

Stark County Threat Assessment

Stark County Threat Assessment: Understanding and Mitigating Risks

Are you concerned about safety and security in Stark County, Ohio? Understanding potential threats and implementing effective mitigation strategies is crucial for individuals, businesses, and the community as a whole. This comprehensive guide dives deep into the nuances of Stark County threat assessment, providing insights into common risks, resources available, and proactive steps you can take to enhance your safety and security. We'll explore various threat categories, discuss the importance of proactive assessment, and outline practical measures to minimize vulnerabilities.

Understanding the Scope of Stark County Threat Assessment

A Stark County threat assessment involves a systematic process of identifying, analyzing, and prioritizing potential threats to individuals, businesses, and the community. This goes beyond simply reacting to incidents; it's about proactively identifying vulnerabilities and developing strategies to prevent or mitigate them. This assessment considers a broad spectrum of threats, including:

H2: Types of Threats Facing Stark County:

Crime: This encompasses a wide range, from property crime like burglary and theft to violent crimes such as assault and robbery. Specific crime statistics for Stark County can be obtained from the Stark County Sheriff's Office and local law enforcement agencies. Understanding local crime patterns is crucial for personalized risk assessment.

Natural Disasters: Stark County is susceptible to severe weather events, including tornadoes, flooding, and blizzards. Assessing the potential impact of these events on your property, family, or business is essential for disaster preparedness. The Stark County Emergency Management Agency provides valuable resources and information.

Cybersecurity Threats: In today's digital age, cybersecurity threats pose a significant risk to individuals and businesses alike. Phishing scams, malware attacks, and data breaches can have severe consequences. Understanding these threats and implementing robust cybersecurity measures is vital for protection.

Public Health Emergencies: Pandemics, outbreaks of infectious diseases, and other public health crises can significantly impact the community. Assessing preparedness for such events, including having emergency plans and sufficient supplies, is crucial.

Infrastructure Vulnerabilities: The vulnerability of critical infrastructure, such as power grids, water systems, and transportation networks, should be considered. Disruptions to these systems can have widespread consequences.

H2: Conducting a Personal or Business Threat Assessment:

A thorough threat assessment is not a one-size-fits-all process. It should be tailored to your specific circumstances. For individuals, this might involve assessing the security of your home, identifying potential personal safety risks, and developing emergency plans. For businesses, a more comprehensive assessment may be necessary, considering factors such as physical security, cybersecurity, supply chain vulnerabilities, and reputation management.

H3: Steps in a Threat Assessment:

1. **Identify Assets:** Determine what needs protecting – this could be your home, business, data, reputation, or employees.
2. **Identify Threats:** Based on your location and specific circumstances, list potential threats.
3. **Assess Vulnerabilities:** Identify weaknesses that could be exploited by the identified threats.
4. **Analyze Risks:** Determine the likelihood and potential impact of each threat.
5. **Develop Mitigation Strategies:** Implement measures to reduce vulnerabilities and mitigate potential risks. This might include security systems, insurance, training, or backup plans.
6. **Monitor and Review:** Regularly review and update your assessment to account for changing circumstances and new threats.

H2: Resources for Stark County Threat Assessment:

Several resources can help you conduct a comprehensive threat assessment and enhance your security:

Stark County Sheriff's Office: Provides crime statistics, safety tips, and community policing information.

Canton Police Department: Offers similar resources for the city of Canton. Other municipal police departments within Stark County provide similar services.

Stark County Emergency Management Agency: Provides information on disaster preparedness and response.

Local News Outlets: Stay informed about local crime trends and potential threats through local news sources.

Cybersecurity Professionals: Consult with cybersecurity experts for assistance with business or personal cybersecurity assessments.

H2: Proactive Measures for Enhanced Security:

Beyond formal assessments, proactive measures significantly contribute to enhanced security:

Neighborhood Watch Programs: Participation fosters community awareness and helps prevent crime.

Home Security Systems: Investing in reliable security systems provides a significant deterrent.

Regular Security Audits: Businesses should conduct periodic security audits to identify and address vulnerabilities.

Employee Training: Educating employees about cybersecurity threats and safety protocols is essential.

Emergency Preparedness Planning: Having a detailed emergency plan for your home or business is crucial.

