## **Obituaries Guide That Fills Me With Terror: A Deep Dive into Mortality's Shadow**

### **Introduction:**

Let's be honest, the word "obituaries" isn't exactly synonymous with "fun Friday night." For many, the thought of reading obituaries evokes a chilling sense of mortality, a stark reminder of our own finite existence. This isn't a morbid fascination; it's a deeply human response. This post isn't about sugarcoating death. Instead, we'll explore the unsettling yet compelling aspects of researching obituaries, delving into why this seemingly mundane task can be so profoundly terrifying for some, and offering strategies to navigate this uncomfortable territory. We'll dissect the emotional, psychological, and even practical reasons why encountering an obituary – especially one of a loved one or even a stranger – can trigger feelings of fear, anxiety, and even existential dread.

## **H2: The Unexpected Horror of Familiarity**

One of the most terrifying aspects of obituaries lies in their unsettling familiarity. They aren't abstract concepts of death; they're stark reminders of lived lives, abruptly ended. Reading about someone's passing, even a stranger, forces a confrontation with the inevitability of our own demise. The detail – the age, the cause of death, the surviving family – strips away the abstraction and brings the reality of death into sharp, uncomfortable focus. This is particularly potent when the deceased

shares similarities with the reader: same age, same profession, same hobbies. This unsettling mirroring effect can trigger intense feelings of vulnerability and fear.

## **H2: The Uncomfortable Confrontation with Mortality**

Obituaries are, at their core, documents of death. They represent the end of a life, a final full stop. For some, this can be intensely triggering, a brutal confrontation with the finiteness of human existence. The existential dread that accompanies this realization can be overwhelming, especially for those who haven't fully processed their own mortality. This isn't necessarily a sign of weakness; it's a natural response to a profound and universal human experience.

## **H3: The Unexpected Grief of the Unfamiliar**

Even obituaries of strangers can evoke a surprising emotional response. The details of their lives – their accomplishments, their loved ones, the brief glimpse into their unique existence – can create a sense of loss, even though we never knew them. This is a testament to our shared humanity and the inherent empathy we possess. The unexpected grief can be jarring, leading to feelings of unease and apprehension.

## **H2: The Practical Fears: What if it's someone I know?**

The terror surrounding obituaries isn't always solely existential. A practical fear exists: the fear of discovering the obituary of someone unexpectedly close – a friend, family member, or even someone we barely know but had a connection with. The sudden realization of their absence can be devastating and profoundly unsettling. This fear isn't irrational; it's a protective mechanism stemming from our innate desire to avoid pain and loss.

## **H2: Navigating the Terror: Tips for Coping**

While the fear evoked by obituaries is a valid and natural response, there are ways to navigate these feelings. Acknowledging the fear is the first step. Allowing yourself to feel the emotions, rather than suppressing them, can help in processing them. Talking to someone you trust – a friend, family member, therapist – can provide valuable support and perspective. Remember that confronting mortality is a part of life, and acknowledging this fear doesn't make you weak; it makes you human.

## H2: Reframing the Narrative: Finding Meaning in Mortality

While the immediate reaction to an obituary might be fear, reframing the narrative can offer a more nuanced perspective. Consider the obituary as a testament to a life lived, a celebration of memories, a reminder of the importance of cherishing our time. Focusing on the positive aspects of the life recounted can help to alleviate the terror and foster a sense of appreciation for life's preciousness.

### Conclusion:

The unsettling feeling that obituaries evoke is a complex mix of existential dread, unexpected grief, and practical fears. It's a testament to our deeply human connection to life and death. Understanding the roots of this terror allows for a more compassionate and nuanced approach, transforming the experience from one of pure fear to a poignant reflection on life's fragility and the importance of cherishing every moment.

