

The Politics Of Dancing Lyrics

The Politics of Dancing Lyrics: Deconstructing Rhythmic Resistance

Have you ever really listened to the lyrics of your favorite dance track? Beyond the catchy beat and infectious rhythm, a deeper layer often exists – a layer of subtle (and sometimes not-so-subtle) political commentary. This post dives into the fascinating world of "the politics of dancing lyrics," exploring how seemingly frivolous dance music can be a powerful tool for social and political expression. We'll uncover how artists weave narratives of resistance, challenge societal norms, and ignite conversations through the very music that moves our bodies. Prepare to see your favorite dance floor anthems in a whole new light.

H2: Beyond the Beat: Identifying Political Themes in Dance Music

Dance music, with its repetitive structures and driving rhythms, might initially seem apolitical. However, a closer look reveals a rich tapestry of socio-political themes woven into the fabric of many songs. Lyrics often address issues of:

H3: Gender and Sexuality

Many dance tracks, particularly those originating from marginalized communities, tackle representations of gender and sexuality. Lyrics can challenge heteronormative expectations, celebrate LGBTQ+ identities, and fight against sexism and misogyny. Artists use dance music as a platform to express diverse experiences and demand inclusivity, often in ways that are more accessible and engaging than traditional political discourse.

H3: Race and Identity

The history of dance music is deeply intertwined with racial and ethnic identity. Genres like house, hip-hop, and reggae emerged from specific cultural contexts, carrying within them narratives of struggle, resilience, and cultural pride. Lyrics frequently address issues of racial inequality, police brutality, and systemic oppression, using the rhythm and energy of the music to amplify their message. Analyzing these lyrics offers a powerful insight into the experiences of marginalized communities.

H3: Class and Economic Inequality

The dance floor has always been a space of escape and community, yet the economics of music production and consumption often reflect broader societal inequalities. Lyrics can explore themes of poverty, wealth disparity, and the commodification of culture. Artists might critique consumerism, celebrate working-class solidarity, or highlight the struggles of those living in poverty, all while using the rhythmic pulse of the music to create a powerful emotional connection with their audience.

H3: Environmentalism and Social Justice

Increasingly, artists are using dance music to address environmental concerns and broader social justice issues. Lyrics can promote sustainability, critique corporate greed, and advocate for social change. This intersection of environmental awareness and dance music creates a unique blend of activism and entertainment, reaching a broader audience than traditional environmental campaigns.

H2: The Power of Subversion: How Music Circumvents Censorship

The inherent ambiguity of dance lyrics can be a powerful tool for subversion. Often, the rhythmic nature of the music allows artists to subtly embed political messages that might otherwise be censored or overlooked. By using metaphor, allegory, and double entendre, artists can express controversial ideas without explicitly stating them, allowing the audience to interpret the message on a personal level. This subversive approach makes dance music a particularly effective medium for political expression in repressive regimes or contexts where open dissent is dangerous.

H2: The Role of the Audience: Interpretation and Engagement

Ultimately, the power of "the politics of dancing lyrics" lies not only in the creation but also in the interpretation and engagement of the audience. Listeners bring their own experiences, perspectives, and political consciousness to bear when interpreting the lyrics. This active engagement fosters a sense of community and shared understanding, transforming the dance floor into a space of collective political action, even if unspoken. The act of dancing together, moving to a rhythm carrying a political message, creates a potent form of solidarity.

H2: Analyzing Lyrics: Tools and Techniques

Understanding the political dimensions of dance lyrics requires careful attention to detail. Consider the following:

Context: Research the artist's background, the historical period, and the social context in which the song was created.

Word Choice: Pay close attention to the specific vocabulary and imagery used. What emotions are evoked? What narratives are being constructed?

Repetition: Repetitive phrases and motifs often emphasize key themes and ideas.

Metaphor and Symbolism: Unpack any hidden meanings or symbolic representations.

Musicality: How does the music itself complement and enhance the lyrical message?

Conclusion

The politics of dancing lyrics reveals a fascinating intersection of music, politics, and social commentary. Dance music is far more than just entertainment; it can be a powerful tool for social and political change. By carefully analyzing the lyrics and understanding their context, we can gain deeper insights into the cultural and political landscape while simultaneously enjoying the infectious rhythms that move us. Next time you hit the dance floor, take a moment to truly listen to the words – you might be surprised by what you discover.