Conclusion:

Stark County threat assessment is an ongoing process that requires vigilance and proactive engagement. By understanding the various threats, conducting thorough assessments, leveraging available resources, and implementing effective mitigation strategies, individuals and businesses can significantly enhance their safety and security, contributing to a safer and more resilient community.

Remember, prevention is key. Staying informed, engaging in your community, and taking proactive steps are crucial components of a comprehensive approach to safety and security.

FAQs:

1. Where can I find Stark County crime statistics? The Stark County Sheriff's Office and local police departments' websites are good starting points.
2. What should I do if I experience a threat? Contact the appropriate emergency services (911) immediately and report the incident to the local law enforcement agency.
3. Are there any free resources available for conducting a threat assessment? Many online resources offer guidance and templates for conducting threat assessments. However, for a truly comprehensive assessment, especially for businesses, consulting a professional may be beneficial.
4. How often should I review my threat assessment? It's recommended to review your assessment at least annually, or more frequently if significant changes occur in your circumstances or the threat landscape.
5. What is the role of the Stark County Emergency Management Agency? They coordinate emergency response and preparedness efforts for the county, providing resources and information to residents and businesses.

stark county threat assessment: 2011 National Gang Threat Assessment Federal Bureau of Investigation, 2012-01-01 Gangs continue to commit criminal activity, recruit new members in urban, suburban, and rural regions across the United States, and develop criminal associations that expand their influence over criminal enterprises, particularly street-level drug sales. The most notable trends for 2011 have been the overall increase in gang membership, and the expansion of criminal street gangs' control of street-level drug sales and collaboration with rival gangs and other criminal organizations.

stark county threat assessment: *Transnational Organized Crime in Central America and the Caribbean*, 2012 This report is one of several studies conducted by UNODC on organized crime threats around the world. These studies describe what is known about the mechanics of contraband trafficking - the what, who, how, and how much of illicit flows - and discuss their potential impact on governance and development. Their primary role is diagnostic, but they also explore the implications of these findings for policy. Publisher's note.

stark county threat assessment: Keeping Students Safe and Helping Them Thrive David Osher Ph.D., Matthew J. Mayer, Robert J. Jagers, Kimberly Kendziora, Lacy Wood, 2019-05-17 Details the safety, mental health, and wellness issues in schools today and focuses on the interactions and collaborations needed among students, teachers, families, community members, and other professionals to foster the safety, learning, and well-being of all students. Safe schools and student well-being take a village of adults and students with varied interests, perspectives, and abilities collaborating to create caring, supportive, and academically productive schools. Schools are unofficial mental health care providers for children and youth who are placed at risk by social and economic circumstances and whose un- and under addressed needs can compromise teaching and learning. This handbook provides up-to-date information on how to promote safety, wellness, and mental health in a manner that can help draw the needed village together. It aligns research and

practice to support effective collaboration—it provides information and tools for educators, administrators, policy makers, mental health and community organizations, families, parents, and students to join forces to promote and support school safety, student well-being, and student mental health. Chapters address school context, the dynamic nature of school communities and child development, and the importance of diversity and equity. Chapters provide in-depth understanding of why and how to improve safety, well-being, and mental health in a culturally responsive manner. They provide strategies and tools for planning, monitoring, and implementing change, methods for collaborating, and policy and practice guidance. They provide examples of successful and promising cross-system and cross-stakeholder collaborations. This handbook will interest students, scholars, faculty, and researchers in education, counseling, and psychology; administrators in human services and youth development; policy makers; and student, family, and community representatives.

stark county threat assessment: Handbook of Research on Mass Shootings and Multiple Victim Violence Crews, Gordon A., 2019-10-25 The phenomena of mass shootings appear to be on the rise. Within the past decade, shootings have occurred in schools, religious institutions, concerts, movie theaters, and other public venues, as well as at home in the form of domestic mass shootings. This phenomenon is influenced by factors such as access to guns, mental illness, the desire for fame, revenge from being bullied, and copycat killing to name a few. Mass shootings are a serious problem for society and must be explored further in order to provide preventive solutions. The Handbook of Research on Mass Shootings and Multiple Victim Violence is a pivotal reference source that provides vital research on contributing factors to gun violence, characteristics of shooters and victims, solutions for preventing incidents from occurring, and the impact these shootings have on the community. While highlighting topics such as school safety, cyberbullying, and mental illness, this publication is ideally designed for law enforcement, government officials, psychologists, psychiatrists, sociologists, politicians, policymakers, law makers, academicians, researchers, and students seeking current research on the latest empirical findings of mass shootings in the United States.