**obituaries guide that fills me with terror:** The Ten Worlds Ash ElDifrawi, Alex Lickerman, 2018-10-02 What exactly is happiness that we spend our lives pursuing it more fiercely than anything else? The answer, Drs. Lickerman and ElDifrawi argue, is that happiness isn't just a good feeling but a special good feeling—in fact, the best good feeling we're capable of having. Enduring happiness is something we all want yet many of us fail to achieve. Look around you. How many people do you know who would say they feel a constant and powerful sense of satisfaction with their lives? How many people do you imagine wouldn't find their ability to be happy impaired by a significant loss, like the death of a parent, a spouse, or a child? How is it possible to be happy in the long-term when so many terrible things are destined to happen to us? In this highly engaging and eminently practical book—told in the form of a Platonic dialogue recounting real-life patient experiences—Drs. Lickerman and ElDifrawi assert that the reason genuine, long-lasting happiness is so difficult to achieve and maintain is that we're profoundly confused not only about how to go about it but also about what happiness is. In identifying nine basic erroneous views we all have about what we need to be happy—views they term the core delusions—Lickerman and ElDifrawi show us that our happiness depends not on our external possessions or even on our experiences but rather on the beliefs we have that shape our most fundamental thinking. These beliefs, they argue, create ten internal life-conditions, or worlds, through which we continuously cycle and that determine how happy we're able to be. Drawing on the latest scientific research as well as Buddhist philosophy,

Lickerman and ElDifrawi argue that once we learn to embrace a correct understanding of happiness, we can free ourselves from the suffering the core delusions cause us and enjoy the kind of happiness we all want, the kind found in the highest of the Ten Worlds, the world of Enlightenment. **obituaries guide that fills me with terror: Loneliness as a Way of Life** Thomas Dumm, 2010-05-01 "What does it mean to be lonely?" Thomas Dumm asks. His inquiry, documented in this book, takes us beyond social circumstances and into the deeper forces that shape our very existence as modern individuals. The modern individual, Dumm suggests, is fundamentally a lonely self. Through reflections on philosophy, political theory, literature, and tragic drama, he proceeds to illuminate a hidden dimension of the human condition. His book shows how loneliness shapes the contemporary division between public and private, our inability to live with each other honestly and in comity, the estranged forms that our intimate relationships assume, and the weakness of our common bonds. A reading of the relationship between Cordelia and her father in Shakespeare's *King Lear* points to the most basic dynamic of modern loneliness—how it is a response to the problem of the "missing mother." Dumm goes on to explore the most important dimensions of lonely experience—Being, Having, Loving, and Grieving. As the book unfolds, he juxtaposes new interpretations of iconic cultural texts—*Moby-Dick*, *Death of a Salesman*, the film *Paris, Texas*, Emerson's "Experience," to name a few—with his own experiences of loneliness, as a son, as a father, and as a grieving husband and widower. Written with deceptive simplicity, *Loneliness as a Way of Life* is something rare—an intellectual study that is passionately personal. It challenges us, not to overcome our loneliness, but to learn how to re-inhabit it in a better way. To fail to do so, this book reveals, will only intensify the power that it holds over us.

**obituaries guide that fills me with terror: Khobar Towers: Tragedy and Response** Perry D. Jamieson, 2008 This account of the Khobar Towers bombing tells the story of the horrific attack and the magnificent response of airmen doing their duty under nearly impossible circumstances. None of them view their actions as heroic, yet the reader will marvel at their calm professionalism. All of them say it was just their job, but the reader will wonder how they could be so well trained to act almost instinctively to do the right thing at the right time. None of them would see their actions as selfless, yet countless numbers refused medical attention until the more seriously injured got treatment. Throughout this book, the themes of duty, commitment, and devotion to comrades resoundingly underscore the notion that America's brightest, bravest, and best wear her uniforms in service to the nation. This book is more than heroic actions, though, for there is also controversy. Were commanders responsible for not adequately protecting their people? What should one make of the several conflicting investigations following the attack? Dr. Jamieson has not shied away from these difficult questions, and others, but has discussed them and other controversial judgments in a straightforward and dispassionate way that will bring them into focus for everyone. It is clear from this book that there is a larger issue than just the response to the bombing. It is the issue of the example set by America's airmen. Future airmen who read this book will be stronger and will stand on the shoulders of those who suffered and those who made the ultimate sacrifice.

