my side of the mountain: Frightful's Mountain Jean Craighead George, 2001-05-22 Frightful, the peregrine falcon, could not see. A falconer's hood covered her head and eyes. She remained quiet and clam, like all daytime birds in the dark. She would hear, however. She listened to the wind whistling through the pine needles. The wind-music conjured up images of a strange woods and unknown flowers. The sound was foreign. It was not the soft song of wind humming through the hemlock needles of home. Frightful was a long way from her familiar forest. Suddenly an all-consuming passion filled her. She must go. She must find one mountain among thousands, one hemlock tree among millions. And the one boy who called himself Sam Gribble. The one mountain was her territory, the one tree was Sam's house, the perch beside it, her place. And Sam Gribble was life. So begins the third book in the wilderness series that has lifted imaginations around the world. Readers last heard from Sam Gribble a decade ago, when he kept the hardest resolution of his life and let his falcon partner go free. Now at last we pick up the story—but this time, the narrative continues through Frightful's keen-sighted eyes. Raised by Sam, Frightful is an imprinted bird. She has no idea how to migrate, mate, or be a mother. She can barely even feed herself, for although she is a skilled hunter, it was always Sam who signaled permission to partake of the kill. Sam, so patient and kind, will support her from afar, and so will bird activists Jon and Susan Wood and

conservationist Leon Longbridge. But despite a letter-writing campaign by local schoolchildren, other would despoil her Catskill home?designing fatal electrical wires and disturbing good nesting areas with jackhammers and paint trucks.With evolution and a proud natural intelligence on her side, Frightful may yet beat the odds of famine, winter, and human encroachment. But her terrible longing for that one mountain among thousands, her first home?a longing so noble and generous yet so dangerous?will govern her to either heartbreaking failure or hart-aching triumph, a triumph so right and so natural that readers will want to take to the skies in celebration.Jean Craighead George published *My Side of the mountain* in 1959, a Newbery Honor Book and coming-of-age story that has enthralled and entertained generations of would-be Sams. This third book in the series shares?in exquisite, elegantly flowing prose?Frightful's own passage into adulthood, taking readers on a journey into the mind and spirit of one of the wild's most magnificent creations and proving once again why the author is considered the most gifted nature writer of her time.

my side of the mountain: **Stand Up That Mountain** Jay Erskine Leutze, 2013-07-30 In the tradition of *A Civil Action*—this true story of a North Carolina outdoorsman who teams up with his Appalachian neighbors to save treasured land from being destroyed will “make you want to head for the mountains” (Raleigh News & Observer). *LIVING ALONE IN HIS WOODED MOUNTAIN RETREAT*, Jay Leutze gets a call from a whip-smart fourteen-year-old, Ashley Cook, and her aunt, Ollie Cox, who say a local mining company is intent on tearing down Belview Mountain, the towering peak above their house. Ashley and her family, who live in a little spot known locally as Dog Town, are “mountain people,” with a way of life and speech unique to their home high in the Appalachians. They suspect the mining company is violating North Carolina’s mining law, and they want Jay, a nonpracticing attorney, to stop the destruction of the mountain. Jay, a devoted naturalist and fisherman, quickly decides to join their cause. So begins the epic quest of “the Dog Town Bunch,” a battle that involves fiery public hearings, clandestine surveillance of the mine operator’s highly

questionable activities, ferocious pressure on public officials, and high-stakes legal brinksmanship in the North Carolina court system. Jay helps assemble a talented group of environmental lawyers to contend with the well-funded attorneys protecting the mining company's plan to dynamite Belview Mountain, which happens to sit next to the famous Appalachian Trail, the 2,184-mile national park that stretches from Maine to Georgia. As the mining company continues to level the forest and erect the gigantic crushing plant on the site, Jay's group searches frantically for a way to stop an act of environmental desecration that will destroy a fragile wild place and mar the Appalachian Trail forever.

my side of the mountain: *Island of the Blue Dolphins* Scott O'Dell, 1960 Far off the coast of California looms a harsh rock known as the island of San Nicholas. Dolphins flash in the blue waters around it, sea otter play in the vast kelp beds, and sea elephants loll on the stony beaches. Here, in the early 1800s, according to history, an Indian girl spent eighteen years alone, and this beautifully written novel is her story. It is a romantic adventure filled with drama and heartache, for not only was mere subsistence on so desolate a spot a near miracle, but Karana had to contend with the ferocious pack of wild dogs that had killed her younger brother, constantly guard against the Aleutian sea otter hunters, and maintain a precarious food supply. More than this, it is an adventure of the spirit that will haunt the reader long after the book has been put down. Karana's quiet courage, her Indian self-reliance and acceptance of fate, transform what to many would have been a devastating ordeal into an uplifting experience. From loneliness and terror come strength and serenity in this Newbery Medal-winning classic.