FAQs

1. Are all dance lyrics inherently political? No, many dance tracks focus purely on love, relationships, or personal experiences. However, even seemingly apolitical lyrics can be interpreted through a political lens, revealing underlying societal values and assumptions.
2. How can I identify political themes in dance lyrics that are not explicitly stated? Look for coded language, metaphors, and allusions to current events or social issues. Consider the overall tone and atmosphere of the song.
3. What is the role of the music itself in conveying political messages? The music's rhythm, tempo, and instrumentation can reinforce or even contradict the lyrical content, creating a complex interplay of meaning.
4. Can dancing to music with political lyrics be considered a form of political activism? Absolutely! Participating in the collective experience of dancing to music that carries a political message is a form of engagement and solidarity.
5. Where can I find more resources to learn about the politics of specific genres of dance music? Academic journals specializing in musicology, cultural studies, and sociology offer in-depth analyses of dance music across various genres and contexts. Online databases and scholarly articles are valuable resources.

the politics of dancing lyrics: The Politics of the Musical Theatre Screen Adaptation

Dominic Broomfield-McHugh, Professor of Musicology Dominic Broomfield-McHugh, 2023-02-28
From *Show Boat* (1936) to *The Sound of Music* (1965) and from *Grease* (1978) to *Chicago* (2002), many of the most beloved film musicals in Hollywood history originated as Broadway shows. And in the three years since the original publication of the chapters in this volume (as *The Oxford Handbook of Musical Theatre Screen Adaptations*, 2019) the phenomenon has persisted, with new adaptations such as *Cats*, *In the Heights*, *Tick, Tick...Boom!*, *Dear Evan Hansen*, and Spielberg's remake of *West Side Story*. Yet in general, the number of screen adaptations of Broadway musicals and operettas is far greater than the number that have met with success, especially both critical and commercial success (i.e., good reviews and a profit at the box office). This is all the more surprising since Hollywood tended almost (if not quite) exclusively to buy the rights to musicals that had been successful on the stage as a means of guaranteeing a profitable outcome. After all, musicals that had already enjoyed long runs and nationwide productions on the stage ought to have a readymade audience. One might also think that because the authors had puzzled over the individual challenges posed by such properties in their stage incarnations, it ought to be easier to turn them into strong film musicals. But for every *West Side Story* there were several *Finian's Rainbows*, *Man of La*

Manchas, and Carousels: movies that simply did not do justice to the 'enchanted evenings' these works provided in their stage incarnations--

the politics of dancing lyrics: Discographies Jeremy Gilbert, Ewan Pearson, 2002-03-11 Experiencing disco, hip hop, house, techno, drum 'n' bass and garage, Discographies plots a course through the transatlantic dance scene of the last last twenty-five years. It discusses the problems posed by contemporary dance culture of both academic and cultural study and finds these origins in the history of opposition to music as a source of sensory pleasure. Discussing such issues as technology, club space, drugs, the musical body, gender, sexuality and pleasure, Discographies explores the ecstatic experiences at the heart of contemporary dance culture. It suggests why politicians and agencies as diverse as the independent music press and public broadcasting should be so hostile to this cultural phenomenon.

the politics of dancing lyrics: The Politics of Adaptation D. Hassler-Forest, P. Nicklas, 2015-04-14 In the age of globalization, digitization, and media convergence, traditional hierarchies between media are breaking down. This book offers new approaches to understanding the politics and their underlying ideologies that are reshaping our global media landscape, including questions of audience participation and transmedia storytelling.

the politics of dancing lyrics: The Politics of Interweaving Performance Cultures Erika Fischer-Lichte, Torsten Jost, Saskya Iris Jain, 2014-01-10 This book provides a timely intervention in the fields of performance studies and theatre history, and to larger issues of global cultural exchange. The authors offer a provocative argument for rethinking the scholarly assessment of how diverse performative cultures interact, how they are interwoven, and how they are dependent upon each other. While the term 'intercultural theatre' as a concept points back to postcolonialism and its contradictions, The Politics of Interweaving Performance Cultures explores global developments in the performing arts that cannot adequately be explained and understood using postcolonial theory. The authors challenge the dichotomy 'the West and the rest' - where Western cultures are 'universal' and non-Western cultures are 'particular' - as well as ideas of national culture and cultural ownership. This volume uses international case studies to explore the politics of globalization, looking at new paternalistic forms of exchange and the new inequalities emerging from it. These case studies are guided by the principle that processes of interweaving performance cultures are, in fact, political processes. The authors explore the inextricability of the aesthetic and the political, whereby aesthetics cannot be perceived as opposite to the political; rather, the aesthetic is the political. Helen Gilbert's essay 'Let the Games Begin: Pageants, Protests, Indigeneity (1968-2010)' won the 2015 Marlis Thiersch Prize for best essay from the Australasian Drama, Theatre and Performance Studies Association.

the politics of dancing lyrics: The Dance of Politics Lisa Gilman, 2011-10-07 Election campaigns, political events, and national celebration days in Malawi usually feature groups of women who dance and perform songs of praise for politicians and political parties. However, as Lisa Gilman explains, in The Dance of Politics, praise performing is one of the few ways that poor women are allowed to participate in a male-dominated political system in which issues of gender, economics, and politics collide in surprising ways. Along with its solid grounding in the relevant literature, The Dance of Politics draws strength from Gilman's first-hand observations and her interviews with a range of participants in the political process, from dancers to politicians.