stark county threat assessment: The Militia Threat R. L. Snow, 1999-04-18 Most shocking is when Snow exposes the truth behind who belongs to these militias and serves as their leaders - including high-ranking police officials and representatives from Congress! Finding camaraderie in numbers, militia members form tight-knit groups to thwart infiltrators and informants. We discover their adamant belief in conspiracy theories, their ill-conceived motives, and their paranoia. We investigate their extreme training tactics, use of illegal weapons, and survivalist credo.

stark county threat assessment: Juvenile Delinquency Kirk Heilbrun, Naomi E. Sevin Goldstein, Richard E. Redding, 2005-03-17 Juvenile offending and anti-social behavior are enormous societal concerns. This broad-reaching volume summarizes the current evidence on prevention, diversion, causes, and rates of delinquency, as well as assessment of risk and intervention needs. A distinguished cast of contributors from law, psychology, and psychiatry describe what we know about interventions in school, community, and residential contexts, focusing particularly on interventions that are risk reducing and cost effective. Equally important, each chapter comments on what is not well supported through research, distinguishing aspects of current practice that are likely to be effective from those that are not and mapping new directions for research, policy, and practice. Finally, the volume provides a description of a model curriculum for training legal and mental health professionals on conducting relevant assessments of adolescents for the courts. Effectively bridging research and practice, this will be an important resource for legal and mental health professionals involved in the juvenile justice system, policy makers seeking humane but effective interventions in the context of society's need for safety, and those involved in teaching about and training in juvenile delinquency.

stark county threat assessment: Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World

War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

stark county threat assessment: Review of the Department of Homeland Security's Approach to Risk Analysis National Research Council, Committee to Review the Department of Homeland Security's Approach to Risk Analysis, 2010-09-10 The events of September 11, 2001 changed perceptions, rearranged national priorities, and produced significant new government entities, including the U.S. Department of Homeland Security (DHS) created in 2003. While the principal mission of DHS is to lead efforts to secure the nation against those forces that wish to do harm, the department also has responsibilities in regard to preparation for and response to other hazards and disasters, such as floods, earthquakes, and other natural disasters. Whether in the context of preparedness, response or recovery from terrorism, illegal entry to the country, or natural disasters, DHS is committed to processes and methods that feature risk assessment as a critical component for making better-informed decisions. Review of the Department of Homeland Security's Approach to Risk Analysis explores how DHS is building its capabilities in risk analysis to inform decision making. The department uses risk analysis to inform decisions ranging from high-level policy choices to fine-scale protocols that guide the minute-by-minute actions of DHS employees. Although DHS is responsible for mitigating a range of threats, natural disasters, and pandemics, its risk analysis efforts are weighted heavily toward terrorism. In addition to assessing the capability of DHS risk analysis methods to support decision-making, the book evaluates the quality of the current approach to estimating risk and discusses how to improve current risk analysis procedures. Review of the Department of Homeland Security's Approach to Risk Analysis recommends that DHS continue to build its integrated risk management framework. It also suggests that the department improve the way models are developed and used and follow time-tested scientific practices, among other recommendations.

stark county threat assessment: The Chemistry of Money Brian Rohrig, 2020-10-26 Did you know that some societies once used giant rocks for money? Why do some coins have holes in them? Will plastic soon replace paper currency? The history of money closely parallels the history of chemistry, with advances in material science leading to advances in our physical currency. From the earliest examples of money, through the rise of coins, paper, plastic and beyond, with excursions into corrosion and counterfeiting along the way, this book provides a chemist's eye view into the history of the cash in our pockets. Written in an accessible style that will appeal to the layperson and scientist alike, The Chemistry of Money will be sure to both enlighten and entertain. You will never look at money the same way again!

stark county threat assessment: 2011 National Gang Threat Assessment Federal Bureau of Investigation, 2011-12-01 Gangs continue to commit criminal activity, recruit new members in urban, suburban, and rural regions across the United States, and develop criminal associations that expand their influence over criminal enterprises, particularly street-level drug sales. The most notable trends for 2011 have been the overall increase in gang membership, and the expansion of criminal street gangs' control of street-level drug sales and collaboration with rival gangs and other criminal organizations.