my side of the mountain: World Without Fish Mark Kurlansky, 2018-06-15 A KID'S GUIDE TO THE OCEAN Can you imagine a world without fish? It's not as crazy as it sounds. But if we keep doing things the way we've been doing things, fish could become extinct within fifty years. So let's change the way we do things! World Without Fish is the uniquely illustrated narrative nonfiction account—for kids—of what is happening to the world's oceans and what they can do about it. Written by Mark Kurlansky, author of Cod, Salt, The Big Oyster, and many other books, World Without Fish has been praised as "urgent" (Publishers Weekly) and "a wonderfully fast-paced and engaging primer on the key questions surrounding fish and the sea" (Paul Greenberg, author of Four Fish). It has also been included in the New York State Expeditionary Learning English Language Arts Curriculum. Written by a master storyteller, World Without Fish connects all the dots—biology, economics, evolution, politics, climate, history, culture, food, and nutrition—in a way that kids can really understand. It describes how the fish we most commonly eat, including tuna, salmon, cod,

swordfish—even anchovies— could disappear within fifty years, and the domino effect it would have: the oceans teeming with jellyfish and turning pinkish orange from algal blooms, the seabirds disappearing, then reptiles, then mammals. It describes the back-and-forth dynamic of fishermen, who are the original environmentalists, and scientists, who not that long ago considered fish an endless resource. It explains why fish farming is not the answer—and why sustainable fishing is, and how to help return the oceans to their natural ecological balance. Interwoven with the book is a twelve-page graphic novel. Each beautifully illustrated chapter opener links to the next to form a larger fictional story that perfectly complements the text.

That grim reality—gleaned from personal experience and twenty years of trauma work—is a fundamental principle of Carrie Goldberg's cutting-edge victims' rights law firm. Riveting and an essential timely conversation-starter, Nobody's Victim invites readers to join Carrie on the front lines of the war against sexual violence and privacy violations as she fights for revenge porn and sextortion laws, uncovers major Title IX violations, and sues the hell out of tech companies, schools, and powerful sexual predators. Her battleground is the courtroom; her crusade is to transform clients from victims into warriors. In gripping detail, Carrie shares the diabolical ways her clients are attacked and how she, through her unique combination of advocacy, badass relentlessness, risk-taking, and client-empowerment, pursues justice for them all. There are stories about a woman whose ex-boyfriend made fake bomb threats in her name and caused a national panic; a fifteen-year-old girl who was sexually assaulted on school grounds and then suspended when she reported the attack; and a man whose ex-boyfriend used a dating app to send more than 1,200 men to ex's home and work for sex. With breathtaking honesty, Carrie also shares her own shattering story about why she began her work and the uphill battle of building a business. While her clients are a diverse group—from every gender, sexual orientation, age, class, race, religion, occupation, and background—the offenders are not. They are highly predictable. In this book, Carrie offers a taxonomy of the four types of offenders she encounters most often at her firm: assholes, psychos, perverts, and trolls. "If we recognize the patterns of these perpetrators," she explains, "we know how to fight back." Deeply personal yet achingly universal, Nobody's Victim is a bold and much-needed analysis of victim protection in the era of the Internet. This book is an urgent warning of a coming crisis, a predictor of imminent danger, and a weapon to take back control and protect ourselves—both online and off.

my side of the mountain: The Words in My Hands Asphyxia, 2021-11-09 Part coming of age, part call to action, this fast-paced #ownvoices novel about a Deaf teenager is a unique and inspiring exploration of what it means to belong. Smart, artistic, and independent, sixteen year old Piper is tired of trying to conform. Her mom wants her to be “normal,” to pass as hearing, to get a good job. But in a time of food scarcity, environmental collapse, and political corruption, Piper has other things on her mind—like survival. Piper has always been told that she needs to compensate for her Deafness in a world made for those who can hear. But when she meets Marley, a new world opens up—one where Deafness is something to celebrate, and where resilience means taking action, building a community, and believing in something better. Published to rave reviews as *Future Girl* in Australia (Allen & Unwin, Sept. 2020), this empowering, unforgettable story is told through a visual extravaganza of text, paint, collage, and drawings. Set in an ominously prescient near future, *The Words in My Hands* is very much a novel for our turbulent times.