the politics of dancing lyrics: The Politics of Latino Faith Catherine E. Wilson, 2008-06 With the 2008 U.S. presidential campaign in full swing, many pundits and commentators are striving to understand the political behavior of Latinos—the largest minority in the United States and a key voting block that presidential candidates in this election and beyond will have to learn how to secure. As the author makes clear, not only are Latinos a religious community, but their religious institutions, in particular faith-based organizations, inform daily life and politics in Latino communities to a considerable degree. Timely and discerning, this unique scholarly work addresses this increasingly powerful political force. Concentrating on urban areas in the South Bronx, Philadelphia, and Chicago, the author provides a systematic look at the spiritual, social, and cultural

influence Latino faith-based organizations have provided in American life as well as in understanding Latino social and political involvement in the United States.

the politics of dancing lyrics: Rumba Rules Bob W. White, 2008-06-27 Mobutu Sese Seko, who ruled Zaire (now the Democratic Republic of Congo) from 1965 until 1997, was fond of saying “happy are those who sing and dance,” and his regime energetically promoted the notion of culture as a national resource. During this period Zairian popular dance music (often referred to as la rumba zaïroise) became a sort of musica franca in many parts of sub-Saharan Africa. But how did this privileged form of cultural expression, one primarily known for a sound of sweetness and joy, flourish under one of the continent’s most brutal authoritarian regimes? In *Rumba Rules*, the first ethnography of popular music in the Democratic Republic of Congo, Bob W. White examines not only the economic and political conditions that brought this powerful music industry to its knees, but also the ways that popular musicians sought to remain socially relevant in a time of increasing insecurity. Drawing partly on his experiences as a member of a local dance band in the country’s capital city Kinshasa, White offers extraordinarily vivid accounts of the live music scene, including the relatively recent phenomenon of libanga, which involves shouting the names of wealthy or powerful people during performances in exchange for financial support or protection. With dynamic descriptions of how bands practiced, performed, and splintered, White highlights how the ways that power was sought and understood in Kinshasa’s popular music scene mirrored the charismatic authoritarianism of Mobutu’s rule. In *Rumba Rules*, Congolese speak candidly about political leadership, social mobility, and what it meant to be a bon chef (good leader) in Mobutu’s Zaire.

the politics of dancing lyrics: The Politics of Custom John L. Comaroff, Jean Comaroff, 2018-03-08 Includes bibliographical references and index.

the politics of dancing lyrics: Music Video and the Politics of Representation Diane Railton, 2011-07-07 How can we engage critically with music video and its role in popular culture? What do contemporary music videos have to tell us about patterns of cultural identity today? Based around an eclectic series of vivid case studies, this fresh and timely examination is an entertaining and enlightening analysis of the forms, pleasures, and politics that music videos offer. In rethinking some classic approaches from film studies and popular music studies and connecting them with new debates about the current ‘state’ of feminism and feminist theory, Railton and Watson show why and how we should be studying music videos in the twenty-first century. Through its thorough overview of the music video as a visual medium, this is an ideal textbook for Media Studies students and all those with an interest in popular music and cultural studies.

the politics of dancing lyrics: The Politics of Punk David A. Ensminger, 2016-08-11 Punk rock has long been equated with the ever-shifting concepts of dissent, disruption, and counter-cultural activities. As a result, since its 1970s and 1980s incarnations, when bands in Britain—from The Clash and Sex Pistols to Angelic Upstarts, U.K. Subs, and Crass—offered alternative political convictions and subversive lifestyle choices, the media has often deemed punk a threat. Bands like Circle Jerks, Dead Kennedys, Bad Religion, and Millions of Dead Cops followed suit in America, pushing similar boundaries as the music mutated into a harsher “hardcore” style that branched deep into suburban enclaves. Those antagonisms and ideals were, in turn, translated by another wave of bands—from Fugazi to Anti-Flag—whose commitment to community building was as pronounced as their taut, explosive tunes. In *The Politics of Punk*, David Ensminger probes the conscience of punk by going beyond the lyrics and slogans of the pithy culture war. He paints a broad, nuanced, and well-documented picture of the ongoing activism and outreach inherent in punk. Creating a people’s history of punk’s social, cultural, aesthetic, and political features, the book features original interviews with members of Dead Kennedys, Dead Boys, MDC, Channel 3, Snap-Her, Scream, Minutemen, TSOL, the Avengers, Blowdryers, and many more. Ensminger highlights punk money’s influence on philanthropy and community involvement and paints a contextualized picture of how punk critiqued dominant culture by channeling support and media coverage for a wide array of humanitarian programs for gays and lesbians, the homeless, the disabled, environmental and health research, and other causes.

