why we must scorn the Republican Party until it abandons Trump in *Indictment*.

go robert mueller and the rule of law: Unintended Consequence William Kane, 2020-11-13 Being a citizen requires more than just being a resident. If you intend to vote in 2020 or beyond, then you should read this book before you vote. If you do not intend to vote, then you should read this book to understand why you should vote. Consider this a primer in contemporary civics. It is not meant to tell you what to think; instead, it is purposed to encourage you to think, to inspire you to question, challenge, validate, explore, and consider. It is intended to demonstrate how legislative policies have historically led to unintended consequences that then required additional legislation to resolve the unforeseen outcome. Our history is riddled with such instances. Most government programs are based upon noble principles on their onset—national security, to assist the economically disadvantaged, to provide a head start for those with inferior educational opportunity, or to provide a safety net for those who lack medical coverage. While some societal good and redressing of our national shortcomings have resulted from these efforts, the objectives of most remain unachieved. The cost has led to unsustainable national debt. Moderation and compromise are the proper pathways to governing our great nation. Our politics have become so party-polarized that moderation and compromise seem impossible. We must all share the same fundamental priority—nation over party. We will retrace our history to understand how we came to this place. Where does government responsibility end and personal responsibility begin? Let us examine these progressive laws, assess their success, and consider their cost to the US taxpayer. Diversity is an admirable thing, but in certain instances, uniformity is preferable. Charity is a blessed thing, but self-sufficiency is everlasting. Public assistance is a moral thing, but fiscal responsibility is an obligation. The decisions we make as a nation must transcend party politics and philosophies and refocus upon the larger, more compelling obligation of sustaining America, its history, its glory, and its future. Ronald Reagan cautioned that "we must act today in order to preserve tomorrow." We must stand against the erosion of our democracy, economy, national security, and the basic moral fabric of our nation. The world is watching, and so are our grandchildren. *Carpe diem*.

go robert mueller and the rule of law: It Takes a Counter-Revolution Larry Klayman Esq., 2022-03-15 With a title that again satirically mocks *It Takes a Village* by Hillary Clinton, *It Takes a Counter-Revolution: Wake Up America!* is the sequel to *It Takes a Revolution: Forget the Scandal Industry!*, as the nation has now been wholly taken over by the radical left. Like *Revolution*, this book details how our executive, legislative, and judicial branches of government have become thoroughly corrupt and failed the citizenry, but offers new and more drastic solutions given the deepening crises that have—in the last year alone—enmeshed the republic in a march to socialism, communism, atheism, and godless radical leftist ideologies of all types. Emphasizing again that Americans must turn away from the "scandal industry" of the cable news networks, which enrich themselves by magnifying crises—if not creating mass panic to boost ratings and advertising

dollars—the author Larry Klayman, the founder of both Judicial Watch and Freedom Watch, now advocates for declaring independence from our current government, which he chronicles as terminally ill, after experiencing and suffering the corrosive, destructive effects of the Biden-Harris regime. Quoting Founding Fathers like John Adams and Thomas Jefferson, Klayman argues that the people must harken back to July 4, 1776, when under the laws of nature and Nature’s God—rather than the laws of the state—the colonies, faced with a king far less harmful than our present rulers, were left with no choice but to declare and form a new nation. What we now need, Klayman argues, is not a new nation, but a new government, with new righteous leaders and new political parties, offering an alternative to the citizenry over what now rules over them in a virtual leftist dictatorship, with little to no sincere and honest Republican opposition. This work is a call to arms during these times of crises, when government deceit, exploitation, corruption, and dictatorial control over the people have created a virtual noose around our collective necks. The overriding message of *It Takes a Counter-Revolution: Wake Up America!* is that Americans must stop wishfully hoping for the best, get up off of the couch, take calculated risks, and actively join the counter-revolution—albeit a peaceful and legal one—to restore the liberty that once made our nation great. Our continued existence as a once God-fearing and free republic now hangs in the balance, with no time to lose!

United States. Congress. Senate. Committee on the Judiciary, 2013

go robert mueller and the rule of law: The FBI and Public Corruption Robert Grayson, 2014-11-17 The federal Bureau of Investigation (FBI) is a national agency dedicated to investigation federal crimes. Founded as a small team of special agents on July 26, 1908, the Bureau was first charged with enforcing the growing body of federal laws covering the United States as a whole. Almost from the beginning of its 100-year history, the Bureau has been the subject of legend and controversy. It has also evolved into a vast and sophisticated national law-enforcement agency. Whether as a federal crime-fighting force or a source of investigative support of local and state police forces, the modern FBI strives to embody its ideals of fidelity, bravery, and integrity. When people who commit bribery, extortion, or embezzlement work in local, state, or federal government, then their crimes are a form of public corruption. The perpetrators may be elected officials, judged, building and health inspectors, or even police officers. What these people have in common is a position of public trust, and they have chosen to violate that trust in exchange for money or something else of value. Rooting our corrupt officials and bringing them to justice is a task that falls to special agents of the FBI.