stark county threat assessment: *The Uninhabitable Earth* David Wallace-Wells, 2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The New Yorker* • *The New York Times* Book Review • *Time* • NPR • *The Economist* • *The Paris Review* • *Toronto Star* • GQ • *The Times Literary Supplement* • *The New York Public Library* • *Kirkus Reviews* It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s *Silent Spring*” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—*The Economist* “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s *Silent Spring*.”—*The Washington Post* “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, *The New York Review of Books*

stark county threat assessment: *Practical Crime Scene Processing and Investigation* Ross M. Gardner, Donna Krouskup, 2016-04-19 All too often, the weakest link in the chain of criminal justice is the crime scene investigation. Improper collection of evidence blocks the finding of truth. Now in its second edition, *Practical Crime Scene Processing and Investigation* presents practical, proven methods to be used at any crime scene to ensure that evidence is admissible and persuasive. Accompanied by more than 300 color photographs, topics discussed include: Understanding the nature of physical evidence, including fingerprint, biological, trace, hair and fiber, and other forms of evidence Actions of the responding officer, from documenting and securing the initial information to providing emergency care Assessing the scene, including search considerations and dealing with chemical and bioterror hazards Crime scene photography, sketching, mapping, and notes and reports Light technology and preserving fingerprint and impression evidence Shooting scene documentation and reconstruction Bloodstain pattern analysis and the body as a crime scene Special scene considerations, including fire, buried bodies, and entomological evidence The role of crime scene analysis and reconstruction, with step-by-step procedures Two appendices provide additional information on crime scene equipment and risk management, and each chapter is enhanced by a succinct summary, suggested readings, and a series of questions to test assimilation of the material. Using this book in your investigations will help you find out what happened and who is responsible.

stark county threat assessment: *Minority Citizens in Disasters* Ronald W. Perry, Alvin H.

Mushkatel, 2008-03-01 The first study of its kind to address the issue of ethnic diversity, *Minority Citizens in Disasters* focuses on the responses of two minorities--blacks and Mexican-Americans--relative to whites in three disaster events: a propane car derailment, a nitric acid spill, and a flood. Ronald Perry and Alvin Mushkatel find that response to initial warnings is influenced by the source of the information--mass media, public authorities, or family and friends--and by the immediacy of the danger, a group's familiarity with the type of threat, and the cause of the disaster. Though social contacts were most often the source of warning, public authorities were the most trusted and reliable. The mass media, usually considered an unreliable source, proved an effective means for reaching a majority of Mexican-Americans, who often tuned in to Spanish-language stations. Blacks, however, tended to dismiss the media as a vehicle controlled by whites and covering primarily white concerns, while whites often dismissed news stories as mere media productions. Perry and Mushkatel's record of the responses of blacks, Mexican-Americans, and whites not only reveals the differing social configurations of minority and majority groups but, more important, suggests concrete ways to modify and improve emergency management systems.

stark county threat assessment: Congressional Record United States. Congress, 1957 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)*

stark county threat assessment: *Department of Homeland Security Bioterrorism Risk Assessment* National Research Council, Division on Earth and Life Studies, Board on Life Sciences, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their Applications, Committee on Methodological Improvements to the Department of Homeland Security's Biological Agent Risk Analysis, 2009-01-03 The mission of Department of Homeland Security Bioterrorism Risk Assessment: A Call for Change, the book published in December 2008, is to independently and scientifically review the methodology that led to the 2006 Department of Homeland Security report, Bioterrorism Risk Assessment (BTRA) and provide a foundation for future updates. This book identifies a number of fundamental concerns with the BTRA of 2006, ranging from mathematical and statistical mistakes that have corrupted results, to unnecessarily complicated probability models and models with fidelity far exceeding existing data, to more basic questions about how terrorist behavior should be modeled. Rather than merely criticizing what was done in the BTRA of 2006, this new NRC book consults outside experts and collects a number of proposed alternatives that could improve DHS's ability to assess potential terrorist behavior as a key element of risk-informed decision making, and it explains these alternatives in the specific context of the BTRA and the bioterrorism threat.