the politics of dancing lyrics: Tango And The Political Economy Of Passion Marta Savigliano, 2018-02-06 What is tango? Dance, music, and lyrics of course, but also a philosophy, a strategy, a commodity, even a disease. This book explores the politics of tango, tracing tango's travels from the brothels of Buenos Aires to the cabarets of Paris and the shako dansu clubs of Tokyo. The author is an Argentinean political theorist and a dance professor at the University of California at Riverside. She uses her 'tango tongue' to tell interwoven tales of sexuality, gender, race, class, and national identity. Along the way she unravels relations between machismo and colonialism, postmodernism and patriarchy, exoticism and commodification. In the end she arrives at a discourse on decolonization as intellectual 'unlearning.' Marta Savigliano's voice is highly personal and political. Her account is at once about the exoticization of tango and about her own fate as a Third World woman intellectual. A few sentences from the preface are indicative: 'Tango is my womb and my tongue, a trench where I can shelter and resist the colonial invitations to 'universalism,' a stubborn fatalist mood when technocrats and theorists offer optimistic and seriously revised versions of 'alternatives' for the Third World, an opportunistic metaphor to talk about myself and my stories as a success' of the civilization-development-colonization of Am ca Latina, and a strategy to figure out through the history of the tango a hooked-up story of people like myself. Tango is my changing, resourceful source of identity. And because I am where I am outside tango hurts and comforts me: 'Tango is a sad thought that can be danced.' Savigliano employs the tools of ethnography, history, body-movement analysis, and political economy. Well illustrated with drawings and photos dating back to the 1880s, this book is highly readable, entertaining, and provocative. It is sure to be recognized as an important contribution in the fields of cultural studies, performance studies, decolonization, and women-of-color feminism.

the politics of dancing lyrics: Reggaeton Raquel Z. Rivera, Wayne Marshall, Deborah Pacini Hernandez, 2009-04-24 A hybrid of reggae and rap, reggaeton is a music with Spanish-language lyrics and Caribbean aesthetics that has taken Latin America, the United States, and the world by storm. Superstars—including Daddy Yankee, Don Omar, and Ivy Queen—garner international attention, while aspiring performers use digital technologies to create and circulate their own tracks. Reggaeton brings together critical assessments of this wildly popular genre. Journalists, scholars, and artists delve into reggaeton's local roots and its transnational dissemination; they parse the genre's aesthetics, particularly in relation to those of hip-hop; and they explore the debates about race, nation, gender, and sexuality generated by the music and its associated cultural practices, from dance to fashion. The collection opens with an in-depth exploration of the social and sonic currents that coalesced into reggaeton in Puerto Rico during the 1990s. Contributors consider reggaeton in relation to that island, Panama, Jamaica, and New York; Cuban society, Miami's hip-hop scene, and Dominican identity; and other genres including reggae en español, underground, and dancehall reggae. The reggaeton artist Tego Calderón provides a powerful indictment of racism in Latin America, while the hip-hop artist Welmo Romero Joseph discusses the development of reggaeton in Puerto Rico and his refusal to embrace the upstart genre. The collection features interviews with the DJ/rapper El General and the reggae performer Renato, as well as a translation of "Chamaco's Corner," the poem that served as the introduction to Daddy Yankee's debut album. Among the volume's striking images are photographs from Miguel Luciano's series Pure Plantainum, a meditation on identity politics in the bling-bling era, and photos taken by the reggaeton videographer Kacho López during the making of the documentary *Bling'd: Blood, Diamonds, and Hip-Hop*. Contributors. Geoff Baker, Tego Calderón, Carolina Caycedo, Jose Davila, Jan Fairley, Juan Flores, Gallego (José Raúl González), Félix Jiménez, Kacho López, Miguel Luciano, Wayne Marshall, Frances Negrón-Muntaner, Alfredo Nieves Moreno, Ifeoma C. K. Nwankwo, Deborah Pacini Hernandez, Raquel Z. Rivera, Welmo Romero Joseph, Christoph Twickel, Alexandra T. Vazquez

the politics of dancing lyrics: We are the Champions: The Politics of Sports and Popular Music Ken McLeod, 2016-02-11 Sports and popular music are synergistic agents in the construction of identity and community. They are often interconnected through common cross-marketing tactics and through influence on each other's performative strategies and stylistic content. Typically only

studied as separate entities, popular music and sport cultures mutually 'play' off each other in exchanges of style, ideologies and forms. Posing unique challenges to notions of mind - body dualities, nationalism, class, gender, and racial codes and sexual orientation, Dr Ken McLeod illuminates the paradoxical and often conflicting relationships associated with these modes of leisure and entertainment and demonstrates that they are not culturally or ideologically distinct but are interconnected modes of contemporary social practice. Examples include how music is used to enhance sporting events, such as anthems, chants/cheers, and intermission entertainment, music that is used as an active part of the athletic event, and music that has been written about or that is associated with sports. There are also connections in the use of music in sports movies, television and video games and important, though critically under-acknowledged, similarities regarding spectatorship, practice and performance. Despite the scope of such confluences, the extraordinary impact of the interrelationship of music and sports on popular culture has remained little recognized. McLeod ties together several influential threads of popular culture and fills a significant void in our understanding of the construction and communication of identity in the late twentieth and early twenty-first centuries.