**obituaries guide that fills me with terror: Punk Rock Is Cool for the End of the World** Ed Smith, 2019-06-11 The irreverent, tweetable, ludicrous, painful, wondrous work of the L.A. punk poet--widely available for the first time. In Punk Rock Is Cool for the End of the World, David Trinidad brings together a comprehensive selection of Ed Smith's work: his published books; unpublished poems; excerpts from his extensive notebooks; photos and ephemera; and his timely cry for civilization, Return to Lesbos put down that gun / stop electing Presidents. Ed Smith blazed onto the Los Angeles poetry scene in the early 1980s from out of the hardcore punk scene. The charismatic, nerdy young man hit home with his funny/scary off-the-cuff-sounding poems, like Fishing This is a good line. / This is a bad line. This is a fishing line. Ed's vibrant gang of writer and artist friends--among them Amy Gerstler, Dennis Cooper, Bob Flanagan, Mike Kelley, and David Trinidad--congregated at Beyond Baroque in Venice, on LA's west side. They read and partied and performed together, and shared and published each others' work. Ed was more than bright and versatile: he worked as a math tutor, an animator, and a typesetter. In the mid-1990s, he fell in love with Japanese artist Mio Shirai; they married and moved to New York City. Despite productive years and joyful times, Ed was plagued by mood disorders and drug problems, and at the age of forty-eight, he took his own life. Ed Smith's poems speak to living in an increasingly dehumanizing consumer society and corrupt political system. This punk Dorothy Parker is more relevant than ever for our ADD, technology-distracted times.

**obituaries guide that fills me with terror: Pew** Catherine Lacey, 2020-07-21 WINNER of the

2021 NYPL Young Lions Fiction Award. Finalist for the 2021 Dylan Thomas Prize. Longlisted for the 2021 PEN/Jean Stein Book Award, the Andrew Carnegie Medal for Excellence in Fiction and the Joyce Carol Oates Prize. One of Publishers Weekly's Best Fiction Books of 2020. One of Amazon's 100 Best Books of 2020. "The people of this community are stifling, and generous, cruel, earnest, needy, overconfident, fragile and repressive, which is to say that they are brilliantly rendered by their wise maker, Catherine Lacey." --Rachel Kushner, author of *The Flamethrowers* A figure with no discernible identity appears in a small, religious town, throwing its inhabitants into a frenzy In a small, unnamed town in the American South, a church congregation arrives for a service and finds a figure asleep on a pew. The person is genderless and racially ambiguous and refuses to speak. One family takes in the strange visitor and nicknames them Pew. As the town spends the week preparing for a mysterious Forgiveness Festival, Pew is shuttled from one household to the next. The earnest and seemingly well-meaning townspeople see conflicting identities in Pew, and many confess their fears and secrets to them in one-sided conversations. Pew listens and observes while experiencing brief flashes of past lives or clues about their origin. As days pass, the void around Pew's presence begins to unnerve the community, whose generosity erodes into menace and suspicion. Yet by the time Pew's story reaches a shattering and unsettling climax at the Forgiveness Festival, the secret of who they really are—a devil or an angel or something else entirely—is dwarfed by even larger truths. *Pew*, Catherine Lacey's third novel, is a foreboding, provocative, and amorphous fable about the world today: its contradictions, its flimsy morality, and the limits of judging others based on their appearance. With precision and restraint, one of our most beloved and boundary-pushing writers holds up a mirror to her characters' true selves, revealing something about forgiveness, perception, and the faulty tools society uses to categorize human complexity.

