hannah greys anatomy: Chick TV Yael Levy, 2022-03-14 Tony Soprano, Don Draper, and Walter White ushered in the era of the television antihero, with compelling narratives and complex characters. While critics and academics celebrated these characters, the antiheroines who populated television screens in the twenty-first century were pushed to the margins and dismissed as "chick TV." In this volume, Yael Levy advances antiheroines to the forefront of television criticism, revealing the varied and subtle ways in which they perform feminist resistance. Offering a retooling of gendered media analyses, Levy finds antiheroism not only in the morally questionable cop and tormented lawyer, but also in the housewife and nurse who inhabit more stereotypical feminine roles. By analyzing *Girls*, *Desperate Housewives*, *Nurse Jackie*, *Being Mary Jane*, *Grey's Anatomy*, *Six Feet Under*, *Sister Wives*, and the *Real Housewives* franchise, Levy explores the narrative complexities of "chick TV" and the radical feminist potential of these shows.

With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934, the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Levitin, 2020-01-07 INSTANT TOP 10 BESTSELLER • New York Times • USA Today • Washington Post • LA Times "Debunks the idea that aging inevitably brings infirmity and unhappiness and instead offers a trove of practical, evidence-based guidance for living longer and better."—Daniel H. Pink, author of *When and Drive* SUCCESSFUL AGING delivers powerful insights: • Debunking the myth that memory always declines with age • Confirming that health span—not life span—is what matters • Proving that sixty-plus years is a unique and newly recognized developmental stage • Recommending that people look forward to joy, as reminiscing doesn't promote health Levitin looks at the science behind what we all can learn from those who age joyously, as well as how to adapt our culture to take full advantage of older people's wisdom and experience. hannah greys anatomy: Key Lime Pie Murder Joanne Fluke, 2013-02-27 It promises to be a busy week for Hannah Swensen. Not only is she whipping up treats for the chamber of commerce booth at the Tri-County fair, she's also judging the baking contest; acting as a magician's assistant for her business partner's husband; trying to coax Moishe, her previously rapacious feline, to end his hunger strike, and performing her own private carnival act by juggling the demands of her mother and sisters. With so much on her plate, it's no wonder Hannah finds herself on the midway only moments before the fair closes for the night. After hearing a suspicious thump, she goes snooping—only to discover Willa Sunquist, a student teacher and fellow bake contest judge, dead alongside an upended key lime pie. But who would want to kill Willa and why? Now Hannah needs to crank up the heat, hoping that Willa's killer will get rattled and make a mistake. If that happens she intends to be there, even if it means getting on a carnival ride that could very well be her last... Features Over a Dozen Cookie and Dessert Recipes from The Cookie Jar!

hannah greys anatomy: Smart Chicks on Screen Laura Mattoon D'Amore, 2014-09-08 While women have long been featured in leading roles in film and television, the intellectual depictions of female characters in these mediums are out of line with reality. Women continue to be marginalized for their choices, overshadowed by men, and judged by their bodies. In fact, the intelligence of women is rarely the focus of television or film narratives, and on the rare occasion when smart women are showcased, their portrayals are undermined by socially awkward behavior or their intimate relationships are doomed to perpetual failure. While Hollywood claims to offer a different, more evolved look at women, these movies and shows often just repackage old character types that still downplay the intelligence and savvy of women. In *Smart Chicks on Screen: Representing Women's Intellect in Film and Television*, Laura Mattoon D'Amore brings together an impressive array of scholarship that interrogates the portrayal of females on television and in movies. Among

the questions that the volume seeks to answer are: In what ways are women in film and television limited, or ostracized, by their intelligence? How do female roles reinforce standards of beauty, submissiveness, and silence over intellect, problem solving, and leadership? Are there women in film and television who are intelligent without also being objectified? The thirteen essays by international, interdisciplinary scholars offer a wide range of perspectives, examining the connections—and disconnections—between beauty and brains in film and television. *Smart Chicks on Screen* will be of interest to scholars not only of film and television but of women's studies, reception studies, and cultural history, as well.