the politics of dancing lyrics: Music, National Identity and the Politics of Location

Vanessa Knights, 2016-04-29 How are national identities constructed and articulated through music? Popular music has long been associated with political dissent, and the nation state has consistently demonstrated a determination to seek out and procure for itself a stake in the management of 'its' popular musics. Similarly, popular musics have been used 'from the ground up' as sites for both populist and popular critiques of nationalist sentiment, from the position of both a globalizing and a 'local' vernacular culture. The contributions in this book arrive at a critical moment in the development of the study of national cultures and musicology. The book ranges from considerations of the ideological focus of cultural nationalism through to analyses of musical hybridity and musical articulations of other kinds of identities at odds with national identity. The processes of global homogenization are thereby shown to have brought about a transitional crisis for national cultural identities: the evolution of these identities, particularly with reference to the concept of 'authenticity' in music, is situated within broader debates on power, political economy and constructions of the self. Theorizations of practice are employed after the manner of Bourdieu, Gramsci, Goffman, Gadamer, Habermas, Bhabha, Lacan and Zizek. Each contribution acts as a case study to characterize the strategies through which differing modes of musical discourse engage, critique or obscure discourses on national identity. The studies include discussions of: musical representations of Irishness; the relationship between Afropop and World Music; Norwegian club music; the revival of traditional music in Serbia; resistance to cultural homogeneity in Brazil; contemporary Uyghur song in Northwest China; rap and race in French society; technobanda from the barrios of Los Angeles, and Spanish/Moroccan raï. In this way, the book seeks to characterize the ideological configurations that help to activate and sustain hegemonic, amb

the politics of dancing lyrics: The Song Is You Bradley Rogers, 2020-10-15 Musicals, it is often said, burst into song and dance when mere words can no longer convey the emotion. This book argues that musicals burst into song and dance when one body can no longer convey the emotion. Rogers shows how the musical's episodes of burlesque and minstrelsy model the kinds of radical relationships that the genre works to create across the different bodies of its performers, spectators, and creators every time the musical bursts into song. These radical relationships—borne of the musical's obsessions with "bad" performances of gender and race—are the root of the genre's progressive play with identity, and thus the source of its subcultural power. However, this leads to an ethical dilemma: Are the musical's progressive politics thus rooted in its embrace of regressive entertainments like burlesque and minstrelsy? *The Song Is You* shows how musicals return again and again to this question, and grapple with a guilt that its joyous pleasures are based on exploiting the laboring bodies of its performers. Rogers argues that the discourse of "integration"—which claims that songs should advance the plot—has functioned to deny the radical work that the musical undertakes every time it transitions into song and dance. Looking at musicals from *The Black Crook*

to Hamilton, Rogers confronts the gendered and racial dynamics that have always under-girded the genre, and asks how we move forward.

the politics of dancing lyrics: The Politics of the Stuart Court Masque David Bevington, Peter Holbrook, 1998-11-19 A 1998 collection which takes an alternative look at the courtly masque in early seventeenth-century England.

the politics of dancing lyrics: The Body, the Dance and the Text Brynn Wein Shiovitz, 2019-01-25 This collection of new essays explores the many ways in which writing relates to corporeality and how the two work together to create, resist or mark the body of the Other. Contributors draw on varied backgrounds to examine different movement practices. They focus on movement as a meaning-making process, including the choreographic act of writing. The challenges faced by marginalized bodies are discussed, along with the ability of a body to question, contest and re-write historical narratives.

the politics of dancing lyrics: Hybrid Hong Kong Kwok-bun Chan, 2013-09-13 Hybrid Hong Kong attempts to attract and excite the intellectual, cultural, economic and political elites as well as the intelligent laymen of Hong Kong - hopefully enough for them to take a closer look at their society - while engendering a public discourse on the city's identity, its past, present and future. Hong Kong is at its crossroads. With a colonial past and having been handed over, and back, to China in 1997, the city has since been going through a process of re-sinification and re-integration (not entirely wanted) into the Pearl River Delta region of mainland China, all of which have far-reaching consequences for identity politics, culture, loyalty and attachment, and everyday livelihood. The hybridity concept offers an in-between space, and time, to narrate, describe and make sense of the many layers of entanglement of cultural, anthropological, economic and political forces that impinge, impact, sometimes confuse, even disturb, the everyday lives of the Hongkongers who have decided to call the city home. The book probes a range of sites and locales of a Hongkonger's natural habitat, including film and television, ethnicity, popular music videos, gay identities, fashion, art, theatre, Cantopop electronic dance music, museum, visual arts, the Muslim youth, food and cuisine, and Chinese and western medicines. Based on ethnography, fieldwork and participant observation, Hybrid Hong Kong intends to display and explain hybridity as it is performed in the public as well as private spheres of city life. This book was originally published as a special issue of Visual Anthropology.

