# Stars at Noon Parents Guide: Is This Movie Suitable for Your Family?

Are you considering taking your family to see "Stars at Noon"? This visually stunning and critically acclaimed film offers a compelling narrative, but its mature themes and suggestive content raise important questions about its suitability for different age groups. This comprehensive parents' guide will delve into the specific aspects of the movie that parents should be aware of before deciding if it's appropriate for their children. We'll break down the film's content, providing a detailed analysis to help you make an informed decision.

## Content Overview: What Parents Need to Know

"Stars at Noon" isn't your typical summer blockbuster. It's a slow-burn drama with complex themes that may not resonate with younger audiences. The film explores mature topics that require a certain level of maturity and understanding to appreciate.

### Sexual Content:

The film features several explicit scenes depicting sexual intimacy. These scenes are not gratuitous, but they are integral to the narrative, portraying the characters' emotional and physical connection in a raw and realistic manner. The level of explicitness is significant enough to warrant a discussion with older teens before viewing. Younger children should absolutely avoid this film.

### Violence and Threat:

While not overtly violent, the film depicts a sense of constant underlying threat and danger. The characters are constantly navigating precarious situations, often facing potential harm or imprisonment. This element of suspense and tension might be unsettling for younger viewers.

### Drug Use:

The film portrays drug use, although not glamorized. It's presented as a consequence of the characters' circumstances and contributes to the overall atmosphere of uncertainty and desperation. This depiction warrants a conversation about the realities of drug abuse and its potential consequences.

## **Mature Themes:**

Beyond the explicit content, the movie delves into complex themes of political intrigue, betrayal, and the complexities of human relationships in challenging circumstances. These themes are presented with nuance and realism, which requires a level of maturity to fully comprehend and appreciate. Younger audiences may struggle to grasp the subtleties of these themes.

## **Language:**

While the film isn't excessively profane, there is some strong language used that might be considered inappropriate for younger audiences. This language is consistent with the film's overall tone and setting.

## **Age Appropriateness Recommendations**

Based on the content described above, we recommend the following age appropriateness guidelines:

Under 13: Definitely not appropriate. The sexual content, thematic elements, and potential for unsettling scenes make this film unsuitable for pre-teens.

13-15: Highly questionable. Parental guidance is strongly advised, and a prior discussion about the mature themes is essential.

16-17: With caution. Older teens might be able to handle the mature themes, but parental discretion is still highly recommended. A pre-screening discussion is crucial.

18+: Generally appropriate. Adults should be able to handle the film's content, but individual sensitivities should be considered.

## **Conclusion: Making the Right Choice for Your Family**

Ultimately, the decision of whether or not to watch "Stars at Noon" with your family is a personal one. Carefully consider the content warnings outlined above, engage in open conversations with your children about the film's themes, and assess your family's maturity level before making your decision. Remember, the goal is to ensure a viewing experience that is both engaging and appropriate for everyone involved.

**stars at noon parents guide:** **Dream So Big** Christopher B. Pearman, Ian Blake Newhem, 2014-11-15 With my father, what you see is what you get. He doesn't pretend to be some kind of guru, and he doesn't believe he did everything right (which he didn't, despite how hard he tried). But he's definitely confident about what he knows, and eloquent in the way he puts it across. I urge you to put his lessons to the test with your kid, and see how far they'll take you both. I think, once you start reading, you're going to find my dad's confidence and enthusiasm contagious. When I look back now, I remember my father was always focused. Always firm. Always loving. Always thinking about the future. It was kind of like he was always searching for the right way, the most successful way to do things. Make no mistake about it, he was always making sure I watched my p's and q's. I mean always: morning, noon, and night. Without that love and discipline, I would never have gotten to where I am today. You certainly would not have ever heard of Raven-Symon?. Raven-Symon? January 2010 While so many talented and ambitious kids have become tabloid fodder, Raven-Symon?, beloved star of *That's So Raven*, has remained grounded and happy as she's created a massive franchise for Disney, won multiple Kids' Choice Awards, and made history as the first African-American woman with her own sitcom. The difference? Her parents' positive-approach plan--which you can now use with your own children. As her father and manager, Christopher B. Pearman worked tirelessly to nurture Raven's dream, while teaching her to believe in herself and, most importantly, never losing sight of their family's core values. Inside, Pearman breaks down his plan into eight Dream Catchers--spiritual and practical principles that filter out negativity, and allow only affirming thoughts into your child's consciousness. Make no mistake: This is not a guide to stage parenting, but a doctrine for raising your kids to reach their full potential in any endeavor, simple or grand. As a parent, you know there's nothing more important than making sure your children become all they want to be. *Dream So Big* shows how commitment, responsibility, and dedication to your children's innermost wishes can catapult them to great success--and happiness.

The eccentric — albeit slightly overly-friendly — landlord seems nice and welcoming enough, the ceilings are high, and all of the other tenants are also girls. But soon after she becomes uneasy about her rash decision. She hears things in the night. Feels them. Things...or people...who aren't there in the light. Who couldn't be there, because after-all, her door is locked every night, and the key is still in place in the morning. Concern soon turns to terror when the voices she hears and presence she feels each night become hostile. It's clear that something very bad has happened in this house. And something even worse is happening now. Stephanie has to find a way out, before whatever's going on in the house finds her first.