stark county threat assessment: *Economic Security: Neglected Dimension of National Security?* National Defense University (U S), National Defense University (U.S.), Institute for National Strategic Studies (U S, Sheila R. Ronis, 2011-12-27 On August 24-25, 2010, the National Defense University held a conference titled "Economic Security: Neglected Dimension of National Security?" to explore the economic element of national power. This special collection of selected papers from the conference represents the view of several keynote speakers and participants in six panel discussions. It explores the complexity surrounding this subject and examines the major elements that, interacting as a system, define the economic component of national security.

stark county threat assessment: *Partnership for the Americas: Western Hemisphere Strategy*

and U.S. Southern Command James G. Stavridis, Radm James G Stavridis, 2014-02-23 Since its creation in 1963, United States Southern Command has been led by 30 senior officers representing all four of the armed forces. None has undertaken his leadership responsibilities with the cultural sensitivity and creativity demonstrated by Admiral Jim Stavridis during his tenure in command. Breaking with tradition, Admiral Stavridis discarded the customary military model as he organized the Southern Command Headquarters. In its place he created an organization designed not to subdue adversaries, but instead to build durable and enduring partnerships with friends. His observation that it is the business of Southern Command to launch ideas not missiles into the command's area of responsibility gained strategic resonance throughout the Caribbean and Central and South America, and at the highest levels in Washington, DC.

stark county threat assessment: *Genre in a Changing World* Charles Bazerman, Adair Bonini, 2009-09-16 Genre studies and genre approaches to literacy instruction continue to develop in many regions and from a widening variety of approaches. Genre has provided a key to understanding the varying literacy cultures of regions, disciplines, professions, and educational settings. *GENRE IN A CHANGING WORLD* provides a wide-ranging sampler of the remarkable variety of current work. The twenty-four chapters in this volume, reflecting the work of scholars in Europe, Australasia, and North and South America, were selected from the over 400 presentations at SIGET IV (the Fourth International Symposium on Genre Studies) held on the campus of UNISUL in Tubarão, Santa Catarina, Brazil in August 2007—the largest gathering on genre to that date. The chapters also represent a wide variety of approaches, including rhetoric, Systemic Functional Linguistics, media and critical cultural studies, sociology, phenomenology, enunciation theory, the Geneva school of educational sequences, cognitive psychology, relevance theory, sociocultural psychology, activity theory, Gestalt psychology, and schema theory. Sections are devoted to theoretical issues, studies of genres in the professions, studies of genre and media, teaching and learning genre, and writing across the curriculum. The broad selection of material in this volume displays the full range of contemporary genre studies and sets the ground for a next generation of work.

stark county threat assessment: *Coastal Disaster Surveys and Assessment for Risk Mitigation* Tomoya Shibayama, Miguel Esteban, 2022-12-19 This collection covers essential concepts in the management of coastal disasters, outlining several field surveys of such events that have taken place in the 21st century, including the Indian Ocean Tsunami, the Tohoku Earthquake and Tsunami, and the storm surges generated by Hurricane Katrina, Cyclone Nargis, and Typhoon Haiyan. Measurements of flood heights, distributions of structural destruction, and the testimonies of residents are reported, with the results being analysed and compared with past events and numerical simulations to clarify and reconstruct the reality of these disasters. The book covers the state-of-the-art understanding of disaster mechanisms and the most advanced tools for the simulation of future events: • Uniquely explains how to use disaster surveys along with simulations to mitigate risk • Combines pure scientific studies with practical research and proposes procedures for effective coastal disaster mitigation *Coastal Disaster Surveys and Assessment for Risk Mitigation* is ideal for students in the field of disaster risk management, as well as engineers who deal with issues related to tsunamis, storm surges, high wave attack and coastal erosion.

stark county threat assessment: Coercive Control Evan Stark, 2009 Drawing on cases, Stark identifies the problems with our current approach to domestic violence, outlines the components of coercive control, and then uses this alternate framework to analyse the cases of battered women charged with criminal offenses directed at their abusers.

stark county threat assessment: Silent Spring Rachel Carson, 2002 The essential, cornerstone book of modern environmentalism is now offered in a handsome 40th anniversary edition which features a new Introduction by activist Terry Tempest Williams and a new Afterword by Carson biographer Linda Lear.