the politics of dancing lyrics: The Oxford Handbook of Dance and Competition Sherril Dodds, 2019 This Handbook asks how competition affects the presentation and experience of dance.

the politics of dancing lyrics: Encyclopedia of Critical Political Science Clyde W. Barrow, 2024-03-14 An indispensable and exemplary reference work, this Encyclopedia adeptly navigates the multidisciplinary field of critical political science, providing a comprehensive overview of the methods, approaches, concepts, scholars and journals that have come to influence the discipline's development over the last six decades.

the politics of dancing lyrics: Dancing in the Millennium (Conference : 2000 : Washington, D.C.), 2000

the politics of dancing lyrics: Continuum Encyclopedia of Popular Music of the World, 2003-01-30 'This is an extraordinary achievement and it will become an absolutely vital and trusted resource for everyone working in the field of popular music studies. Even more broadly, anyone interested in popular music or popular music culture more generally will enjoy - and find many uses for - the wealth of information and insight captured in this volume.' Lawrence Grossberg, Morris Davis Professor of Communication Studies and Cultural Studies, University of North Carolina at Chapel Hill The first comprehensive reference work on popular music of the world Contributors are the world's leading popular music scholars Includes extensive bibliographies, discographies, sheet music listings and filmographies. Popular music has been a major force in the world since the nineteenth century. With the advent of electronic and advanced technology it has become ubiquitous. This is the first volume in a series of encyclopedic works covering popular music of the world. Consisting of some 500 entries by 130 contributors from around the world. Entries range

between 250 and 5000 words, and is arranged in two Parts: Part 1: Social and Cultural Dimensions, covering the social phenomena of relevance to the practice of popular music. Part II: The Industry, covers all aspects of the popular music industry, such as copyright, instrumental manufacture, management and marketing, record corporations, studios, companies, and labels. Entries include bibliographies, discographies and filmographies, and an extensive index is provided. For more information visit the website at: www.continuumpopmusic.com

the politics of dancing lyrics: *Kierkegaard and Political Theology* Roberto Sirvent, Silas Morgan, 2018-03-06 The nature of Kierkegaard's political legacy is complicated by the religious character of his writings. Exploring Kierkegaard's relevancy for this political-theological moment, this volume offers trans-disciplinary and multi-religious perspectives on Kierkegaard studies and political theology. Privileging contemporary philosophical and political-theological work that is based on Kierkegaard, this volume is an indispensable resource for Kierkegaard scholars, theologians, philosophers of religion, ethicists, and critical researchers in religion looking to make sense of current debates in the field. While this volume shows that Kierkegaard's theological legacy is a thoroughly political one, we are left with a series of open questions as to what a Kierkegaardian interjection into contemporary political theology might look like. And so, like Kierkegaard's writings, this collection of essays is an argument with itself, and as such, will leave readers both edified and scratching their heads—for all the right reasons.

the politics of dancing lyrics: *After the Dance, the Drums are Heavy* Rebecca Dirksen, 2020 Richly ethnographic and a compelling read, *After the Dance, the Drums Are Heavy* is a study of carnival, politics, and the musical engagement of ordinary citizens and celebrity musicians in contemporary Haiti. The book explores how the self-declared president of konpa Sweet Micky (Michel Martelly) rose to the nation's highest office while methodically crafting a political product inherently entangled with his musical product. It offers deep historical perspective on the characteristics of carnivalesque verbal play-and the performative skillset of the artist (Sweet Micky) who dominated carnival for more than a decade-including vulgarities and polemics. Yet there has been profound resistance to this brand of politics led by many other high-profile artists, including Matyas and J♦j, Brothers Posse, Boukman Eksperyans, and RAM. These groups have each released popular carnival songs that have contributed to the public's discussions on what civic participation and citizenship in Haiti can and should be. Drawing on more than a decade and a half of ethnographic research, Rebecca Dirksen presents an in-depth consideration of politically and socially engaged music and what these expressions mean for the Haitian population in the face of challenging political and economic circumstances. *After the Dance, the Drums Are Heavy* centers the voices of Haitian musicians and regular citizens by extensively sharing interviews and detailed analyses of musical performance in the context of contemporary events well beyond the musical realm.

the politics of dancing lyrics: *Pop Masculinities* Kai Arne Hansen, 2021 *Pop Masculinities* explores the many ways in which twenty-first century pop artists perform masculinity through their songs, music videos, and public appearances. This offers a point of entry for addressing broader gender issues in contemporary popular culture and society.