**obituaries guide that fills me with terror:** *The Book of Dead Philosophers* Simon Critchley, 2008 Diogenes died by holding his breath. Plato allegedly died of a lice infestation. Diderot choked to death on an apricot. Nietzsche made a long, soft-brained and dribbling descent into oblivion after kissing a horse in Turin. From the self-mocking haikus of Zen masters on their deathbeds to the last words (gasps) of modern-day sages, *The Book of Dead Philosophers* chronicles the deaths of almost 200 philosophers-tales of weirdness, madness, suicide, murder, pathos and bad luck. In this elegant and amusing book, Simon Critchley argues that the question of what constitutes a 'good death' has been the central preoccupation of philosophy since ancient times. As he brilliantly demonstrates, looking at what the great thinkers have said about death inspires a life-affirming enquiry into the meaning and possibility of human happiness. In learning how to die, we learn how to live.

**obituaries guide that fills me with terror: The Age of Surveillance Capitalism** Shoshana Zuboff, 2019-01-15 The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called surveillance capitalism, and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new behavioral futures markets, where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new means of behavioral modification. The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a Big Other operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled hive of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital future -- if we let it.

**obituaries guide that fills me with terror: The Un-Americans** Joseph Litvak, 2009-11-25 In a bold rethinking of the Hollywood blacklist and McCarthyite America, Joseph Litvak reveals a political regime that did not end with the 1950s or even with the Cold War: a regime of compulsory sycophancy, in which the good citizen is an informer, ready to denounce anyone who will not play the part of the earnest, patriotic American. While many scholars have noted the anti-Semitism underlying the House Un-American Activities Committee's (HUAC's) anti-Communism, Litvak draws on the work of Theodor W. Adorno, Hannah Arendt, Alain Badiou, and Max Horkheimer to show how the committee conflated Jewishness with what he calls "comic cosmopolitanism," an intolerably seductive happiness, centered in Hollywood and New York, in show business and intellectual circles. He maintains that HUAC took the comic irreverence of the "uncooperative" witnesses as a crime against an American identity based on self-repudiation and the willingness to "name names." Litvak proposes that sycophancy was (and continues to be) the price exacted for assimilation into mainstream American culture, not just for Jews, but also for homosexuals, immigrants, and other groups deemed threatening to American rectitude. Litvak traces the outlines of comic cosmopolitanism in a series of performances in film and theater and before HUAC, performances by Jewish artists and intellectuals such as Zero Mostel, Judy Holliday, and Abraham Polonsky. At the same time, through an uncompromising analysis of work by informers including Jerome Robbins, Elia Kazan, and Budd Schulberg, he explains the triumph of a stoolpigeon culture that still thrives in the America of the early twenty-first century.

**obituaries guide that fills me with terror: Human Accomplishment** Charles Murray, 2009-10-13 A sweeping cultural survey reminiscent of Barzun's *From Dawn to Decadence*. At irregular times and in scattered settings, human beings have achieved great things. Human Accomplishment is about those great things, falling in the domains known as the arts and sciences, and the people who did them.' So begins Charles Murray's unique account of human excellence, from the age of Homer to our own time. Employing techniques that historians have developed over the last century but that have rarely been applied to books written for the general public, Murray compiles inventories of the people who have been essential to the stories of literature, music, art, philosophy, and the sciences—a total of 4,002 men and women from around the world, ranked according to their eminence. The heart of *Human Accomplishment* is a series of enthralling descriptive chapters: on the giants in the arts and what sets them apart from the merely great; on the differences between great achievement in the arts and in the sciences; on the meta-inventions, 14 crucial leaps in human capacity to create great art and science; and on the patterns and trajectories of accomplishment across time and geography. Straightforwardly and undogmatically, Charles Murray takes on some controversial questions. Why has accomplishment been so concentrated in Europe? Among men? Since 1400? He presents evidence that the rate of great accomplishment has been declining in the last century, asks what it means, and offers a rich framework for thinking about the conditions under which the human spirit has expressed itself most gloriously. Eye-opening and humbling, *Human Accomplishment* is a fascinating work that describes what humans at their best can achieve, provides tools for exploring its wellsprings, and celebrates the continuing common quest of humans everywhere to discover truths, create beauty, and apprehend the good.