stark county threat assessment: *Homelessness, Health, and Human Needs* Institute of Medicine, Committee on Health Care for Homeless People, 1988-02-01 There have always been homeless people in the United States, but their plight has only recently stirred widespread public

reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

stark county threat assessment: *The Commercial & Financial Chronicle ...* , 1907

stark county threat assessment: The Financial Crisis Inquiry Report Financial Crisis Inquiry Commission, 2011-05-01 The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to examine the causes, domestic and global, of the current financial and economic crisis in the United States. It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government. News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The Crime Of Our Time*. He can be reached online at www.newsdissector.com.

stark county threat assessment: **Fostering Sustainable Behavior** Doug McKenzie-Mohr, 2011-02-01 The highly acclaimed manual for changing everyday habits-now in an all-new third edition! We are consuming resources and polluting our environment at a rate that is outstripping our planet's ability to support us. To create a sustainable future, we must not only change our own actions, we must educate and encourage those around us to change theirs. If one individual recycles his plastic containers, the impact is minimal. But if an entire community recycles, enormous amounts of resources are saved. How then do we go about transforming people's good intentions into action? *Fostering Sustainable Behavior* explains how the field of community-based social marketing has emerged as an effective tool for encouraging positive social change. This completely revised and updated third edition contains a wealth of new research, behavior change tools, and case studies. Learn how to: target unsustainable behaviors, and identify the barriers to change understand various commitment strategies communicate effective messages enhance motivation and invite participation. The strategies introduced in this ground-breaking manual are an invaluable resource for anyone interested in promoting sustainable behavior, including environmental conservation, recycling and waste reduction, water and energy efficiency and alternative transportation.

stark county threat assessment: **Deterrence and the Death Penalty** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Deterrence and the Death Penalty, 2012-05-26 Many studies during the past few decades have sought to determine whether the death penalty has any deterrent effect on homicide

rates. Researchers have reached widely varying, even contradictory, conclusions. Some studies have concluded that the threat of capital punishment deters murders, saving large numbers of lives; other studies have concluded that executions actually increase homicides; still others, that executions have no effect on murder rates. Commentary among researchers, advocates, and policymakers on the scientific validity of the findings has sometimes been acrimonious. Against this backdrop, the National Research Council report *Deterrence and the Death Penalty* assesses whether the available evidence provides a scientific basis for answering questions of if and how the death penalty affects homicide rates. This new report from the Committee on Law and Justice concludes that research to date on the effect of capital punishment on homicide rates is not useful in determining whether the death penalty increases, decreases, or has no effect on these rates. The key question is whether capital punishment is less or more effective as a deterrent than alternative punishments, such as a life sentence without the possibility of parole. Yet none of the research that has been done accounted for the possible effect of noncapital punishments on homicide rates. The report recommends new avenues of research that may provide broader insight into any deterrent effects from both capital and noncapital punishments.

stark county threat assessment: Political Warfare Kerry K. Gershaneck, Marine Corps University (U.S.). Press, 2020 *Political Warfare* provides a well-researched and wide-ranging overview of the nature of the People's Republic of China (PRC) threat and the political warfare strategies, doctrines, and operational practices used by the Chinese Communist Party (CCP). The author offers detailed and illuminating case studies of PRC political warfare operations designed to undermine Thailand, a U.S. treaty ally, and Taiwan, a close friend--

stark county threat assessment: The Ocean and Cryosphere in a Changing Climate Intergovernmental Panel on Climate Change (IPCC), 2022-04-30 The Intergovernmental Panel on Climate Change (IPCC) is the leading international body for assessing the science related to climate change. It provides policymakers with regular assessments of the scientific basis of human-induced climate change, its impacts and future risks, and options for adaptation and mitigation. This IPCC Special Report on the Ocean and Cryosphere in a Changing Climate is the most comprehensive and up-to-date assessment of the observed and projected changes to the ocean and cryosphere and their associated impacts and risks, with a focus on resilience, risk management response options, and adaptation measures, considering both their potential and limitations. It brings together knowledge on physical and biogeochemical changes, the interplay with ecosystem changes, and the implications for human communities. It serves policymakers, decision makers, stakeholders, and all interested parties with unbiased, up-to-date, policy-relevant information. This title is also available as Open Access on Cambridge Core.