the politics of dancing lyrics: *Billboard* , 2001-12-29 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

the politics of dancing lyrics: *EMPIRE STRIKES BACK* Centre for Contemporary Cultural Studies, 2004-08-02 First Published in 1982. Routledge is an imprint of Taylor & Francis, an informa company.

the politics of dancing lyrics: *Living Politics, Making Music* Jan Fairley, edited by Simon Frith, Ian Christie, 2016-05-13 The late Jan Fairley (1949-2012) was a key figure in making world music a significant topic for popular music studies and an influential contributor to such world music magazines as *fRoots* and *Songlines*. This book celebrates her contribution to popular music

scholarship by gathering her most important work together in a single place. The result is a richly informed and entertaining volume that will be of interest to all scholars in the field while also serving as an excellent introduction for students interested in popular music as a global phenomenon. Fairley's work was focused on the problems and possibilities of cross-cultural musical influences, fantasies and flows and on the importance of performing circuits and networks. Her interest in the details of music-making and in the lives of music-makers means that this collection is also an original and illuminating study of music and politics. In drawing on Jan Fairley's journalism, this volume also offers students a guide to various genres of world music, from Cuban son to flamenco, as well as an insight into the lives of such world music stars as Mercedes Sosa and Silvio Rodríguez. This is inspiring as well as essential reading.

the politics of dancing lyrics: The Pet Shop Boys and the Political Bodie A. Ashton, 2024-01-25 The Pet Shop Boys came of age at a time of deep socio-political tension. From the rise of sexual politics and awareness to Thatcherite neoliberalism and the Cold War, this book explores the cultural and political impact of the band and offers a fascinating window into the late 20th and early 21st centuries. An archetypal 'gay band', it shows how their overt queerness influenced generations of LGBTQIA+ music lovers and artists alike. Covering the full oeuvre of The Pet Shop boys; their albums, films, stage productions and collaborations, chapters in this collection show how their work is suffused with political commentary on the past and present covering themes as broad as queer identity, the HIV/AIDs epidemic, globalization and Brexit. It also places them within the context of their times and considers them as activists, authors, social commentators, political actors and personalities to better understand what influenced them. Bringing together a range of perspectives and disciplines, The Pet Shop Boys and the Political provides a unique and untapped insight into a formative pop band of the modern era that has mirrored and shaped society over the past forty years.

the politics of dancing lyrics: Dancing Culture Religion Sam Gill, 2012-08-03 Provocative insights into the nature of dancing as inseparable from human vitality and distinctiveness emerge from this spiraling study of specific cultural dance traditions brought into conversation with various philosophical/theoretical perspectives centering on the topics: movement, gesture, play, masking, ritual, seduction, performance, religion; each the subject of engaging innovative analysis. The author draws on experience as dancer and academic to address contemporary issues such as gender identity development and plasticity and acuity throughout the lifespan.

the politics of dancing lyrics: Commodities and Globalization Angelique Haugerud, Margaret Priscilla Stone, Peter D. Little, 2000 Today's growing fascination with flows of people, commodities, technology, capital, images and ideas across national and other boundaries poses fresh theoretical and methodological challenges to anthropology. Commodities offer a particularly useful window on globalization because they, unlike electronically conveyed capital, transport cultural messages. These ideological or symbolic transfers are of particular interest to economic anthropology. This collection considers how conceptions and roles of commodities may change in response to widening spheres of economic interaction and exchange. The essays in this volume are ordered under two themes. Those included in the first section, Commodities in a Globalizing Marketplace, address historically and culturally defined variations in meanings and practices associated with commodities in globalizing markets. In Part Two, The Circulation and Revaluation of Commodities, contributors analyze how commodity producers' experiences are informed by colonial and post-colonial history, state directives in the marketplace, and locations in dependent or marginalized regions. The chapters all focus on the production process as it responds to, is distorted by and increasingly is controlled by the determination of the value of those commodities outside a locality.

the politics of dancing lyrics: Global Bollywood Sangita Gopal, Sujata Moorti, 2008

Bollywood movies and their signature song-and-dance spectacles are an aesthetic familiar to people around the world, and Bollywood music now provides the rhythm for ads marketing goods such as computers and a beat for remixes and underground bands. These musical numbers have inspired scenes in Western films such as *Vanity Fair* and *Moulin Rouge*. Global Bollywood shows how this currency in popular culture and among diasporic communities marks only the latest phase of the genre's world travels. This interdisciplinary collection describes the many roots and routes of the Bollywood song-and-dance spectacle. Examining the reception of Bollywood music in places as diverse as Indonesia and Israel, the essays offer a stimulating redefinition of globalization, highlighting the cultural influence of Hindi film music from its origins early in the twentieth century to today. Contributors: Walter Armbrust, Oxford U; Anustup Basu, U of Illinois, Urbana-Champaign; Nilanjana Bhattacharjya, Colorado College; Edward K. Chan, Kennesaw State U; Bettina David, Hamburg U; Rajinder Dudrah, U of Manchester; Shanti Kumar, U of Texas, Austin; Monika Mehta, Binghamton U; Anna Morcom, Royal Holloway College; Ronie Parciack, Tel Aviv U; Biswarup Sen, U of Oregon; Sangita Shrestova; Richard Zumkhawala-Cook, Shippensburg U. Sangita Gopal is assistant professor of English at the University of Oregon. Sujata Moorti is professor of women's and gender studies at Middlebury College.