**obituaries guide that fills me with terror: The Travels of Dean Mahomet** Dean Mahomet, 2023-11-10 This unusual study combines two books in one: the 1794 autobiographical travel narrative of an Indian, Dean Mahomet, recalling his years as camp-follower, servant, and subaltern officer in the East India Company's army (1769 to 1784); and Michael H. Fisher's portrayal of Mahomet's sojourn as an insider/outsider in India, Ireland, and England. Emigrating to Britain and living there for over half a century, Mahomet started what was probably the first Indian restaurant in England and then enjoyed a distinguished career as a practitioner of oriental medicine, i.e., therapeutic massage and herbal steam bath, in London and the seaside resort of Brighton. This is a fascinating account of life in late eighteenth-century India—the first book written in English by an

Indian—framed by a mini-biography of a remarkably versatile entrepreneur. *Travels* presents an Indian's view of the British conquest of India and conveys the vital role taken by Indians in the colonial process, especially as they negotiated relations with Britons both in the colonial periphery and the imperial metropole. Connoisseurs of unusual travel narratives, historians of England, Ireland, and British India, as well as literary scholars of autobiography and colonial discourse will find much in this book. But it also offers an engaging biography of a resourceful, multidimensional individual.

It's not like she's the only woman to ever have a baby. At thirty-five. On her own. But Anne Lamott makes it all fresh in her now-classic account of how she and her son and numerous friends and neighbors and some strangers survived and thrived in that all important first year. From finding out that her baby is a boy (and getting used to the idea) to finding out that her best friend and greatest supporter Pam will die of cancer (and not getting used to that idea), with a generous amount of wit and faith (but very little piousness), Lamott narrates the great and small events that make up a woman's life. Lamott has a conversational style that perfectly conveys her friendly, self-deprecating humor. -- Los Angeles Times Book Review Lamott is a wonderfully lithe writer .... Anyone who has ever had a hard time facing a perfectly ordinary day will identify. -- Chicago Tribune

**obituaries guide that fills me with terror:** *The Bodies That Remain* Emmy Beber, 2018-10-16  
*The Bodies That Remain* is a collection of bodies and absences. Through biography, experimental essay and interview, fictional manifestation, and poetic extraction, *The Bodies That Remain* is a collection of texts and images on the bodies of artists and writers who battled with the frustration of their own physicality and whose work reckoned with these limitations and continued beyond them. *The Bodies That Remain* looks back at how the identity of these bodies was shaped by the spaces around them, through the retelling of memory, through stories told by others; of how their work, processed by their body, made it possible for others to experience sensations - mourning, desire, or a nostalgia that could not belong to another, to another's body and in capturing this ability, their work confirms the body's urgency. Amongst others, *The Bodies That Remain* tells the story of Emily Dickinson's decay, the missing grave of Valeska Gert, the voice and sound of the body of Judee Sill, and the derailed body and its work of Jane Bowles. It questions the absent body but broken organs of JT Leroy as they find themselves scattered across texts, and also interrogates the loss of distinction of illness for Jules de Goncourt as syphilis riddled his nervous system. It retrieves the illusory body of Kathy Acker through dream and through horror, sees the morphing body of Michael Jackson in becoming all of the bodies he was asked to be, and looks toward Sylvia Plath and the language of her own body. Contributions include texts and images by: Lynne Tillman (on Jane Bowles), David Rule (on Michael Jackson), Mairead Case (on Judee Sill), Claire Potter (on the Lads of Aran), Jeremy Millar (on Emily Dickinson), Chloé Griffin (on Valeska Gert), Phoebe Blatton (on Brigid Brophy), Susanna Davies-Crook (on Sarah Kane), Travis Jeppensen (on Gary Sullivan), Karen Di Franco (on Mary Butts), Tai Shani (on Mnemosoid), Philip Hoare (on Denton Welch), Heather Phillipson (on a dead dog), Uma Breakdown (on Guage Fanfic), Linda Stuppert (on Kathy Acker), Sharon Kivland (on Jacques Lacan), Harman Bains (on Wilhelm Reich), Pil & Galia Kollektiv (JT Leroy), Kevin Breathnach (on Jules de Goncourt), and Emily LaBarge (on Sylvia Plath).