the politics of dancing lyrics: Entertainment Media and Politics Robert Lance Holbert,

2016-03-17 The prominence of politically-themed entertainment is evident across the global media landscape. Given its popularity, it is important to gain a firm understanding of the mechanisms through which this diverse and multi-faceted content can generate democratic outcomes. In addition, it is essential to isolate and predict properly the strength of a given effect and the conditions under which a specific outcome will become evident. The works contained in this edited volume explore affect- and cognition-driven processes of influence, recognizing that humans are both emotional and rational beings. In addition, empirical evidence is offered to isolate and compare specific types of political entertainment media content (e.g., different types of satire) and citizens' proclivities for this content (e.g., a person's Affinity for Political Humor), in order to best understand the complex means by which entertainment media can generate political influence. Attention is also paid to expanding what can and should be defined as political entertainment media, which includes opinion-based political talk programming. The collection and its authors represent a global perspective to reflect the rise of political entertainment media as a global phenomenon. This book was originally published as a special issue of *Mass Communication and Society*.

the politics of dancing lyrics: Teaching Politics Beyond the Book Robert W. Glover, Daniel

Tagliarina, 2012-11-22 To teach political issues such as political struggle, justice, interstate conflict, etc. educators rely mostly on textbooks and lectures. However, many other forms of narrative exist that can elevate our understanding of such issues. This innovative work seeks new ways to foster learning beyond the textbook and lecture model, by using creative and new media, including graphic novels, animated films, hip-hop music, Twitter, and more. Discussing the opportunities these media offer to teach and engage students about politics, the work presents concrete ways on how to use them, along with teaching and assessment strategies, all tested in the classroom. The contributors are dedicated educators from various types of institutions whose essays span a variety of political topics and examine how non-traditional texts can promote critical thinking and intellectual growth among students in colleges and universities. The first of its kind to discuss a wide range of alternative texts and media, the book will be a valuable resource to anyone seeking to develop innovative curricula and engage their students in the study of politics.

the politics of dancing lyrics: Music Borrowing and Copyright Law Enrico Bonadio, Chen Wei

Zhu, 2023-10-19 This ground-breaking book examines the multifaceted dynamics between copyright law and music borrowing within a rich diversity of music genres from across the world. It evaluates

how copyright laws under different generic conventions may influence, or are influenced by, time-honoured creative borrowing practices. Leading experts from around the world scrutinise a carefully selected range of musical genres, including pop, hip-hop, jazz, blues, electronic and dance music, as well as a diversity of region-specific genres, such as Jamaican music, River Plate Tango, Irish folk music, Hungarian folk music, Flamenco, Indian traditional music, Australian indigenous music, Maori music and many others. This genre-conscious analysis builds on a theoretical section in which musicologists and lawyers offer their insights into fundamental issues concerning music genre categorisation, the typology of music borrowing and copyright law's ontological struggle with musical borrowing in theory and practice. The chapters are threaded together by a central theme, ie, that the cumulative nature of music creativity is the result of collective bargaining processes among many 'musicking' parties that have socially constructed creative music authorship under a rich mix of generic conventions.

the politics of dancing lyrics: [Playful Protest](#) Kristie Soares, 2023-09-05 Pleasure-based politics in Puerto Rican and Cuban pop culture Joy is a politicized form of pleasure that goes beyond gratification to challenge norms of gender, sexuality, race, and class. Kristie Soares focuses on the diasporic media of Puerto Rico and Cuba to examine how music, public activist demonstrations, social media, sitcoms, and other areas of culture resist the dominant stories told about Latinx joy. As she shows, Latinx creators compose versions of joy central to social and political struggle and at odds with colonialist and imperialist narratives that equate joy with political docility and a lack of intelligence. Soares builds her analysis around chapters that delve into gozando in salsa music, precise joy among the New Young Lords Party, choteo in the comedy ¿Qué Pasa U.S.A.?, azúcar in the life and death of Celia Cruz, dale as Pitbull's signature affect, and Alexandria Ocasio-Cortez's use of silliness to take seriously political violence. Daring and original, [Playful Protest](#) examines how Latinx creators resist the idea that joy only exists outside politics and activist struggle.