**obituaries guide that fills me with terror:** *You'll Never Nanny in This Town Again* Suzanne Hansen, 2005-12-27 New and completely updated edition Hilarious and addictive, this chronicle of a small-town girl's stint as a celebrity nanny reveals what really happens in the diaper trenches of Hollywood. When Oregon native Suzanne Hansen becomes a live-in nanny to the children of Hollywood über-agent Michael Ovitz, she thinks she's found the job of her dreams. But Hansen's behind-the-scenes access soon gets her much more than she bargained for: working twenty-four hours a day, juggling the shifting demands of the Hollywood elite, and struggling to comprehend wealth unimaginable to most Americans, not to mention dealing with the expected tantrums and the unexpected tense-and intense-atmosphere in the house where she lives with her employers. When the thankless drudgery takes its toll and Hansen finally quits, her boss threatens to blackball her from ever nannying in Hollywood again. Discouraged but determined, Hansen manages to land gigs with Debra Winger and then Danny DeVito and Rhea Perlman. Attentive, welcoming parents with a relaxed attitude toward celebrity-looks like Hansen's fallen into a real-life happy ending. But the round-the-clock workdays continue, rubbing some of the glitter off L.A. living, and Hansen's not sure how much longer she can pretend to be Mary Poppins. Even bosses who treat her like family can't help as she struggles to find meaning in her work while living in a town that seems to lack respect for nannies and everyone else who comes in the employee's entrance-but without whom many showbiz households would grind to a halt. Peppering her own journey with true stories and high drama experienced by other nannies to the stars, Hansen offers an intriguing, entertaining mix of tales from the cribs of the rich and famous. *You'll Never Nanny in This Town Again* is a treat for everyone who is fascinated by the skewed priorities of Tinseltown, for anyone who has wondered how high-wattage supermoms do it all, and for readers who love peeking behind the curtains of celebrity, all of whom will devour this unparalleled-and unabashedly true-account of one girl's tour of duty as Hollywood's hired help.

**obituaries guide that fills me with terror:** *Cuisine and Culture* Linda Civitello, 2011-03-29 *Cuisine and Culture* presents a multicultural and multiethnic approach that draws connections between major historical events and how and why these events affected and defined the culinary traditions of different societies. Witty and engaging, Civitello shows how history has shaped our diet-and how food has affected history. Prehistoric societies are explored all the way to present day issues such as genetically modified foods and the rise of celebrity chefs. Civitello's humorous tone and deep knowledge are the perfect antidote to the usual scholarly and academic treatment of this universally important subject.

**obituaries guide that fills me with terror:** *The Divine Feline* Belinda Alexandra, 2020-11-03 Cats and women share many traits: beauty, elegance, sensitivity, affectionate natures, a knack for

nurturing and a love of the luxurious. Cats also embody the feminine dark side, with a tendency towards neurosis and fear of change. Then there are the qualities that cats possess which women long to emulate: fighting fiercely to protect themselves, never saying yes when they mean no, and being unafraid to claim the best seat in the house. Cats are loyal to those who love them but couldn't give a toss about what others think. They don't suffer self-esteem issues or worry if they're overweight. And then there is that enviable air of mystery, that slinky walk . . . oh to be a cat! They're the ultimate totem of female strength. Belinda Alexandra, writer and ardent cat lover, makes no apology for celebrating the special bond between women and their cats. In *The Divine Feline*, she shares her own experiences with cats, describes the relationship between women and cats throughout history and solves behavioural and philosophical issues in a whimsical and practical way. Viva la cat lady!
